Réamhaiste

Tá tírdhreach oileán na hÉireann roinnte ar bhealach leithleach. Déantar an t-oileán seo a roinnt ina 67,000 aonad riaracháin éagsúil agus tá struchtúr cliarlathach ag baint leis na haonaid seo (Mac Giolla Easpaig, 2009: 81). Tá na cúigí roinnte ina gcontaetha (32), tá na contaetha roinnte ina mbarúntachtaí (327) agus na barúntachtaí roinnte ina bparóistí sibhialta (2,428). Is é an baile fearainn an t-aonad riaracháin is lú sa tír agus tá 60,462 díobh ann. Anuas ar na haonaid seo, tá na céadta míle ainm eile a thugtar ar ghnéithe topagrafacha agus saorga éagsúla ar fud na tíre. Dírítear sa tráchtas seo ar iniúchadh a dhéanamh ar an mbaile fearainn. Déantar iniúchadh ar ainmneacha na mbailte fearainn trí fhoirmeacha stairiúla na n-ainmneacha sin a bhailiú le chéile as raon leathan foinsí, i dteannta le foirmeacha foghraíochta áitiúla a thaifeadadh. Socraítear na foirmeacha sin i liostaí cróineolaíocha d'fhonn comhdhéanamh na logainmneacha a scrúdú.

Cúlra an Tionscadail

Bronnadh sparánacht taighde de chuid na Roinne Gnóthaí Pobail, Tuaithe agus Gaeltachta orm sa bhliain 2006 ar mhaithe le céim mháistreachta a dhéanamh sa Nua-Ghaeilge a bhí dírithe ar fhoirmeacha stairiúla d'ainmneacha na mbailte fearainn laistigh de thrí bharúntacht i lár Chontae Ros Comáin a bhailiú le chéile. Bhí an tionscadal maoinithe ag an gCrannchur Náisiúnta agus rinneadh an taighde i gcomhpháirtíocht le foireann an Bhrainse Logainmneacha sa Roinn Gnóthaí Pobail, Tuaithe agus Gaeltachta. Bhí sí mar aidhm ag an sparánacht seo mic léinn iarchéime a chur ag obair ar ainmneacha bhailte fearainn na hÉireann agus chun tacú le hobair an Bhrainse Logainmneacha.¹ Tá an Brainse Logainmneacha ag déanamh taighde ar leaganacha oifigiúla Gaeilge bhailte fearainn na hÉireann le fada an lá agus ó theacht i bhfeidhm Acht na dTeangacha Oifigiúla, 2003, go sonrach Cuid 5 an Achta sin, tháinig borradh faoi thaighde ar logainmneacha na hÉireann in ollscoileanna na tíre.²

Bhí an miontráchtas teoranta, de cheal ama, do chóradh ar naoi mórfhoinsé chun foirmeacha stairiúla ainmneacha na mbailte fearainn i mbarúntachtaí Bhaile an Tobair Thuaidh, Bhaile an Tobair Theas agus Ros Comáin a bhailiú le chéile den chéad uair riamh. Bhí foirmeacha stairiúla de 622 baile fearainn le bailiú le chéile

¹ Féach cur síos ar chúlra an Bhrainse Logainmneacha ag <http://www.logainm.ie/>.

² Is féidir súil a chaitheamh ar an gcuid ábhartha d'Acht na dTeangacha Oifigiúla, 2003, ar-líne ag: <http://acts.oireachtas.ie/ga.act.2003.0032.6.html#partv-sec31>.

laistigh d’achar ocht mí, agus ní raibh gá le tráchttaireacht a dhéanamh ar na foirmeacha a bailíodh, cé is moite den phlé a rinneadh ar mhíreanna logainmníocha coitianta an cheantair. Baineadh an chéim mháistreachta amach i Samhain 2007 agus cuireadh tráchtas dar teideal ‘Logainmneacha Chontae Ros Comáin: Ainmneacha na mbailte fearainn i mbarúntachtaí Ros Comáin, Baile an Tobair Thuaidh agus Baile an Tobair Theas’ faoi bhráid Ollscoil na hÉireann, Gaillimh, bunaithe ar obair na bliana sin.

Tugadh faoi thráchtas dochtúireachta ar thuaisceart Chontae Ros Comáin i mí Feabhra 2008 agus é i gceist, an babhta seo, na foirmeacha stairiúla d’ainmneacha na mbailte fearainn i mbarúntacht Mhainistir na Búille a bhailiú ó raon leathan foinsí, nótaí tráchttaireachta a scríobh ar na hainmneacha sin, agus obair allamuigh a dhéanamh sa cheantar taighde. Caitheadh samhradh na bliana 2008 ag obair leis an tionscadal *Locus* i gColáiste na hOllscoile, Corcaigh, ar *Foclóir Stairiúil Áitainmneacha na Gaeilge*, ar mhaithe le cur amach níos doimhne a fháil ar luathfhoinsí na Gaeilge. Caitheadh tréimhse mar scoláire ar cuairt in Ollscoil Cambridge, Sasana, go luath i 2009 chun dul i ngleic le foinsí Béarla na hainmeolaíochta. Glacadh sos taighde ó Lúnasa 2010 go dtí Lúnasa 2011 chun tabhairt faoi phost in Ollscoil Luimnigh agus tugadh faoin taighde dochtúireachta in athuair i mí Mheán Fómhair 2011.

Aidhm an Tionscadail

Tá sí ina haidhm ag an tionscadal taighde seo anailís chuimsitheach a dhéanamh ar mhéid suntasach d’ainmneacha na mbailte fearainn i mbarúntacht Mhainistir na Búille, Co. Ros Comáin, d’fhonn leaganacha údarásacha Gaeilge na n-ainmneacha sin a mholadh. Bainfear leas as modheolaíochtaí atá in úsáid i dtaighde scolártha ar logainmneacha in Éirinn le breis agus 180 bliain anuas leis an aidhm seo a bhaint amach. Déanfar cur síos ar na modheolaíochtaí a úsáideadh agus ar leagan amach an tsaothair i **Modheolaíocht an Taighde** agus **Leagan Amach an Tráchtais** thíos.

Táthar ag súil go mbeidh ábhar an tionscadail seo ina bhunchloch ag an gCoimisiún Logainmneacha agus é ag iarraidh leaganacha Gaeilge ainmneacha na mbailte fearainn i dtuaisceart Ros Comáin a dheimhniú. Táthar ag súil freisin go mbeidh an saothar seo ina chúnadh do thaighdeoirí staire, do sheandálaithe agus do lucht an ghinealais atá ag plé le tuaisceart Chonnacht ina gcuid réimsí taighde féin, toisc go gcrúnnítear le chéile anseo breis agus 7400 tagairt stairiúil d’ainmneacha sa

cheantar taighde. Níl macasamhail an tsaothair seo ann a dhíríonn ar ainmneacha an cheantair seo agus ní fhaightear le chéile, in aon cháipéis amháin, an líon céanna de thagairtí stairiúla d'áiteanna éagsúla i dtuaisceart Ros Comáin. Tá blúiríní beaga taighde déanta ag M.J. Connellan (1952) ar ainmneacha i ndeoise Ail Finn³, ag Dermot Mac Dermot (1996) ar Chlann Mhic Dhiarmada i ndúiche Mhagh Loirg⁴ agus ag an gCanónach Henry Tonra (2001) i bparóistí Ard Carna agus Thuaim Ná⁵ ach níl aon obair chuimsitheach déanta ó bhí Seán Ó Donnabháin ag déanamh iniúchta ar ainmneacha an cheantair in aimsir na Suirbhéireachta Ordanáis i lár an 19ú haois.

Beifear ag súil go mbainfear leas as an taighde seo agus Ordú Logainmneacha⁶ á réiteach do Chontae Ros Comáin agus go gcuirfear formhór an taighde seo ar fáil don phobal tríd an suíomh gréasáin www.logainm.ie. Tá sé ina bheartas rialtais go mbeidh leaganacha Gaeilge dlíthiúla ag logainmneacha riaracháin na hÉireann roimh 2020 (Mac Giolla Easpaig, 2009: 83).

Déanfar iarracht sa tráchtas seo foirmeacha stairiúla ainmneacha na mbailte fearainn a rianú siar sna foinsí roghnaithe chomh fada agus is féidir agus is cinnte go mbeidh cúpla ceist ag eascairt as an bpróiseas seo. An féidir linn bunfhoirm Ghaeilge an ainm a dheimhniú? Céard iad na tréithe coitianta atá le feiceáil i leaganacha béarlaithe na n-ainmneacha? An bhfuil malairt leagain d'ainm an lae inniu teastaithe i bhfad siar, roimh radharc ar bith ar leagan an lae inniu? An bhfuil raon míreanna faoi leith coitianta sa cheantar taighde? An féidir nasc a dhéanamh idir úsáid míreanna áirithe agus topagrafaíocht an cheantair?

An Ceantar Taighde

Tá an ceantar taighde suite i mbarúntacht Mhainistir na Búille i dtuaisceart Chontae Ros Comáin i gCúige Chonnacht. Áirítear na seandúichí ar a dtugtaí *Magh Loirg*, *Tír Thuathail* agus *Uachtar Thíre* sa bharúntacht seo. Tá Contae Shligigh ar theorainn thiar na barúntachta agus tá Contae Liatroma ar an taobh thoir di. Tá barúntachtaí

Dhún Gar agus Ros Comáin buailte le teorainn theas na barúntachta. Tá sliabhraon íseal darb ainm An Corrshliabh san iarthuaisceart, agus is iad Loch Cé, Loch Arbhach agus Loch Aillionn lochanna móra na barúntachta. Tá an talamh feirme is fearr i ndeisceart na barúntachta i gceantar ar a dtugtar ‘Machairí na Búille’. Tá criosanna droimníní go flúirseach sa tuaisceart agus is iondúil go mbíonn talamh portaigh le fáil idir na criosanna seo. Tá dhá abhainn shuntasacha sa cheantar: An tSionainn ar theorainn thoir na barúntachta agus An Bhúill ina lár, a roinneann an bharúntacht ina dhá leath. Gheofar léarscáil thopagrafach den cheantar taighde ar chúl an tsaothair faoi **Léarscáileanna**.

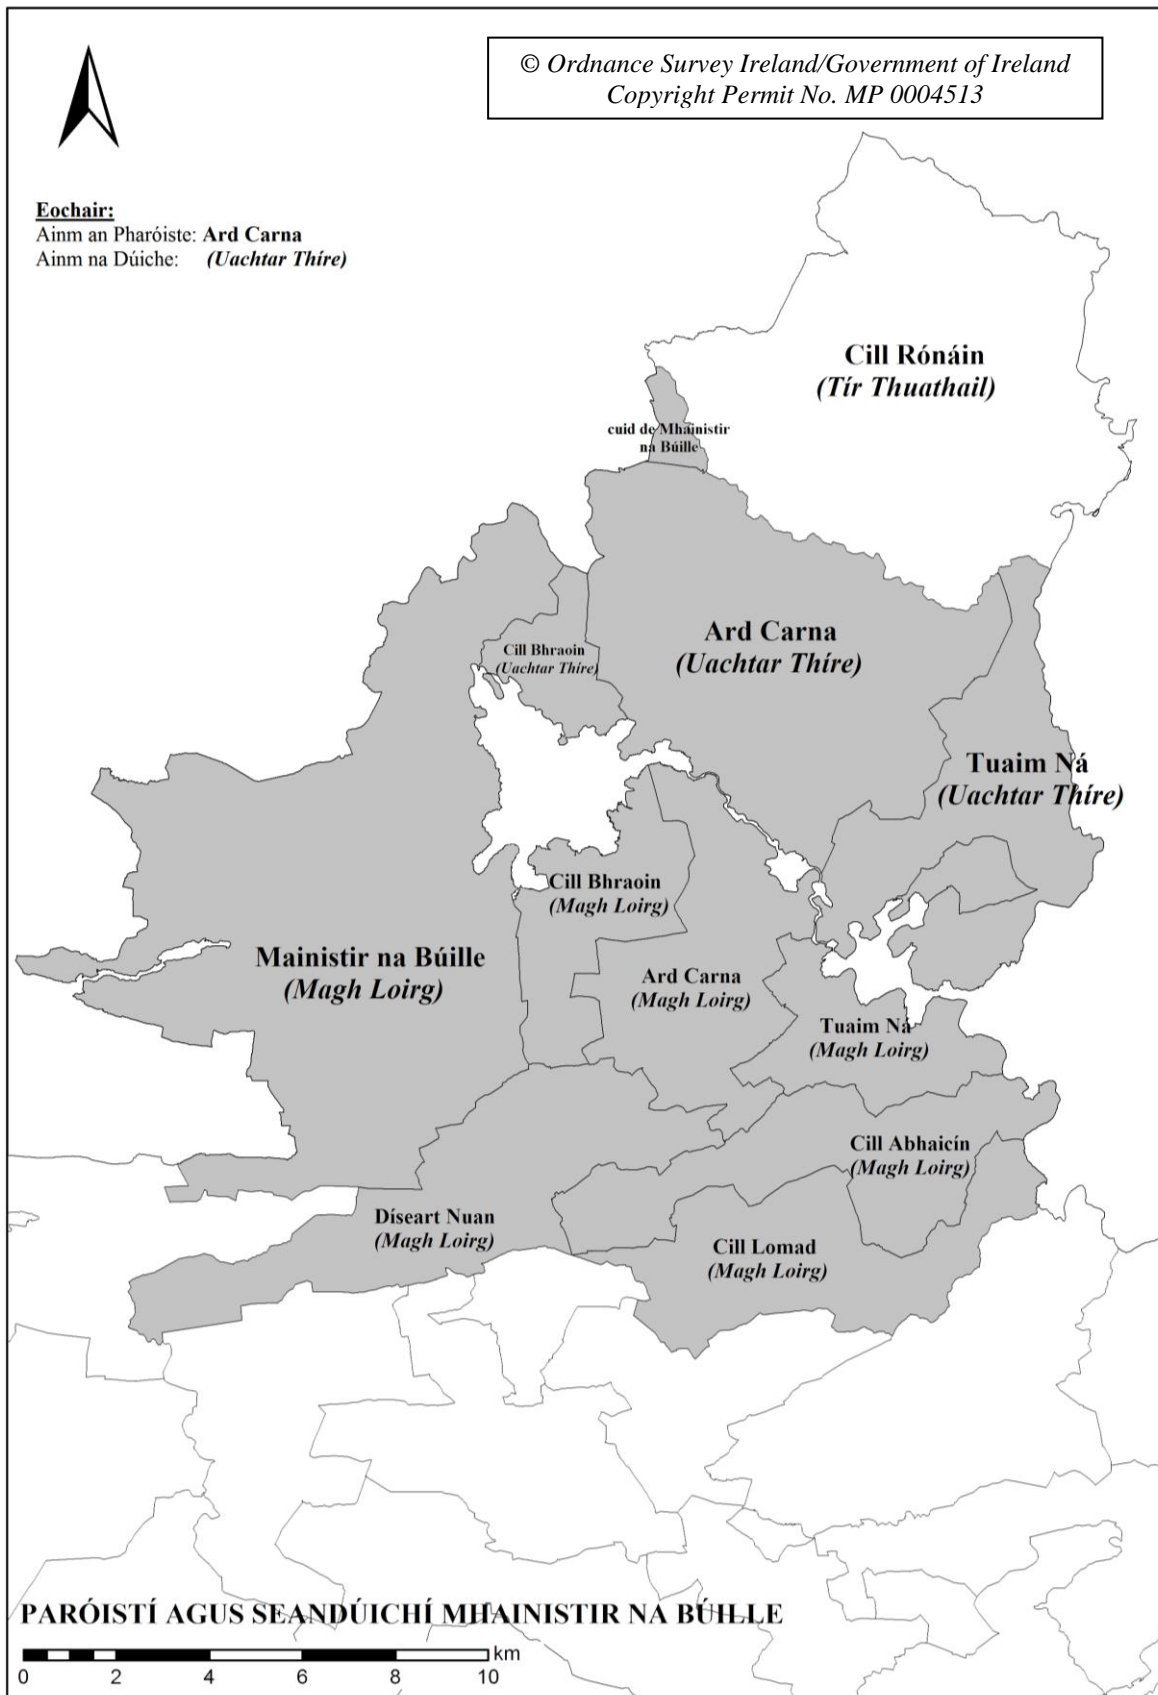

Tá 377 baile fearainn éagsúil i mbarúntacht Mhainistir na Búille agus iad roinnte idir na paróistí sibhialta seo a leanas: Ard Carna (90), Cill Abhaicín (29), Cill Bhraoin (20), Cill Lomad (16), Cill Rónáin (77) Díseart Nuan (23), Mainistir na Búille (71) agus Thuaim Ná (51). Ní mór a lua go bhfuil cúig cinn den 377 baile fearainn roinnte thar dhá/trí pharóiste .i. Carrowmore, Pollower agus Rathdiveen idir paróistí Ard Carna agus Chill Bhraoin; Rockingham Demesne idir paróistí Ard Carna, Chill Bhraoin agus Mhainistir na Búille; agus roinntear Deerpark idir Cill Abhaicín agus Cill Lomad. Is oileáin iad 16 baile fearainn sa bharúntacht. Tá 367 baile fearainn éagsúil ann nuair a bhaintear as an áireamh na leaganacha *East, West, Upper, Lower* den ainm céanna agus nuair a bhaintear bailte fearainn le míreanna *More* agus *Beg* atá suite díreach in aice lena chéile. Is ainmneacha bailte fearainn iad sé cinn d’ainmneacha na bparóistí sa bharúntacht seo. Níl baile fearainn den ainm Cill Rónáin (cé is moite bf Kilronan Mountain i bparóiste Chill Rónáin) ná Mainistir na Búille sa bharúntacht.

Mar atá ráite thuas, aithnítear trí sheandúiche sa cheantar taighde seo, mar atá: *Magh Loirg, Tír Thuathail* agus *Uachtar Thíre*. Tá codanna de pharóistí Ard Carna, Chill Abhaicín, Chill Bhraoin, Chill Lomad, Dhíseart Nuan, Mhainistir na Búille agus Thuaim Ná i *Magh Loirg*; codanna d’Ard Carna, de Chill Bhraoin agus de Thuaim Ná in *Uachtar Thíre* agus is ionann paróiste Chill Rónáin, agus *Tír Thuathail*. Socraíodh ar *Thír Thuathail* .i. paróiste Chill Rónáin, a fhágáil as an áireamh mar gheall ar shrianta ama agus teorainn spáis a bheith ar an tráchtas, rud a d’fhág 300 baile fearainn le tráchtairacht a dhéanamh orthu as 377 bf sa bharúntacht.

Ábhar Foilsithe ar Logainmneacha Thuaisceart Ros Comáin

Is é seo an t-aon saothar a dhéanann ainmneacha na mbailte fearainn i dTuaisceart Ros Comáin a chíoradh maille le fianaise chuimsitheach agus nótaí tráchttaireachta a thabhairt ar thopagrafaíocht, ar struchtúr agus ar bhrí na n-ainmneacha sin. Cé go bhfuil cur síos againn ar na bailte fearainn seo in Ainmleabhair na Suirbhéireachta Ordanáis, ní thugtar an méid fhianaise, go háirithe an fhianaise luath, agus ní dhéantar mórán plé ar na leaganacha stairiúla agus áitiúla atá sonraithe ann. Ní miste trácht anois ar ábhar, idir fhoilsithe agus neamhfhoilsithe, atá scríofa faoi logainmneacha an cheantair seo le tuairim agus 60 bliain anuas.

Is é *The Place-names of Elphin Diocese* (1952), leis an Athair Mícheál J. Ó Conalláin⁷ ó Chill Ghlais i gCo. Ros Comáin, an saothar neamhfhoilsithe is tábhachtaí maidir le logainmneacha dheoise Ail Finn. Tá cóip den saothar seo a bhronn an t-údar ar an mBrainse Logainmneacha i 1952 sa chartlann acu agus is éard atá ann ná gasaitéar d'ainmneacha na mbailte fearainn go léir sa deoise, ina dtugtar leagan Béarla, leagan Gaeilge agus ainm an pharóiste. Díol spéise na foirmeacha Gaeilge a mholann sé sa saothar agus is cosúil i gcás Ros Comáin go raibh faisnéiseoirí áitiúla aige sna 1930í a thug na foirmeacha seo dó (go háirithe nuair is ainm Béarla atá ar bhfianaise a bhí bailithe aige, ach amháin ag tús an tsaothair, áit a luann sé páipéir leis a bheith i dTeach an Easpaig i Sligeach. Rinneadh tréaniarracht an t-ábhar seo a aimsiú ach níorbh fhéidir teacht ar aon rian de na páipéir. Gan an fhianaise sin, is deacair teacht ar an mbunús a bhí aige dá leaganacha Gaeilge. D'fhoilsigh Ó Conalláin roinnt alt scolártha maidir le logainmneacha agus dúichí stairiúla i gContaetha Ros Comáin agus na Gaillimhe idir 1943 agus 1963.

Is é *The Parish of Ardcarne: A History* (2001) an t-aon fhoilseachán suntasach eile a rinneadh ina bhfuil trácht ar logainmneacha an cheantair, agus díritear ar logainmneacha i bparóistí Ard Carna agus Thuaim Ná amháin. An Canónach Henry Tonra a scríobh agus faightear ann stair ghinearálta paróiste Caitliceach Ard Carna. Tá an chaibidil ar logainmneacha sa leabhar sin ag tarraingt go mór mór ar obair Uí Dhonnabháin ach go bhfuil blúirí eolais thar a bheith úsáideach ann maidir le mionainmneacha áitiúla atá ag muintir an cheantair nár

⁷ Bhain sé leas as *Connellan*, leagan Béarla dá shloinne, i bhformhór na bhfoilseachán aige.

tháinig chun solais sa taighde don tionscadal seo. Bhain Tonra úsáid as deimhnithe baiste d'fhonn suíomh na mionainmeacha seo a rianú, go háirithe i dtuaisceart pharóiste Ard Carna.

Faightear cuntas breá ar Chlann Mhic Dhiarmada i Magh Loirg in *Mac Dermot of Moylurg: the story of a Connacht family* (1996) scríofa ag Dermot Mac Dermot agus tá cur síos ann ar thopagrafaíocht na dúiche ar lgh. 435-72 den leabhar ach díríonn sé ar na teaghlaigh éagsúla a bhí i réim sa dúiche agus na tailte a bhí ina seilbh, seachas ar shanasaíocht ainmneacha na mbailte fearainn. Faightear tagairtí úsáideacha ann, áfach, de ghníomhais talún a bhaineann le tailte Chlann Mhic Dhiarmada.

I gcásanna áirithe (m.sh. bailte fearainn Cootehall; Rockingham Demesne), b'iontach an áis iad na cártaí a scríobh foireann an Bhrainse Logainmneacha agus iad ag plé le hainmneacha bailte poist agus ainmneacha na mbailte fearainn le trí scór bliain anuas agus tá na cártaí sin scanta anois agus ar fáil faoi ainm an bhaile fearainn ar *Bhunachar Logainmneacha na hÉireann* (<http://www.logainm.ie>).

Déantar logainmneacha thuaisceart Ros Comáin a lua i bhfoilseacháin ghinearálta ar logainmneacha na hÉireann, mar shampla in ailt san iris *Ainm: bulletin of the Ulster Place-Name Society* (1986-), in *Irish Names of Places* le Joyce (1869, 1875, 1913) agus in *Irish Place Names* (2002) le Deirdre agus Laurence Flannagan. Pléitear míreanna coitianta i logainmneacha na hÉireann agus léirítear samplaí as Ros Comáin san *Atlas of Irish Place-Names* (2001) le Patrick O'Connor. Níor mhiste freisin *Onomasticon Goedelicum* (1910) le Hogan a lua ó thaobh leaganacha stairiúla Gaeilge na n-ainmneacha a aimsiú, cé go bhfuil *Foclóir Stairiúil Áitainmneacha na Gaeilge* (2003-), de chuid an tionscnaimh *Locus*, i bhfad Éireann níos éasca le húsáid ná an *Onomasticon*. Faraor níl foilsithe go dtí seo ach ceithre fhascúl den *Fhoclóir Stairiúil* (ainmneacha dar tús *A* agus *B* agus *C-Ceall Fhursa* agus *Ceall Ghabhann-Cláiríne*) ach faightear c. 50 ainm i gceantar taighde an tionscadail seo sna ceithre fhascúl sin. Tá foilseacháin áitiúla eile ann ina ndéantar tagairt do chuid de logainmneacha an cheantair ach ní dhéantar go minic iontu ach ábhar an Ainmleabhair a lua chomh maith leis na teaghlaigh a chónaigh iontu agus, i gcásanna áirithe, déantar tuairimíocht fhánach faoi bhunús an ainm.⁸

Modheolaíocht an Taighde

Ó thaobh modheolaíochta de, baintear leas as an ngnáthmhodh oibre atá in úsáid sa réimse taighde seo le breis agus 180 bliain anuas, ó thug an scoláire aithnidiúil Seán Ó Donnabháin (1806-1861) faoi logainmneacha na hÉireann sa 19ú haois. Chuir an Donnabhánach roimhe nasc a léiriú idir logainmneacha na tíre agus foirmeacha díobh a bhí teastaithe i bhfoinsí stairiúla. Ní miste a rá gur spléachadh teoranta ab ea saothar an Donnabhánaigh, gné a fhágann bearnaí áirithe san fhianaise aige. Ó 1956 i leith, tá an Brainse Logainmneacha, a bhí mar rannán sa tSuirbhéireacht Ordanáis ar dtús, ag déanamh taighde ar logainmneacha na hÉireann agus í mar aidhm acu leaganacha caighdeánaithe logainmneacha a mholadh. Ghlac an Brainse leis an modheolaíocht eolaíoch a bhí curtha chun cinn ag an institiúid taighde logainmneacha de chuid na Sualainne darb ainm an *Ortnamnsarkivet* (Mac Giolla Easpaig, 2009: 82). Is éard a bhí i gceist leis an modheolaíocht seo ná foirmeacha éagsúla d'ainmneacha a bhaint as foinsí stairiúla agus an fhoghraíocht áitiúil a bhailiú ó mhuintir an cheantair chun na foirmeacha sin a cheangal le hainmneacha an lae inniu.

Tá an cur chuige seo léirithe go cruinn i gcás na hÉireann in imleabhair na sraithe *Logainmneacha na hÉireann* a d'ullmhaigh foireann an Bhrainse ó 1990 i leith. Déantar ainmneacha bailte fearainn Chontae Luimnigh a leagan amach in Ó Maolfabhail (1990) agus déantar iniúchadh domhain ar na míreanna *cill* agus *cluain* i logainmneacha i gContae Thiobraid Árann in Ó Cearbhail (2007; 2010). Tá dhá imleabhar eile sa tsraith seo á réiteach faoi láthair, ceann ar logainmneacha Cho. Loch Garman agus imleabhar eile ar logainmneacha i mbarúntacht Orbhraí agus na Coille Móire, Co. Chorcaí. Is gaire don saothar seo, áfach, an mhodheolaíocht agus go háirithe an leagan amach atá le fáil sa tsraith *Place-Names of Northern Ireland*, a d'eisigh an Northern Ireland Place-Name Project (ocht n-imleabhar go dtí seo), áit a bhfuil tráchtairacht níos faide ar ainmneacha na mbailte fearainn agus go bhfuil ainmneacha na mbailte fearainn leagtha amach de réir paróistí.

Maidir le hainmneacha an lae inniu a cheangal leis na seanfhoirmeacha stairiúla, éascaítear an próiseas go mór má dhéantar tailte atá in aice a chéile a

liostáil sa bhunfhoirse. Sna cásanna nach bhfuil áiteanna eile in aice láithreach liostaithe, uaireanta is féidir úsáid a bhaint as ainmneacha agus sloinnte na ndaoine atá liostaithe mar úinéirí nó úinéirí easáitithe na dtailte, chun suíomh na háite sin a dheimhniú. Uaireanta eile, déantar méid na talún atá luaite sa bhunfhoirse a chur i gcomparáid le méid an lae inniu. Cleachtas úsáideach atá ansin nuair a bhíonn roinnt ainmneacha tar éis titim as feidhm agus gan fágtha inniu ach rannán mór amháin.

Déantar iarracht i gcónaí an fhoirm is sine den ainm a aithint d'fhonn sanasaíocht an ainm a dheimhniú agus is cuma más i nGaeilge, Laidin nó Béarla atá an bhunfhoirm sin. Cuirtear béim ar an litriú luath, go háirithe má tá ainm teastaithe don chéad uair sa Ghaeilge. Bíonn cuid de na foinsí luatha Béarla agus Laidine (m.sh. *Fiants, Ionchoisní*) an-úsáideach mar go gcaomhnaítear foirmeacha iontu atá an-ghar don bhunfhoirm Ghaeilge ó thaobh fuaime de. Déantar na buntáistí agus míbhuntáistí a bhaineann le cuid de na foinsí a ríomh i **bPríomhfhoinsí** thíos. Cuirtear an fhoghraíocht áitiúil atá bailithe san obair allamuigh i gcomparáid leis na foirmeacha stairiúla agus déantar na leaganacha seo agus an fhoghraíocht a phlé faoi **Leaganacha Áitiúla** thíos agus liostaítear ann na faisnéiseoirí go léir a thug cúnaimh don tionscadal. Maidir le cur i bhfeidhm na modheolaíochta, gheofar cur síos gonta thíos ar na céimeanna éagsúla a tógadh sa tionscadal taighde seo:

1. Liosta de bhailte fearainn an cheantair faighte ón mBrainse Logainmneacha agus socraíodh córas na nod agus leagan amach an bhunachair leis an mBrainse.
2. Cruthaíodh innéacs in aghaidh na foinse in *Microsoft Excel*. I gcás *Fiants, Inq.(RC), CPR* agus *ASE*, bailíodh gach aon tagairt a bhain le Contae Ros Comáin, agus ní na cinn a bhain leis an gceantar taighde amháin.⁹
3. Tosaíodh ar liostaí a leagan amach de réir an pharóiste in *Excel* de na foirmeacha stairiúla éagsúla.
4. Rinneadh na foinsí a bhí leagtha amach de réir paróiste agus barúntachta a chíoradh i dtosach, ós iad is éasca, leis an mbunachar a chruthú.
5. Cuireadh na foirmeacha éagsúla i gcomparáid le liosta an Bhrainse agus rinneadh aon nótaí breise maidir le húinéireacht, méid na talún, agus mionainmneacha, a chur le nótaí a bhí ceangailte leis na foirmeacha sin.

⁹ Cruthaíodh innéacsanna móra de na foinsí sin agus déanfar iad a sholáthar don Bhrainse Logainmneacha sa Roinn Gnóthaí Pobail, Tuaithe agus Gaeltachta chun tacú leis an taighde ar an gcuid eile de chontae Ros Comáin.

6. Cuireadh na foinsí is achrannaí san áireamh ansin agus bailíodh le chéile liosta d'ainmneacha breise, nach maireann ach a bhíodh sa cheantar taighde tráth.
7. Rinneadh obair allamuigh sa cheantar taighde agus scrúdaíodh foilseacháin áitiúla sa leabharlann áitiúil i Mainistir na Búille. Rinneadh fogharscríobh ar na téipeanna tar éis córas fogharscríofa a shocrú leis an mBrainse Logainmneacha a tháinig leis na cleachtais atá in úsáid acu.
8. Cíoradh léarscáileanna eastáit déanacha sa Leabharlann Náisiúnta chomh maith le foinsí ábhartha eile in Acadamh Ríoga na hÉireann, sa Chartlann Náisiúnta agus i gChartlann an Bhrainse Logainmneacha thar ocht dturas go Baile Átha Cliath.
9. Scríobhadh nótaí tráchtairachta ar 300 ainm baile fearainn agus nótaí gairide ar c. 120 mionainm, ag baint úsáide as aon chomhthéacs a bhí tugtha leis na hiontrálacha sna bunfhoinsí agus ag déanamh tagartha do shaothair éagsúla atá foilsithe i réimse na hainmeolaíochta.
10. Tarraingíodh an t-ábhar ar fad le chéile in aon cháipéis *Word* amháin agus rinneadh léarscáileanna dáileacháin agus riaracháin a dhearadh le clár ríomhaireachta. Tugadh faoin anailís ar na torthaí taighde agus baineadh leas as córas faisnéise geografáil (*Arc Map 10*) chun tacú leis an anailís seo, a dhírigh ar na míreanna éagsúla in ainmneacha na mbailte fearainn.

Faightear an chuid is mó de na foirmeacha stairiúla sna príomhfhoinsí taighde ach ní mór freisin ábhar tánaisteach a chur san áireamh, chomh maith le haithne cheart a chur ar thíreolaíocht an cheantair. Tá eolas ar thopagrafaíocht an cheantair agus ar na gnéithe fisiciúla thar a bheith tábhachtach sa réimse seo, go háirithe más gnéithe nádúrtha atá luaite san ainm, mar atá i bhformhór na n-ainmneacha sa cheantar taighde. Thug an t-ainmeolaí Margaret Gelling agus an tíreolaí Ann Cole faoin gcur chuige seo go feillbhinn maidir le logainmneacha Shasana sa leabhar *The landscape of place-names* (2000), áit a bhfuil cur síos cuimsitheach ar an mbealach le míreanna i logainmneacha a rangú agus ar na gnéithe fisiciúla a fhreagraíonn do mhíreanna éagsúla in ainm na háite. Ní mór freisin a bheith ar an airdeall faoin dáileadh atá ag míreanna logainmníocha áirithe timpeall na tíre. Is eolas thar a bheith luachmhar é seo chun dóchúlacht a mheas maidir le mír a bheith teastaithe i gceantar áirithe.

Leagan Amach an Tráchtais

Déantar an tráchtas seo a leagan amach mar a chéile le haon mhórshaothar taighde ar logainmneacha na hÉireann atá foilsithe go dtí seo, cuir i gcás an leagan amach atá sna sraitheanna *Logainmneacha na hÉireann* agus *Place-Names of Northern Ireland*¹⁰. Tá seacht bparóiste faoi chaibidil sa tráchtas seo agus iad leagtha amach in ord aibíteach de réir ainm an pharóiste. Pléitear ainm an pharóiste féin ag tús gach caibidle agus ansin leagtar bailte fearainn an pharóiste amach in ord aibíteach sna leathanaigh ar lean. Soláthraítear an fhianaise ar fhoirmeacha luatha na n-ainmneacha in ord cróineolaíoch agus uimhrithe faoi ainm an bhaile fearainn. Déantar tráchttaireacht ar an mbaile fearainn ó thaobh cúrsaí topagrafacha agus seandálaíochta de, go hiondúil i dteannta ábhair ón *Ainmleabhar*, agus ansin pléitear déantús ainm an bhaile fearainn, ag baint úsáide as foinsí údarásacha na foclóireachta chomh maith le saothair aithnidiúla atá foilsithe go dtí seo ar logainmneacha na hÉireann. Baintear leas as uimhir na foirme atá scríofa ar a taobh clé má tá ábhar san fhianaise a mbaineann impleachtaí leis sa phróiseas anailíse.

Gheofar ainm an bhaile fearainn i gcló trom ar chlé agus beidh tagairt Eangaí Náisiúnta léirithe faoi. Beidh an fhoirm mholta Gaeilge (más ann di) ar dheis agus gheofar aistriúchán go Béarla i gcló iodálach laistíos di. Tríd an saothar ina iomláine, déantar líne a chur faoi gach ainm baile fearainn atá luaite agus go hiondúil, soláthraítear nasc buan do Bhunachar Logainmneacha na hÉireann (*BLÉ*) i lúbíní ina dhiaidh: Cootehall (*BLÉ* 43106). Níl leaganacha údarásacha faofa ann do gach baile fearainn in Éirinn go fóill agus uaireanta, beidh leagan féideartha Gaeilge le feiceáil, mar atá molta ag an mBrainse Logainmneacha, bíodh nach bhfuil *Ordú Logainmneacha* déanta ar logainmneacha an cheantair sin go fóill. Féach m.sh. Fawnarry < *Faiche an Earraigh (*BLÉ* 29976) i gCo. Liatroma.

Soláthraítear na sleachta iomlána ó am go chéile i lúbíní sa phríomhthéacs, nó i bhfonótaí má tá sleachta fada i gceist, chun cúlra a thabhairt don léitheoir faoin bhfoirm sin. Is minic a thugtar an comhthéacs a bhaineann le foirmeacha Gaeilge nó le foirmeacha luatha béarlaithe san fhonóta, chun cúlra éigin a thabhairt don léitheoir ar ainmneacha pearsanta, eachtraí, úsáid agus méid na talún agus ar fhoirgnimh a bhíodh sa cheantar srl.

¹⁰ Féach na sraitheanna clúiteacha *Place-names of Northern Ireland* (iml. 1-8) agus *Logainmneacha na hÉireann* (Ó Maolfabhail, 1990; Ó Cearbhail, 2007, 2010). Baineann an Brainse Logainmneacha úsáid as an modheolaíocht chéanna atá in úsáid anseo ina chuid oibre. Déantar torthaí na hoibre seo a fhoilsiú anois mar chuid den tsraith *Liostaí Logainmneacha* (www.logainm.ie/Orduithe.aspx).

Má luaitear mionainm leis an mbaile fearainn, beidh sé leagtha amach thíos faoi ainm an bhaile fearainn, in éineacht leis an bhfaisnéis chuí i gclómhéid níos lú agus beidh ‘*mionainm*’ ar thaobh na láimhe deise den ainm. Seo thíos iontráil shamplach ón tráchtas maidir le baile fearainn Woodbrook i bparóiste Thuaim Ná in oirthear na barúntachta:

Glactar go hiondúil leis an mbliain atá molta ag an mBrainse Logainmneacha agus in úsáid sa tsraith *Logainmneacha na hÉireann* i gcás cuid mhór de na foirmeacha stairiúla. Glactar i gcónaí i gcás na nAnnála leis an mbliain atá léirithe sna heagráin dhioplómaitiúla díobh atá eisithe ó dheireadh an 19ú haois i leith.¹¹ Mar atá ráite thuas, déantar uimhriú ar na foirmeacha stairiúla féin, rud atá úsáideach don tráchttaireacht ina ndiaidh. Bíonn giorrúcháin na bhfoinsí mar a chéile leis na cinn sa tsraith *Logainmneacha na hÉireann* ach rinneadh giorrúcháin a chruthú sna cásanna nach bhfuil na foinsí sin liostaithe ag an mBrainse. Féach ar **Noda Ginearálta** thuas, áit a bhfuil liosta iomlán de na giorrúcháin is coitianta agus cur síos ar an gcóras tagartha atá in úsáid laistigh de na foinsí.

Príomhfhoinsí

Cíoradh breis agus cúig mhórfhoinsí is daichead agus bunachar d'fhoirmeacha na n-ainmneacha á fhorbairt don tionscadal seo. Foinsí is ea iad atá ar na cinn is údarásaí agus is torthúla i réimse na hainmeolaíochta a úsáidtear chun teacht ar fhoirmeacha stairiúla logainmneacha. Sna foinsí seo, bíonn foirmeacha seanda logainmneacha, sa tSean-Ghaeilge, sa Mheán-Ghaeilge, sa Laidin, sa Bhéarla agus sa Nua-Ghaeilge Mhoch, srl. Bhí na foinsí le fáil i bhformáidí éagsúla, idir lámhscríbhinní agus eagráin dhioplómaitiúla, nó i leaganacha digitithe ar líne agus iad cruthaithe ag tionscadal taighde eile. Bhí cuid de na foinsí seo ní ba thorthúla ná an chuid eile maidir le líon na bhfoirmeacha a bhí le fáil iontu. Bhí idir 920 foirm i gcás amháin agus aon foirm amháin i gcás eile inaitheanta sna foinsí do bhailte fearainn nó iar-rannáin talún eile sa cheantar taighde. Baineadh iomlán de c. 7400 leagan d'ainmneacha an cheantair as na príomhfhoinsí taighde seo.

Bhí na mórfhoinsí Gaeilge torthúil go maith ó thaobh foirmeacha stairiúla sa cheantar taighde agus ba láithreacha eaglasta cuid mhór de na háiteanna sin atá teastaithe sna foinsí Gaeilge. Baineadh 1588 foirm Ghaeilge san iomlán (21% de líon na bhfoirmeacha iomlána) as foinsí sa tSean-Ghaeilge, sa Mheán-Ghaeilge agus sa Nua-Ghaeilge Mhoch.¹² Is cinnte go raibh an oiread sin foirmeacha Gaeilge ann d'ainmneacha an cheantair toisc gur scríobhadh cuid de na foinsí Gaeilge sa cheantar taighde féin, m.sh. *Annála Locha Cé (ALC)* i gCill Rónáin b'fhéidir (Simms, 2009: 25) agus na *Cottonian Annals (ACot.)* a scríobhadh idir Mainistir na Búille agus Oileán na Tríonóide ar Loch Cé (McCarthy, 2008: 43). Baineadh 297 foirm Nua-Ghaeilge ó *Place-names of Elphin Diocese* le Connellan agus tháinig a bhformhór leis na leaganacha Gaeilge a bhí molta sna hAinmleabhair.

Fiú agus foirm Ghaeilge againn, bíonn deacrachtaí móra ann maidir le suíomh na háite sin a dheimhniú. Is minic nach mbíonn aon chomhthéacs tugtha sna foinsí Gaeilge i gcoibhneas le háiteanna eile sa cheantar máguaird agus ní luaitear méid na talún riamh. Bítear ag brath ar láthair eaglasta, ar ghné thopagrafach shuntasach nó ar ainm na dúiche a bheith luaite san iontráil chun suíomh na háite sin a chinntiú. Ní mór súil a chaitheamh freisin ar na sloinnte/teaghlaigh ríoga atá luaite

¹² Ní áirítear na foirmeacha Gaeilge a bhí molta/teastaithe in Ainmleabhair na Suirbhéireachta Ordanáis anseo, toisc a bhformhór a bheith ina n-aistriúcháin ag an Donnabhánach ar leagan béarlaithe na tréimhse sin.

san iontráil agus is cabhair mhór iad na sloinnte i bhformhór na gcásanna chun suíomh na háite a chinntiú.

Cé is moite de na foinsí Gaeilge, is foinsí ón Nua-aois Luath atá i bhformhór na bhfoinsí a bhí in úsáid don tionscadal seo, mar shampla *Fiants of the Tudor Sovereigns (Fiant)*, *Inquisitions of Roscommon (Inq.)*, *Calendar of Patent Rolls of James I (CPR)* agus *Books of Survey and Distribution (BSD)*. Baineann na foinsí seo le stair choilíneach na tíre seo ón 16ú haois dhéanach go dtí deireadh an 17ú haois. Faightear liostaí fada d'ainmneacha áite sna foinsí Béarla go hiondúil agus na háiteanna sin leagtha amach de réir barúntachta chomh maith le hainm an duine atá, nó a bhí, ina úinéir ar an talamh sin. Faightear litreacha paitinne, ceadúnais i gcomhair margaí agus aontaí sna foinsí seo freisin agus chomh maith leo seo, ceadúnais maidir le cúirteanna a réachtáil sa cheantar. Corruair, liostaítear muintir an cheantair a ciontaíodh as a bheith ag cothú trioblóide in aghaidh na ríochta agus ar tugadh pardún dóibh ina dhiaidh sin. Baineann cuid díobh freisin le géilleadh agus athbhronnadh úinéireacht na dtailte ar mhóruaisle áitiúla. Gheofar thíos cur síos ar chuid de na foinsí a sholáthair líon suntasach (>180) foirmeacha don bhunachar agus iad leagtha amach in ord cróineolaíoch:

Ionchoisní Ros Comáin (1582-1664) [Inq.(RC) I-IV]

Baineann *Chancery Inquisitions* Ros Comáin le hionchoisní nó cúistiúnachtaí a scríobhadh idir na blianta 1582 agus 1664. Breacadh na cúistiúnachtaí síos i mbailte éagsúla timpeall an chontae agus, uaireanta, i mbailte lasmuigh den chontae. De réir Connolly: ‘The main series of inquisitions, the inquisitions *post mortem*, contain the findings of juries as to the lands held by a landholder on the day of his death – what the lands were, their value, by what service they were held, their value and the identity and age of his heir’ (2002: 35). Liostaítear ainmneacha pearsanta, ainm agus méid na rannán talún agus, ó am go chéile, faightear cur síos ar na foirgnimh sna rannáin sin, m.sh. sráidbhailte, caisleáin, séipéil. Is minic a thugtar liostaí fada de na rannáin talún agus bíonn siad seo leagtha amach go hiondúil de réir barúntachta nó dúiche.

Bhí an líon is mó d’fhoirmeacha stairiúla ainmneacha na mbailte fearainn sa cheantar taighde le fáil sna hionchoisní, lasmuigh de líon na leaganacha teastaithe san Ainmleabhar. Aimsíodh 8110 foirm éagsúil sna ceithre imleabhar a bhain le Contae Ros Comáin agus bhí 920 de na foirmeacha sin incheangailte le hainmneacha an cheantair taighde. Dódh bunchóip na n-ionchoisní sna Ceithre Chúirt i 1922 agus mar sin, níl againn inniu ach cóip a rinneadh don tSuirbhéireacht Ordanáis sa 19ú haois. Bhí daoine éagsúla ag plé le trasríobh na n-imleabhar ach is féidir formhór an téacs a dhéanamh amach ann cé go bhfuil bearnaí sa téacs ó áit go chéile. Níl caighdeán ró-mhaith ag cuid den trasríobh agus is cosúil gur ghoill sé seo go mór ar an Donnabhánach agus é ag iarraidh na cóipeanna a úsáid (Herity agus McGuinness, 2010: xi). Ní fios an raibh bearna sa bhunchóip nó an raibh deacrachtaí ag an scríobhaí sa 19ú haois an t-ábhar a léamh.

Gabhtar buíochas le Marie Boran i Leabharlann Shéamais Uí Argadáin agus leis an Dr. Pádraig Ó Móráin i Roinn na gClasaicí, Ollscoil na hÉireann, Gaillimh, as a gcuid tacaíochta maidir le leagan digiteach d’ardchaighdeán a chruthú den fhoinse seo. Roghnaíodh na foirmeacha thíos mar gheall ar a ngiorracht don bhunfhoirm Ghaeilge agus is cinnte gur duine a thuig fuaimeanna agus córas scríbhneoireachta na Gaeilge a bhreac síos na foirmeacha.

Irish Patent Rolls of James I (1603-1624) [CPR]

Is éard atá san fhoinsé seo ná bailiúchán de rollaí paitinne an chéad Rí Séamas ón 17ú haois luath agus a ndearnadh clár ('calendarium') de am éigin roimh 1830. Cé go mbaineann an *CPR* le réimeas Shéamais I den chuid is mó, déantar tagairt ann do litreacha paitinne ó aimsir Eilís I. Baineadh 3051 foirm ón bhfoinsé seo agus ceanglaíodh 349 foirm le háiteanna sa cheantar taighde. Tugann an tábla thíos léiriú an-mhaith ar na cosúlachtaí atá le feiceáil go rímhinic idir foirmeacha *Inq.(RC)* agus foirmeacha an *CPR*. Caithfidh go raibh an dá fhoinsé ag tarraingt ar aon doiciméad amháin agus iad á scríobh agus is minic a fheictear na cosúlachtaí is láidre sna blianta 1616 in *Inq.(RC) III* agus 1617 sa *CPR* i gcás ainmneacha an cheantair taighde.

Annála Ríoghachta Éireann (1630c) [ARÉ]

Fuarthas an líon is mó d'fhoirmeacha Gaeilge (295) don tionscadal ón bhfoinsé seo a scríobh Mícheál Ó Cléirigh, Cú Choigcríche Ó Cléirigh, Fearfeasa Ó Maoil Chonaire agus Cú Choigcríche Ó Duibhgeannáin idir na blianta 1632 agus 1636 i ndeisceart Cho. Dhún na nGall. Tá an buntéacs le fáil in dhá chóip, roinnte idir cúig imleabhar

lámhscríofa (Cunningham, 2010: 21). Is cinnte go raibh na scríobhaithe ag tarraingt ar raon leathan lámhscríbhinní eile, cuid acu nár mhair síos go dtí ár linn féin. Is fiú an staidéar scolártha atá déanta ag Bernadette Cunningham ar chúlra, ar dhéantús agus ar thábhacht na foinse seo maidir le stair shóisialta na hÉireann sa 17ú haois a léamh in *The Annals of the Four Masters: Irish history, kingship and society in the early seventeenth century* (2010), chun cur síos domhain a fháil ar an bhfoinse luachmhar seo. Úsáideadh an tríú cló d'*Annála Ríoghachta Éireann* (1990), foilsithe ag De Búrca Rare Books, agus leagan leictreonach CELT (<http://celt.ucc.ie/>) don tionscadal seo. Léiríonn an tábla thíos a chóngarí dá chéile atá cuid d'fhoirmeacha *ARÉ* agus na luathfhoirmeacha béarlaithe sna hIonchoisní.

Leabhair Shuirbhéireachta agus Dáilte, Ros Comáin (1660c) [BSD]

Baineann na Leabhair Shuirbhéireachta agus Dáilte (*Books of survey and distribution*) leis an tréimhse idir na blianta 1636 agus 1703. Is éard atá sna leabhair ná cuntas ar úinéirí talún na hÉireann a cuireadh le chéile chun cíos a ghearradh ar na húinéirí sin. Áirítear ábhar iontu ó na suirbhéanna éagsúla a rinneadh roimhe sin (m.sh. an tSuirbhéireacht Shíbhialta agus an *Down Survey*). Liostaítear na húinéirí éagsúla a bhí ann i 1641, roimh an Lonnaíocht Chromalach, i dteannta ainmneacha na rannán talún a bhí acu, méid agus caighdeán na talún maille lena luach. Déantar an t-úinéir a tháinig i gcomharbas ar an mbunúinéir nua a liostáil. Ar ndóigh is Éireannaigh idir Ghaeil agus Ghallghaeil formhór na ndaoine atá liostaithe le tailte forghéillte i 1641. Gabhadh idir caoga agus seasca faoin gcéad den talamh i mbarúntacht Mhainistir na Búille sa tréimhse seo agus bronnadh idir nócha agus céad faoin gcéad den talamh sin ar Chaitlicigh thrasphlandaithe (Smyth, 2006: 169, 180). Tá bunchóipeanna den *BSD* sa Chartlann Náisiúnta ach d'fhoilsigh Coimisiún Lámhscríbhinní na hÉireann eagrán de leabhair Ros Comáin le Robert Simington i 1949.

Tá an *BSD* leagtha amach de réir paróistí agus barúntachtaí agus is foinse thar a bheith úsáideach í don taighdeoir atá ag tabhairt faoin gcineál oibre seo den

chéad uair. Tá foirmeacha béarlaithe an *BSD* sách cosúil le leaganacha Béarla an lae inniu, rud a chabhraíonn le logainmneacha an lae inniu a aithint, ach níl siad chomh gar sin d'fhoirmeacha na nIonchoisní, foirmeacha a dtagann an bhunfhoirm Ghaeilge leo go minic. Is foinse an-luachmhar í seo toisc go luaitear ann líon na n-acraí plandála atá ag cuid de na rannáin. Is féidir an líon sin a aistriú chuig acraí an lae inniu agus méid an rannáin mar a bhí in aimsir an *BSD* a chur i gcomparáid le rannán an lae inniu. Bíonn cuid mhaith foirmeacha truaillithe sa *BSD* ach faightear go leor ainmneacha malartacha san fhoinsé seo atá an-chabhrach ó thaobh mionainmneacha nó ainm stairiúil bhaile fearainn a aithint (m.sh. *Ardsallagh als Ardglas* do bf *Ardglass* agus *Drumone als Binreagh* do bf *Bunreagh*). Is féidir nasc a dhéanamh uaireanta idir foirmeacha an *BSD* agus foirmeacha sna *Fiants, Inq.* agus sa *CPR* ag baint leas as ainm an úinéara. Baineadh 317 foirm éagsúil d'ainmneacha sa cheantar taighde ón bhfoinsé seo.

Achta Socraithe agus Míithe (1666-1683) [ASE]

Is ón dara leath den 17ú haois atá an fhoinsé seo, a bhaineann le húinéireacht talún agus le próiseas bronnta talún in Éirinn. Tá na hAchta Socraithe agus Míithe foilsithe mar chuid de thuiriscí na Commissioners of Public Records in Ireland ón mbliain 1825.¹³ Cuireadh Acht an tSocraithe i bhfeidhm i 1662 agus Acht an Mhíithe i 1665 ach baineann na foirmeacha éagsúla ó cheantar taighde an tionscadail seo leis na blianta 1666 go dtí 1683. Baineadh 201 foirm éagsúil d'ainmneacha ón bhfoinsé seo atá inaitheanta sa cheantar taighde. Mar a chéile leis an *BSD*, faightear roinnt mhaith ainmneacha malartacha san *ASE* atá thar a bheith úsáideach le hainm stairiúil an bhaile fearainn a sholáthar nó uaireanta le

¹³ Is féidir teacht ar an tuairisc áirithe seo ag *House of Commons Parliamentary Papers Online*. Tá réamhrá cuimsitheach le James Hardiman maidir le cúlra agus cur i bhfeidhm an dá Achta ag tús na cáipéise (Irish Record Commission, 1825).

Clárlann na nGníomhas (1708-1738) [CGn.]

Bhí an fhoinsé seo ar cheann de na cinn ab achrannaí a bhí le cur san áireamh sa tionscadal seo ach ar an gceann is tábhachtaí ón 18ú haois. Is éard atá i gceist le *CGn*, ná cóipeanna de ghníomhais/dhintiúir ó 1708 i leith. Níl aon innéacs leictreonach ná leagan digitithe den fhoinsé seo agus, mar sin, caitear súil a chaitheamh ar na buncháipéisí i Leabharlann Chlárlann na nGníomhas ar Chnoc an Bhunreachta i gcathair Bhaile Átha Cliath. Déantar ainm an úinéara, ainm an rannáin, líon agus luach na talún a lua i bhformhór na ngníomhas, ach faightear sonraí spéisiúla freisin maidir le leagan amach na n-eastát mór (.i. na diméinte) agus cur síos ar spréanna a gealladh ar phósadh iníne. Socraíodh ar na gníomhais is luaithe amháin a chíoradh (1708-1738) toisc foinsí a bheith againn do lár agus do dheireadh an 18ú haois ('daonáireamh' Ail Finn, agus na léarscáileanna eastáit). I dtosach báire, bhí ainmneacha sa cheantar taighde le baint amach as na clárleabhair, áit a raibh ainm an rannáin agus suas le 10 ndigit scríofa in aice leis. Thagair na huimhreacha seo don leabhar gníomhais, do leathanach sa leabhar sin agus don

ghníomhas teidil féin ar an leathanach. Bhí cuid mhór den pheannaireacht sna hinnéacsanna, gan trácht ar na gníomhais féin, doléite ar fad, ach bhíothas ábalta 1020 foirm a bhaint amach as na leabhair ghníomhais agus bhain 515 foirm leis an gceantar taighde go sonrach. Bhí cuid de na foirmeacha thar a bheith spéisiúil ó thaobh leaganacha béarlaithe agus ainmneacha malartacha de agus rinneadh úinéirí na dtailte a bhreacadh freisin. Faightear na rannáin *Beg, More, West, East* srl. go minic don chéad uair i bhfoirmeacha na Clárlainne. Faightear ainmneacha malartacha spéisiúla ann freisin chomh maith le mionainmneacha nach bhfuil le fáil i bhfoinsí níos luaithe.

The census of Elphin (1749) [Cen.Elphin]

Baineadh 184 foirm éagsúil ón bhfoinse thar a bheith luachmhar seo a cuireadh le chéile i lár an 18ú haois. Cruthaíodh an ‘daonáireamh’ seo faoi stiúir an Easpaig Edward Synge d’Eaglais na hÉireann. Faightear san fhoinse seo: ainmneacha na dtionóntaí, ainmneacha rannán, gairmeacha beatha agus eolas ar reiligiún na dtionóntaí chomh maith le líon na ngasúr agus searbhóntaí a mhair sa teaghlach. Rinneadh líon na bProtastúnach in aghaidh líon na bPápairí a ríomh le sonraí an daonáirimh seo freisin. Tá gach paróiste sa bharúntacht suite i ndeoise Ail Finn seachas paróiste Chill Rónáin (atá i ndeoise Ardach agus Chluain Mhic Nóis). Tá cosúlachtaí láidre idir na foirmeacha in *Cen.Elphin* agus *CGn.* ó thaobh cúrsaí litrithe de. Ní mór a lua freisin go gcaomhnaítear líon áirithe mionainmneacha san fhoinse seo, agus is minic don mhionainm sin a bheith liostaithe díreach faoi ainm an bhaile fearainn, rud atá fíorúsáideach i gcásanna áirithe. Baineadh leas as an eagrán atá foilsithe ag Coimisiún Lámhscríbhinní na hÉireann (Legg, 2004) don tionscadal seo.

Léarscáileanna Eastáit: Harman King Harman (1778-1887) [*King-Har.*], Longfield (1770-1800) [*Longfield*] agus Kingston (1724) [*Hogan*]

Ní dhearnadh an *Down Survey* (1656-58) ar pharóistí Chontae Ros Comáin¹⁴ agus ní fhaightear in *Hiberniae Delineatio* (1685) ach na barúntachtaí i gContae Ros Comáin. Baineadh 164 foirm as léarscáil na barúntachta atá ar fáil ag <http://downsurvey.tcd.ie/>). Tá fíorbheagán logainmneacha eile againn ón dara leath den 17ú haois agus ó thús an 18ú haois agus faightear iad seo in *Petty&Lamb* (1689) agus in *GDI-Petty* (1720) agus ní mhaireann cóipeanna de *Strafford's Survey*, 1637, a rinneadh ar Ros Comáin, Gaillimh agus ar chodanna de Mhaigh Eo. Is ainmneacha na mbailte agus na láithreacha eaglasta atá sna hainmneacha seo don chuid is mó. Táthar ag brath go mór mar sin ar na léarscáileanna eastáit ón dara leath den 18ú haois a rinneadh d'úinéirí na n-eastát mór .i. teaghlaigh King Harman agus Kingston, chomh maith le léarscáileanna de chuid John Longfield ar bhailte fearainn agus ar phortaigh Ros Comáin ón 18ú/19ú haois.

Tá formhór na léarscáileanna seo sa Leabharlann Náisiúnta i mBaile Átha Cliath agus baineadh 222 foirm as léarscáileanna Mhuintir King Harman, 200 foirm as léarscáileanna éagsúla de chuid John Longfield, agus 154 foirm ó léarscáileanna de chuid Garrett Hogan a rinneadh don Iarla Kingston. B'iontach an áis iad na léarscáileanna chun mionainmneacha a lonnú laistigh de bhailte fearainn agus caomhnaítear ainmneacha na dtionóntaí ar chuid díobh. Ní raibh mórán dhifríochna idir foirmeacha na léarscáileanna seo agus foirmeacha *CGn.* agus *JM RC.*

Léarscáileanna an Ard-Ghiúiré, Ros Comáin (1817) [*JM RC*]

William Edgeworth agus Richard Griffith a dhear an léarscáil seo d'Ard-Ghiúiré an chontae in 1817. Baineadh 312 foirm éagsúil ón bhfoinse seo, roinnt mhaith mionainmneacha ina measc. Is iontach an fhoinse í seo ar go leor bealaí toisc gur léarscáil rilífe atá ann agus go léirítear bóithre an chontae uirthi. Is féidir na crosbhóithre a úsáid i dteannta thopagrafaíocht an bhaile fearainn chun suíomh an rannáin a dhéanamh amach. Ba mhinic na hainmneacha a scríobh in aice le séadchomhartha cosúil le ráth nó lios, nó an t-ainm a chur ar chnocán. Is féidir teacht ar an ráth nó an lios sin i gcuid shuntasach de na samplaí, go háirithe in ainmneacha

¹⁴ Ná ar pharóistí Chontae na Gaillimhe agus Mhaigh Eo (seachas barúntacht amháin i ME) toisc nach raibh tailte sna ceantair sin le bheith bronnta ar Fhiontraithe (*Adventurers*).

sloinnte áitiúla atá luaite ann, go háirithe má tá sloinne luaite in ainm an bhaile fearainn.

Ainmleabhair na Suirbhéireachta Ordanáis, Co. Ros Comáin (1837) [AL]

Cuireadh na leabhair seo le chéile i rith aimsir an chéad suirbhé de chuid na Suirbhéireachta Ordanáis i gContae Ros Comáin idir na blianta 1836-38. Is éard atá iontu ná liosta de na bailte fearainn, leagtha amach in aghaidh an pharóiste. Liostaítear foirmeacha Gaeilge na n-ainmneacha agus an bhrí atá leo agus bíonn cur síos gonta ar ghnéithe topagrafacha/seandálaíochta an bhaile fearainn, líon na n-acraí, caighdeán na tithíochta agus príomhtháirgí talmhaíochta an bhaile fearainn. Liostaítear úinéir an bhfearainn agus gnáthmhéid na bhfoirmeacha agus déantar foirmeacha stairiúla agus áitiúla a bhreacadh iontu freisin. Baineadh 1877 foirm éagsúil as an bhfoinse seo ach is nótaí de chuid an tsuirbhéara, nótaí Uí Dhonnabháin agus foirmeacha ó fhaisnéiseoirí áitiúla atá sna foirmeacha sin. Baineann cuid mhór dóibh leis an 19ú haois seachas tagairtí áirithe anseo is ansiúd ag Ó Donnabháin do *ARÉ, Inq.(RC)* agus léarscáileanna eastáit.

Tá bunchóipeanna na nAinmleabhar le fáil sa Chartlann Náisiúnta ach tá obair chaomhnaithe á déanamh orthu faoi láthair. Is féidir teacht ar chóipeanna díobh ar mhicreascannáin, in eagrán Uí Fhlannagáin (O'Donovan agus O'Flanagan, 1931) agus sna taifid chartlainne ar an suíomh *Bunachar Logainmneacha na hÉireann* (www.logainm.ie).

The Place-names of Elphin Diocese (1952) [PNED]

Tá an saothar neamhfhoilsithe seo i gCartlann an Bhrainse Logainmneacha ó Dheireadh Fómhair 1952. Gasaitéar d'ainmneacha 2542 baile fearainn i nDeoise Ail Finn atá ann, áit a dtugtar foirm Bhéarla an ainm, foirm Ghaeilge, achar an bhaile fearainn, ainm an pharóiste, na barúntachta agus an chontae, agus an t-iomlán leagtha amach in ord aibítreach na mbailte fearainn. Ní luaitear fianaise na bhfoirmeacha seo ach go fánach sa réamhrá, áit a ndeirtear: ‘... we have ransacked all available sources in the libraries, Ordnance Survey Office, Public Record Office, governmental, civil and ecclesiastical offices, and consulted tradition both oral and written’ (Connellan, 1952: 2). Baineann 297 logainm san fhoinse seo leis an gceantar taighde agus tagann formhór na bhfoirmeacha le foirmeacha AL ach uaireanta faightear mír éiginnte san fhoirm Ghaeilge (m.sh. Doire Mhaine). Gan fianaise agus nótaí tráchtairíochta a bheith againn d’obair Uí Chonalláin, ní féidir cinneadh a dhéanamh faoi luach an tsaothair, go háirithe ó thaobh cuid de na sloinnte

neamhtheastaithe agus na míreanna éiginnte atá ina gcáilitheoirí i gcuid de na hainmneacha.

Sa tábla thíos, liostaítear na príomhfhoinsí taighde a úsáideadh chun teacht ar fhoirmeacha stairiúla na logainmneacha sa cheantar taighde. Léirítear líon na bhfoirmeacha a baineadh as na foinsí seo sa cholún ar dheis.

Foinsí Tánaisteacha

Pléitear anseo thíos cuid de na foinsí tánaisteacha a sholáthair cúlra agus tagairtí breise do roinnt mhaith ainmneacha bailte fearainn sa cheantar taighde.

Foinse thar a bheith úsáideach a bhí i Litreacha na Suirbhéireachta Ordanáis, go mór mór leagan nua-fhoilsithe na litreacha le Herity agus McGuinness (2010). Thaistil Seán Ó Donnabháin trí Chontae Ros Comáin ar fad i samhradh na bliana 1837 agus é ag déanamh iniúchta ar ainmneacha na mbailte fearainn don chéad Suirbhéireacht Ordanáis. Tháinig sé go baile Mhainistir na Búille i dtosach ar 16 Iúil 1837 agus chaith sé tuairim agus 11 lá ann, sula ndeachaigh sé ó dheas go baile Ail Finn ag deireadh na míosa sin (Herity agus McGuinness, 2010: 57). Bhí faisnéiseoir áitiúil maith ag Ó Donnabháin i gceantar an Chaisleáin Riabhaigh darbh ainm Mr. Croghan, agus d'éirigh leis roinnt eolais a fháil uaidh ar mhíreanna logainmneacha agus ar sheanchas an cheantair. Ní luaitear aon duine faoi leith sna litreacha i gceantar Mhainistir na Búille ach déantar traidisiúin áitiúla ó na 'natives, local inhabitants' a lua ó am go chéile. Tá ainmneacha na n-aibhéardaithe áitiúla agus lucht eaglasta an cheantair luaite sna hAinmleabhair as ucht foirmeacha áitiúla a sholáthar d'ainmneacha na mbailte fearainn, leithéidí Morgan Crofton, John Irwin.

Mr. Connolly, Mr. Mac Dermot mar shampla. Thug na faisnéiseoirí seo foirmeacha uathu a bhí an-chosúil le foirmeacha béarlaithe déanacha an 18ú/19ú haois. D'éirigh leis an Donnabhánach an fhoghraíocht áitiúil a fháil ó mhuintir na háite i gcás cuid mhór de mhionainmneacha an cheantair agus faightear cur síos uaireanta sna nótaí leis (atá marcáilte sa saothar seo le *OD Nóta*) ar fhoghraíocht ainmneacha na mbailte fearainn.

Ar an ábhar céanna b'iontach an áis a bhí i bhfoirmeacha taifeadta de na logainmneacha a bhailigh an Dr. Nollaig Ó Muraíle ó mhuintir an cheantair i 1988. Táim buíoch d'Oifigeach Sinsearach an Bhrainse, Dónall Mac Giolla Easpaig, agus don Dr. Pádraig Ó Cearbhaill as na buntéipeanna sin a sholáthar dom le scrúdú. Clúdaíodh formhór an cheantair i dtaifeadtaí Uí Mhuraíle agus baineadh leas astu chun comparáid a dhéanamh le leaganacha áitiúla an lae inniu. Aithnítear saibhreas faoi leith sna téipeanna do pharóistí Mhainistir na Búille agus Chill Rónáin ó thaobh foghraíocht an cheantair a léiriú, ó tharla go raibh eolas fairsing ag na faisnéiseoirí ar bhailte fearainn an pharóiste. Díol spéise freisin go raibh cuid d'ainmneacha na mbailte fearainn i bparóistí Thuaim Ná agus Ard Carna aistrithe go Béarla nó aitheanta faoi ainm nua Béarla faoin mbliain 1988 ag muintir na háite (m.sh. Cuiltyconeen > 'sprɪŋ,fi:ld; Ardchamoyle > 'kambəlz 'hait; Lismulkeare > 'nju:taun). Níl aon mhionstaidéar déanta ar Ghaeilge an cheantair agus mar sin, táthar ag brath go mór ar an méid atá léirithe in *An Anglo-Irish Dialect of North Roscommon* (1957) le Patrick L. Henry. Déantar codanna den leabhar seo a lua in **An Ghaeilge i dTuaisceart Ros Comáin agus Obair Allamuigh** thíos.

Foinse thánaisteach thar a bheith úsáideach le tagairtí breise a fháil d'ainmneacha na mbailte fearainn a bhí in *Foclóir Stairiúil Áitainmneacha na Gaeilge* atá idir lámhe ag an tionscnamh *Locus* i gColáiste na hOllscoile, Corcaigh. Atheagrán agus forbairt ar *Onomasticon Goedelicum locorum et tribuum Hiberniae et Scotiae* (1910) le Edmund Hogan atá san fhoclóir seo. Mar atá luaite thuas, níl ach ceithre fhascúl den tsraith foilsithe go fóill ach tá 50 ainm luaite sna fhascúil sin ar féidir iad a cheangal leis an gceantar taighde. Cuireadh suntas i bhfoirmeacha áirithe i bhfoinsí Gaeilge nach raibh leagtha amach mar mhórfhoinsí don tionscadal taighde seo agus rinneadh na tagairtí sin a áireamh anseo. Baineadh úsáid as an *Onomasticon* nuair is ainm lasmuigh den chéad cheithre fhascúl a bhí i gceist. Gabhtar buíochas leis an Dr. Kevin Murray, duine d'eagarthóirí an tionscnaimh, as leagan leictreonach d'ainmneacha i Ros Comáin sa chéad cheithre fhascúl a chur ar fáil.

Cuirtear leaganacha Gaeilge na n-ainmneacha atá faofa ag an gCoimisiún Logainmneacha in *Ainmneacha Gaeilge na mBailte Poist* (1969) san áireamh i liostaí na bhfoirmeacha stairiúla, ó tharla taighde áirithe a bheith déanta cheana ag an mBrainse Logainmneacha chun teacht ar na foirmeacha sin. Déantar tagairt do logainmneacha nó do mhíreanna i logainmneacha ar fud na tíre i gcás fhormhór na mbailte fearainn atá liostaithe, go háirithe má tá na míreanna sin aitheanta sa tsraith *Liostaí Logainmneacha* nó má tá dréachtordú déanta ar na hainmneacha sin agus leagan Gaeilge le fáil i mBunachar Logainmneacha na hÉireann (*BLÉ*) ar www.logainm.ie.

Baineadh úsáid nár bheag as foinsí móra na hainmeolaíochta, *Irish Names of Places* (1869-1913) le P.W. Joyce, *Irish Place-Names* (2002) le Deirdre agus Laurence Flanagan agus *Atlas of Irish-Place-Names* (2001) le Patrick J. O'Connor, d'fhonn cur síos a dhéanamh ar bhrí agus dáileadh logainmneacha. Ní dhéanann aon cheann de na foinsí seo eilimintí achrannacha a rianú go sásúil agus mar sin bhí gá le súil a chaitheamh ar fhoilseacháin eile in irisí acadúla mar: *Ainm: Bulletin of the Ulster Place-Name Society* (1986-), *Dinnseanchas* (1972-77), *Nomina: Journal of the Society for Name Studies in Britain and Ireland* (1977-), *Celtica* (1946-), *The Journal of the Royal Society of Antiquaries of Ireland* (1849-). Ba mhór an chabhair a bhí sa *Bibliography of Publications on Irish Placenames* (2011) le Donna Thornton agus Kevin Murray chun teacht ar shaothair a foilsíodh ó 1836 i leith agus a rinne iniúchadh ar ghnéithe éagsúla de logainmneacha na hÉireann.

An Ghaeilge i dTuaisceart Ros Comáin

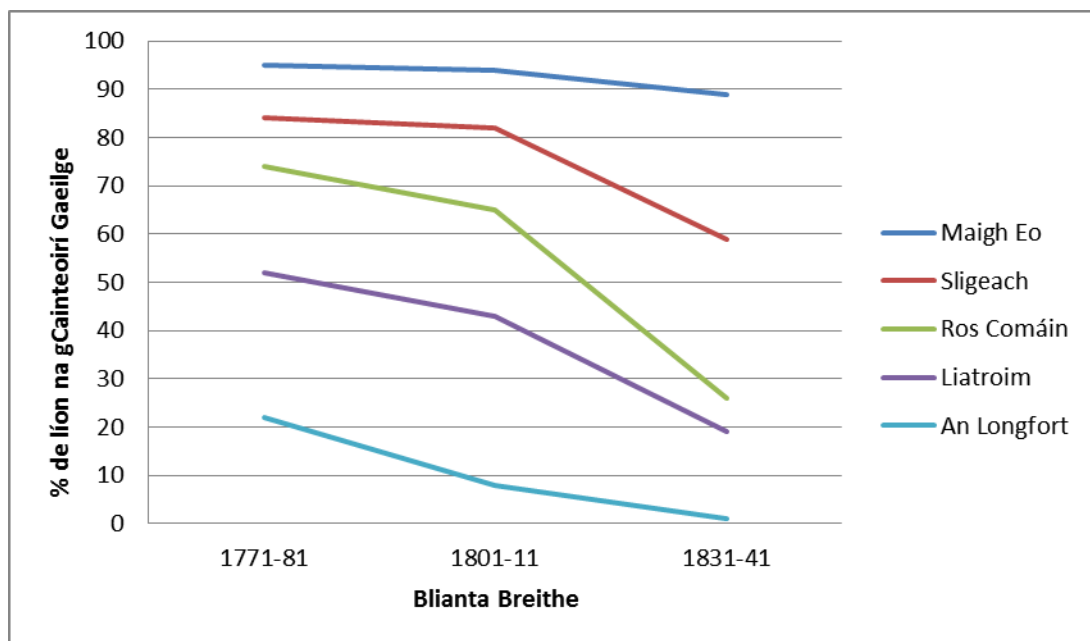

Níl aon ghrinn-staidéar déanta ar an gcineál Gaeilge a labhraítí i dTuaisceart Ros Comáin, cé is moite den chur síos ar Ghaeilge Chonnacht ag Ruairí Ó hUiginn¹⁵ agus den phlé ginearálta ar líon na gcainteoirí sa cheantar le Garret FitzGerald.¹⁶ Tuairimítear sa staidéar mórluachach *An Anglo-Irish dialect of North Roscommon: phonology, accidence, syntax* le Patrick L. Henry go raibh an Ghaeilge á labhairt i dtuaisceart an cheantair seo, go háirithe sna dúichí stairiúla *Uachtar Thíre* agus *Tír Thuathail*, go dtí timpeall na bliana 1800 (1957: 15). Pé scéal é, is léir ón anailís le FitzGerald (1984) gur tháinig meath ollmhór ar líon na gcainteoirí Gaeilge i

mbarúntacht Mhainistir na Búille idir 1771 agus 1871. De réir taighde FitzGerald, bhí leibhéal na ndaoine le Gaeilge sách seasmhach suas go dtí 1811, nuair a tháinig titim de thuairim agus 10% ar líon na gcainteoirí gach deich mbliana ó 1811 ar aghaidh go dtí 1871.¹⁷ Nuair a chuirtear an ceantar taighde i gcomparáid leis na contaetha máguaird, léirítear meath mór ar an teanga i gcontaetha an Longfoirt, Liatroma agus Ros Comáin idir na blianta 1811 agus 1841. De réir FitzGerald, is i measc an aosa óig a bhí an titim is mó i líon na gcainteoirí in oirthear Chonnacht: ‘In Connacht and Donegal Irish-speaking then survived amongst a significant proportion of the younger generation except in the area around Ballinasloe, in mid and north-west Roscommon, in south Leitrim and south-west Sligo’ (1984: 129). Léirítear an titim thubaisteach seo sa tábla thíos. Tá meastacháin FitzGerald bunaithe ar na daonáirimh ó 1851 go dtí 1881 agus baineadh leas as bliain bhreithe an fhreagróra chun íosmhéideanna de chainteoirí Gaeilge a rianú siar go dtí 1771.

Figióir 2: Meastachán ar íosmhéid (%) líon na gcainteoirí Gaeilge (FitzGerald, 1984: 127)

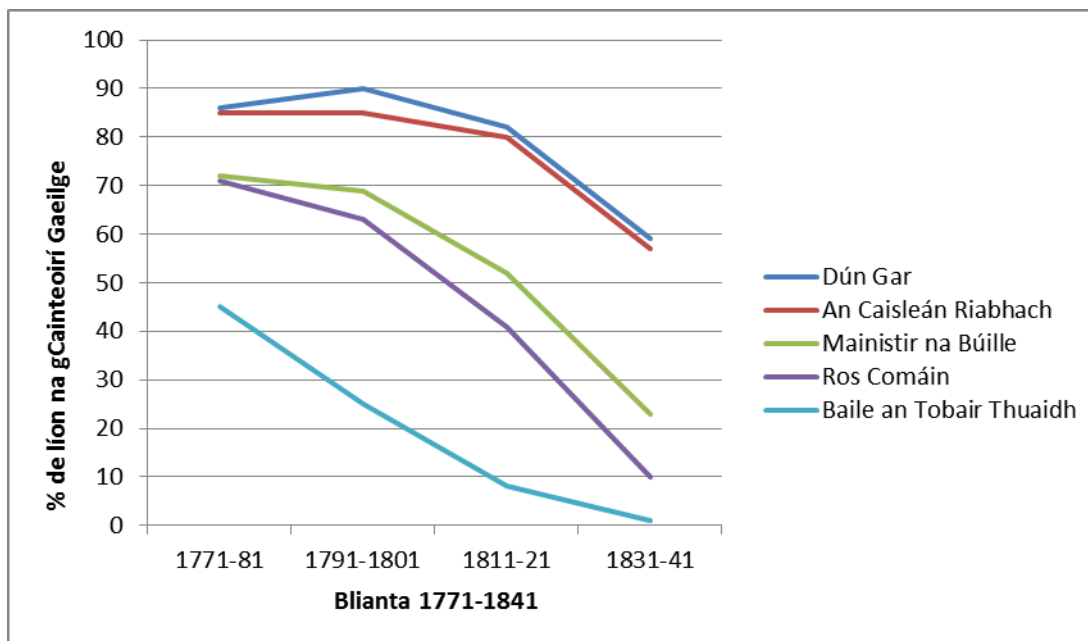

Is cinnte gur íosmhéideanna atá sna figiúirí thuas mar gur tháinig méadú suntasach i líon na gcainteoirí a bhí tuairiscithe i nDaonáireamh 1881, nuair a cuireadh colún faoi leith ar an bhfoirm don chéad uair maidir le cumas Gaeilge an fhreagróra. Ní raibh sa cheist ar chumas Gaeilge an fhreagróra ach fonóta ar an bhfoirm go dtí 1881 agus seans go ndéantaí dearmad an cheist a fhreagairt go dtí sin (FitzGerald, 1984: 118, Nóta 2). Díol spéise is ea na figiúirí thuas toisc go léiríonn siad cúlú na Gaeilge

¹⁷ D’ísligh an t-íosmhéid cainteoirí Gaeilge sa bharúntacht ó 70-79% den daonra i 1781 síos go dtí idir 0 agus 2% den daonra i 1871 (FitzGerald, 1984: Map 2-10).

i gceantar na Sionainne go háirithe nuair nach léirítear titim chomh tobann céanna i Maigh Eo agus i Sligeach sa tréimhse chéanna. De réir FitzGerald: ‘This weakening of Irish-speaking on the western as well as the eastern shore of the River Shannon [ó 1770 ar aghaidh] may have reflected the fact that up to... the development of the railways around the middle of the nineteenth century, this river was an important trade route’ (2003: 201). Léiríonn figiúr 3 thíos a laige is a bhí an Ghaeilge in oirthuaisceart an Chontae roimh aimsir an Ghorta Mhóir. B’iad Dún Gar agus An Caisleán Riabhach an t-aon dá cheantar ina raibh cainteoirí aonteacha Gaeilge faoi 1911. Thit daonra an cheantair taighde idir 35 agus 40% i rith aimsir an Ghorta Mhóir (Crowley et al., 2012: 282). Is éasca an éifeacht mhór a bhí ag an nGorta ar líon na gcainteoirí Gaeilge sa cheantar a shamhlú, agus gan an Ghaeilge ach ag < 25% den daonra roimh aimsir an Ghorta.

Figiúr 3: Íosmhéid (%) de líon na gcainteoirí Gaeilge i mbarúntachtaí Thuaisceart RC roimh aimsir an Ghorta Mhóir (FitzGerald, 1984: 136)

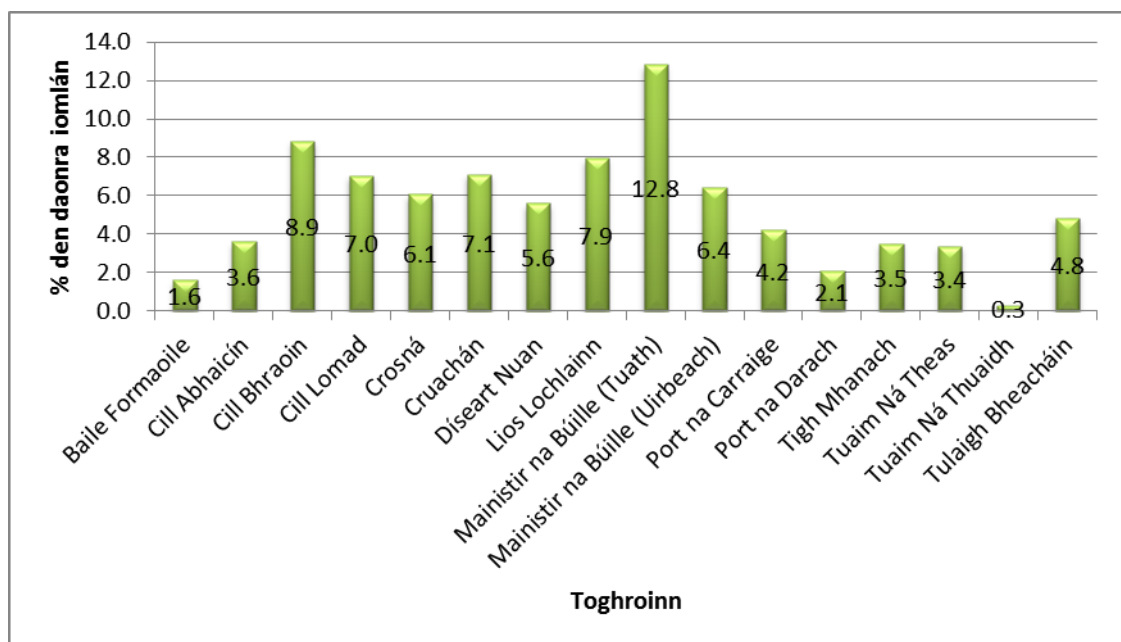

Ní féidir na cúiseanna uile taobh thiar den mhalartú teanga i Ros Comáin a ríomh anseo, ach nuair a thit líon na gcainteoirí óga sa chontae faoi 70%, is léir gur tháinig meath rialta agus tapaidh ar úsáid na teanga roimh aimsir an Ghorta.¹⁸ Is féidir fianaise den mhalartú teanga seo a fháil i measc fhoirmeacha stairiúla logainmneacha an cheantair. Léirítear claonadh ó thús an 19ú haois chun leagan malartach nó leagan

¹⁸ B’fhiú an méid atá pléite in Ó Giollagáin et al. (2007) a chur san áireamh anseo maidir le meath na Gaeilge mar theanga phobail nuair a thiteann líon na gcainteoirí sa phobal sin faoin tairseach chriticiúil de 67% de dhaonra an cheantair.

aistrithe d’ainm baile fearainn a úsáid cé nach mór a admháil gur ainmneacha ‘galánta’ atá iontu seo a bhain leis na heastáit mhóra, leithéidí Rockingham Demesne, Oakport Demesne, srl. Féach mar shampla ar *Larkhill* do bhaile fearainn Knocknafushoga, Deerpark d’iar-rannán darbh ainm *Ceathrú an Easa, *Bigpark* do bf Ardconra agus *Horsepark* do *Cheathrú na gCapall.

In ainneoin a laghad foirmeacha atá ag an Donnabhánach i nGaeilge ó mhuintir na háite sna hAinmleabhair don cheantar seo, is cinnte go raibh cainteoirí Gaeilge fós ar an bhfód i dtuaisceart an cheantair agus in iardheisceart an cheantair ag tús an chéid seo caite. Is féidir meastachán ar líon na ndaoine le Gaeilge sa cheantar taighde i 1911 a dhéanamh bunaithe ar Thábla XXXVI de Dhaonáireamh 1911. Léirigh an anailís seo nach raibh an Ghaeilge ag c. 94% de dhaonra an cheantair faoin mbliain sin. Ní thuairiscítear ach 745 duine thar gach aoisghrúpa a luaigh go raibh Gaeilge agus Béarla acu.¹⁹ Ní aithnítear aon chainteoir Gaeilge aonteangach sa bharúntacht ina hiomláine. Léiríonn an tábla thíos an céatadán (%) de chainteoirí Gaeilge i gcoibhneas le daonra iomlán na dtoghra.

Figiúr 4: Céatadán (%) den Daonra i gcoibhneas le toghranna an cheantair taighde le Gaeilge i 1911

Bhí an céatadán ba mhó de na cainteoirí Gaeilge lonnaithe, is cosúil, i dtuaisceart pharóiste Mhainistir na Búille agus i dtuaisceart Chill Bhraoin (seandúiche Uachtar Thíre), agus bhí an chuid eile ansin in iardheisceart an cheantair taighde thart ar

¹⁹ Ní raibh ach 14% díobh siúd le Gaeilge níos sine ná 60 bliain d’aois .i. gur rugadh roimh/in aimsir an Ghorta Mhóir iad.

Dhíseart Nuan agus Cill Lomad i dtreo barúntachtaí Dhún Gar agus an Chaisleáin Riabhaigh. Bhí céatadán suntasach freisin in oirthear an cheantair, trasna ó Chora Droma Rúisc i gCo. Liatroma. Tacaíonn an dáileadh seo le saibhreas na bhfoirmeacha áitiúla a bailíodh sna ceantair sin ó thaobh fhoghraíocht mhíreanna na n-ainmneacha de. Is i dTuaim Ná a bhí an líon is mó d'aistriúcháin/leaganacha nuachumtha Béarla ar ainmneacha na mbailte fearainn, mar shampla.

Níor tháinig aon taifead fuaime anuas chugainn den Ghaeilge a labhraítí i dTuaisceart Ros Comáin ach maireann dhá thaifead a rinne Karl Tempel don Dr Wilhelm Doegen sna tríochaidí de chainteoirí Gaeilge ó bharúntachtaí Dhún Gar agus an Chaisleáin Riabhaigh in iarthar an chontae. Chónaigh duine díobh, Thomas Ganley, in bhf Cloonmaul, p. Thigh Baoithín, i mbarúntacht Dhún Gar, c. 18km siar ó dheas ó pharóiste Dhíseart Nuan, agus b'as bhf Cloonlish or Robin Hood i bparóiste Chill Tulach, barúntacht an Chaisleáin Riabhaigh, í Mary Ellen Sarsfield.²⁰ D'fhéadfaí a mhaíomh gurbh ionann an cineál Gaeilge a bhí á labhairt i ndúichí Mhagh Loirg agus Uachtar Thíre agus atá taifeadta ón mbeirt seo. De réir fhaisnéis Uí Mháille (1927: 109) agus anailís Uí Shé (1989: 152-8), is léir go raibh cosúlachtaí suntasacha, ó thaobh cúrsaí béime agus eile, idir Gaeilge Thuaisceart Ros Comáin agus an cineál Gaeilge a labhraítí in oirthear Mhaigh Eo.

Níor éirigh le Heinrich Wagner teacht ar aon duine cuí i lár ná i dtuaisceart Ros Comáin nuair a bhí faisnéiseoirí á lorg aige dá *Linguistic atlas and survey of Irish dialects (LASID)* a foilsíodh idir 1958 agus 1969. D'éirigh leis faisnéiseoirí a aimsiú i gceantar Shliabh na Cille, Co. Liatroma (pointe 63 in *LASID*), áit atá c. 16km soir ó thuaidh ó pharóiste Thuaim Ná, agus tháinig sé ar dhuine eile i bparóiste Chill Mobhí in oirthear Mhaigh Eo (pointe 61 in *LASID*), nach bhfuil ach 3km ón teorainn le Contae Ros Comáin agus c. 20km siar ó pharóiste Dhíseart Nuan i gceantar taighde an tionscadail seo.

Is úsáidí dúinn sa chomhthéacs seo, mar sin, an cuntas atá ag Henry in *An Anglo-Irish dialect of North Roscommon: phonology, accent, syntax* ar Bhéarla Angla-Éireannach mar a labhraítí é in bhf Cloongreaghan i dtuaisceart pharóiste Ard Carna sna daichidí. Léirítear in anailís Henry ar chóras fóineolaíoch mhuintir na háite, go raibh canúint áitiúil na Gaeilge, mar a bhíodh, le sonrú go soiléir i bpríomhthréithe chanúint Angla-Éireannach an cheantair (1957: 17-20). Bhí úsáid

nach beag ag torthaí an staidéir seo agus comparáid á déanamh idir na torthaí sin agus foirmeacha áitiúla de logainmneacha a bailíodh sa cheantar i 1988 agus i 2011-12.

Obair Allamuigh

Is é an Dr. Nollaig Ó Muraíle a rinne cuid mhór den obair allamuigh sa cheantar seo c. 1988 don Bhrainse Logainmneacha ach ní dhearnadh aon trascríobh ar an obair sin go nuige seo. Rinneadh téipeanna Uí Mhuraíle a bhí i gCartlann an Bhrainse Logainmneacha a aistriú go córas digitithe go déanach i 2008 agus rinneadh trascríobh orthu i 2012. Rinneadh ceithre thuras ar thuaisceart Ros Comáin idir na blianta 2008 agus 2012 d'fhonn grianghraif a ghlacadh de shuíomhanna aitheanta, faisnéiseoirí áitiúla a chur faoi agallamh agus ábhar i Leabharlann an Chontae i Mainistir na Búille a scrúdú. Táim buíoch den Dr. Kieran O'Connor i Roinn na Seandálaíochta, Ollscoil na hÉireann, Gaillimh, amhol beirt fhaisnéiseoir thar a bheith eolach dom le cur faoi agallamh ar ainmneacha Chill Rónáin, Thuaim Ná agus Ard Carna, agus de Frank Tivnan, Corr na Míolta, a tháinig timpeall pharóiste Mhainistir na Búille liom ar mhaithe le súil a leagan ar na bailte fearainn agus ar a gcuid teorainneacha.

Maidir le faisnéiseoirí áitiúla an staidéir seo, cainteoirí dúchais Béarla a bhí iontu go léir. Is léir go raibh Gaeilge mhaith ag duine díobh agus é ag fás aníos (*Áit.-FG*) agus bhí mionainmneacha i nGaeilge ag an bhfaisnéiseoir sin agus ag duine eile (*Áit.-McL*) ach caithfidh go raibh baint aige seo freisin leis an scolaíocht a cuireadh orthu, seachas an Ghaeilge a bheith sealbhaithe acu sa bhaile.

Leaganacha Áitiúla

Níorbh fhéidir tabhairt faoi staidéar domhain ar chanúintí Béarla agus Gaeilge an cheantair sa saothar seo, agus fágтар faoin léitheoir staidéar Henry (1957) a léamh chun cur síos níos mine a fháil ar chanúint an cheantair. Tagann an méid atá meáite ag Ó Sé (1989: 155-58) agus ag Henry (1957: 17-20) gar go maith do na taifeadtaí a rinneadh, go háirithe na taifeadtaí ó 1988. D'aithin Henry luas urlabhra mall a bheith ag an gcanúint (*ibid.* 68), rud atá le brath sna téipeanna ó 1988 go háirithe. Bíonn na siollaí aiceanta go léir fada, cuirtear fad le gutaí fada aiceanta agus laghdaítear gach siolla neamhaiceanta (*ibid.* 67-8). De réir Henry, bhí sóinseálacht allafónach léirithe i bhfoinéimí na ngutaí sa cheantar taighde (*ibid.* 17). Is éard a bhí i gceist ag Henry ansin ná go raibh laghdú éagsúlachta tagtha chun cinn idir gutaí fada agus gearra,

chomh maith le fuaimanna carballacha gan bhunús a bheith in úsáid mar gheall ar éiginnteacht an chainteora faoi rialacha na bhfuaimanna sin sa teanga (Broderick, 1999: 164). Léiriú maith is ea an próiseas teangeolaíoch seo ar mheath úsáid na Gaeilge sa cheantar taighde

Baineadh leas as leagan simplithe den aibítir idirnáisiúnta fhoghraíochta i dtrascríobh na leaganacha áitiúla. Faightear na leaganacha foghraíochta ag bun liosta na bhfoirmeacha go hiondúil. Rinneadh an raon gutaí a bhí léirithe sna téipeanna a scagadh agus a chur i gcomparáid leis na gutaí coitianta a bhí teastaithe sa cheantar i staidéar Henry. Úsáideadh an fhóinéim | ɔ̃ | i gcuid den trascríobh agus de réir Henry: ‘The speakers... substitute a well-lowered, advanced, and unrounded o: (ɔ̃) in all positions. This sound is of very frequent occurrence and may be considered as a diaphone variant to o:. Exx. $\text{sm}\text{ɔ̃}:\text{k}$ *smoke*; $\text{r}\text{ɔ̃}:\text{d}$ *road*’ (Henry, 1957: 29). Rinneadh iarracht i ngach aon fhoirm áitiúil an phríomhbhéim, béim thánaisteach agus consain charballacha a léiriú, ach é sin ráite, bhí sé deacair go leor teacht ar chóras a réitigh leis na taifeadtaí a rinneadh agus le córas Henry, ós rud é gur meascán idir défhoghair na Gaeilge agus an Bhéarla atá sna taifeadtaí .i. logainmneacha a tháinig chuig na faisnéiseoirí i gcruth an Bhéarla cé go gcaomhnaítear fuaimanna na Gaeilge iontu in amanna. Is féidir comparáid a dhéanamh idir na foirmeacha luatha agus na cinn áitiúla i roinnt mhaith cásanna ar mhaithe le tréithe na canúna a aithint. Leagtar amach anseo thíos suíomh measta na ngutaí éagsúla sa bhéal:

Déantar cuid de na gnásanna a bhí in úsáid sa trascríobh a mhíniú anseo thíos:

- Léirítear gutaí fada leis an gcomhartha | : | (m.sh. *carraigín* > |'k ɔ̃ rəgi:n|).
- Bíonn príomhbhéim an ainm léirithe le | ' | agus an bhéim thánaisteach leis an gcomhartha | , | sna leaganacha áitiúla.

- Bíonn an phríomhbhéim ar an siolla tosaigh i gcás na n-ainmneacha Béarla (Greyfield > |'gre:fi:ld|) agus ar chuid de na hainmneacha béarlaithe nuair is comhfhocail iad (Dacklin > |'dɔklɔn|). Faightear an phríomhbhéim ar an siolla deiridh/dara mír go hiondúil i bhfoirmeacha béarlaithe an ainm (Aghafin > |,ahə'fin|). Féach Ó hUiginn (1994: 545-6) agus Ó Sé (1989: 155-6) maidir le béim an dara siolla in oirthear Chonnacht.
- Déantar consain chaola a léiriú leis an gcomhartha | ' | (Cuiltaboolia > |,kiltə'bu:l'ə|) agus Cornacarta |,kɔrnə'k'artə| ach baintear leas as | f | chun *s* caol/carballach a thabhairt le fios (Sheegorey > |,ʃi:'go:rə|).
- Baintear úsáid as | dⁿ | chun srónaíl ar an gconsan *d* a léiriú (Gardenstown > |'gardⁿz,taun|; Tawnyneden > |'taunə,ne:dⁿ|)
- Seasann an comhartha idirdhealaitheach | ɫ | faoi *t* nó *d* do fhuaim dhéadach i gcás an chonsain sin (| t̪ | in Ballynultagh > |,balə'nult̪ə| agus | d̪ | in Drumanone > |,d̪rɔmə'no:n|).
- Seasann an comhartha | ŋ | do *n* déadach (|,sra'ŋu:an|)
- Tagraíonn | ŋ | do *-ng* an Bhéarla agus do *n* glórach leathan na Gaeilge. Úsáidtear | dʒ | do *j/-dg* an Bhéarla (|'rakɪŋ,ham| agus |'gre:ndʒ,beg|).

Is féidir cuid de thréithe canúna na Gaeilge a labhraí sa cheantar a léiriú trí chomparáid a dhéanamh idir foirmeacha áitiúla an lae inniu, foirmeacha áitiúla Uí Dhonnabháin agus, i gcásanna áirithe, foirmeacha luatha na n-ainmneacha ón 17ú haois. Tugann fianaise áirithe ón 19ú haois le fios go raibh an t-athrú *cn-* > *cr-* (Ó hUiginn, 1994: 561) le fáil i ndeisceart an cheantair taighde, timpeall p. Dhíseart Nuan in bf Knocknafushoge. Níl an t-athrú *cn-* > *cr-* léirithe in aon cheann de na foirmeacha áitiúla ó 1988 i leith, agus déantar an mhír *cnoc* a léiriú go hiondúil sna foirmeacha seo mar | nɔk |. Barúntacht Mhainistir na Búille

Déantar anailís sa tráchtas seo ar ainmneacha 300 baile fearainn atá suite i mbarúntacht Mhainistir na Búille i dtuaisceart Chontae Ros Comáin. Cé go n-aithnítear na bailte fearainn seo laistigh de bharúntacht Mhainistir na Búille, ní féidir a mhaíomh go raibh ainm na barúntachta sin in úsáid ón aimsir anallód i leith. Is iomaí cor sa saol agus is iomaí ainm a cuireadh ar an limistéar geografach seo ag tréimhsí éagsúla le os cionn míle bliain anuas. Déantar soiléiriú anseo thíos ar scéal casta agus corrach ainm na barúntachta agus tugtar stair achomair ar theacht chun cinn an cheantair sna meánaoiseanna déanacha, ó thaobh cúrsaí polaitíochta, eaglasta agus cogaidh de.

Ainm toghroinne, barúntachta, paróiste, baile agus mainistreach ab ea Mainistir na Búille, atá teastaithe i gcáipéisí stairiúla an cheantair le beagnach 900 bliain anuas. Bunaíodh mainistir Chistéirseach ar bhruach thiar abhainn na Búille sa bhliain 1161 (Gwynn agus Hadcock, 1970: 128) agus ainmníodh an bharúntacht as an mbaile a tógadh cúpla céad méadar siar ón mainistir, ar bhruach na habhann céanna ag tús an 17ú haois (Mac Dermot, 1996: 442). Tá stair an-seanda ag baint le hainm na habhann agus é teastaithe siar go dtí an 8ú haois ar a laghad. Déantar ainm na habhann a phlé faoi **Logainmneacha Ábhartha Eile** thíos. Cruthaíodh barúntacht Mhainistir na Búille timpeall na bliana 1585 (*CBC*, 152), nuair a bhí úinéireacht talún i gcúige Chonnacht á socrú idir an uasaicme Ghaelach agus Ghall-Gaelach agus an Coimisiún Ríoga faoi stiúir Sir Richard Bingham agus Sir John Perrot (Weld, 1832: 5; Ó hAisibéil, 2007: 13). Tabhair faoi deara gur luadh an leagan béarlaithe d'ainm an bhaile .i. *Boyle*, mar ainm na barúntachta i 1585, os iad na Túdair a shocraigh ainm na barúntachta sa *Composicion Booke of Conought*. Ar ndóigh, bhí ainmneacha eile in úsáid don limistéar geografach seo sular cruthaíodh an contae ná an bharúntacht ag deireadh an 16ú haois (Smyth, 2006: 352-54). Níor mhiste a lua nár úsáideadh ainmneacha na seandúichí féin mar ainmneacha nua ar bharúntachtaí Ros Comáin i gcás ceithre cinn de bharúntachtaí an chontae.²² B'ionann na seandúichí Magh Loirg, Tír Thuathail agus Ciarraí Airtigh agus

²² Roghnaíodh ainmneacha na mbailte sna dúichí sin mar ainmneacha na mbarúntachtaí nua .i. *Athlone*, *Boyle*, *Ballymoe*, agus *Roscommon*. Is ainmneacha bailte iad *Frenchpark* (Dún Gar) agus *Castlereagh* (An Caisleán Riabhach) freisin, ach níor cruthaíodh na barúntachtaí sin go dtí go luath sa 19ú haois.

barúntacht Mhainistir na Búille ó thaobh limistéir de, go dtí tús an 19ú haois (Simington, 1949: xlv). De bharr socruithe an Ard-Ghiúiré a rinneadh ag tús na tréimhse sin, baineadh an seandúiche Ciarraí Airtigh de bharúntacht Mhainistir na Búille agus cruthaíodh barúntacht nua darb ainm *Frenchpark* (Dún Gar) bunaithe ar an dúiche sin.²³ Fágadh Magh Loirg agus Tír Thuathail sa bharúntacht, agus aithnítear na paróistí go léir atá faoi chaibidil sa saothar seo sa dá dhúiche seo. Luaitear an t-ainm *Boyle* go leanúnach ón mbliain 1606 ar aghaidh mar ainm malartach ar Mhagh Loirg ach ní thagann *Boyle* i gcomharbas iomlán ar Mhagh Loirg mar ainm na barúntachta go dtí deireadh an 18ú haois.²⁴ In ainneoin nach bhfuil cur síos go hiomlán cruinn againn ar achar na dúiche seo go dtí an Nua-aois luath, is féidir linn a bheith cinnte gur bhain Magh Loirg go sonrach le paróistí i ndeisceart an cheantair taighde.²⁵ Tá limistéar measta na dúiche léirithe sa léarscáil ar lch. 6 thuas. D'aithnítear paróistí Dhíseart Nuan, Chill Lomad agus Chill Abhaicín i ndúiche Mhagh Loirg, chomh maith leis na codanna laisteanas d'abhainn na Búille de pharóistí Mhainistir na Búille, Ard Carna, Thuaim Ná agus Chill Bhraoin.

Dealraíonn sé, mar is léir óna n-ainm, go raibh Cálraí Loirg ar cheann de na treabhchais a mhair i Magh Loirg sa tréimhse luath (Ó Muraíle, 1999: 163). De réir Byrne: 'The baronies of Gallen... along with Corran and Coolavin in the Curlew mountains, looming over the fertile plain of Mag Luirg... were crowded with small tribes, some of whom are intimately connected with the origin legends of the Connachta' (1987: 233) agus is féidir linn Cálraí Loirg a áireamh mar cheann de na grúpaí beaga seo. Luaitear iad a bheith faoi sceimhle ag Uí Bhriúin, a tháinig chun tosaigh mar cheann de na ríshleachta ba chumhachtaí i gConnachta ón dara leath den 7ú haois ar aghaidh (Byrne, 1987: 248; Ó Cróinín, 2005: 233). De réir na n-iontrálacha in *Annála Uladh*, rinne Uí Bhriúin léirscrios ar Chálraí Loirg faoi dhó, don chéad uair i 752 agus don dara huair i 812.²⁶ Ní fhaightear mórán tagairtí eile do Chálraí Loirg sa taifead stairiúil i ndiaidh an ama seo, ach amháin go dtugtar scéala báis '*Niall mac Mic Riabhaigh, tigherna Callraighe*' sa bhliain 1105 in *ARÉ* (ii,

²³ Bhí Seán Ó Donnabháin den tuairim nár cheart barúntachtaí Dhún Gar (*Frenchpark*) agus an Chaisleáin Riabhaigh (*Castlereagh*) a aithint ar léarscáileanna na Suirbhéireachta Ordanáis toisc gur limistéir nuachruthaithe a bhí iontu (Herity agus McGuinness, 2010: 53).

²⁴ Féach, áfach, go luaitear 'Boyle otherwise Moylorig' sa bhliain 1585 (*CBC*, 154) ach níl mórán foirmeacha eile teastaithe as seo go dtí 1606.

²⁵ Mar thoradh ar an taighde a rinne Ó Donnabháin (Herity agus McGuinness, 2010: 60) agus féach freisin *ARÉ* (iii, 76, nóta); Hogan (1910: 525) agus Simington (1949: xliii-iv) sa 19ú-20ú haois.

980). Cé go dtuairimítear in MacLysaght (1996: 117) gur tháinig Clann Mhic Dhiarmada i gcomharbas ar Chlann Mhic Riabhaigh (.i. clann de bhunadh Cálraí Loirg) sa 13ú haois luath, bhí dlúthbhaint ag Clann Mhic Dhiarmada leis an gceantar cheana féin. Is cosúil go raibh codanna de Mhagh Loirg agus de Thír Thuathail ina seilbh faoi dheireadh an 10ú haois ach is cinnte nach raibh siad aitheanta mar theaghlach ríoga faoin tréimhse sin (Mac Dermot, 1996: 16). Níor thóg sé i bhfad orthu dul chun cinn a dhéanamh, áfach, agus léiríonn na hAnnála go raibh Clann Mhic Dhiarmada²⁷ go lárnach in imeachtaí an cheantair faoin 12ú haois, go háirithe agus duine díobh, Diarmaid, mac Taidhg Uí Mhaoil Ruanaidh (†1159), ainmnithe mar thiarna ar Mhagh Loirg féin sa bhliain 1124 (Mac Dermot, 1996: 38). Léiríonn líon na dtagairtí do thiarnaí na dúiche seo i dtagairtí stairiúla ainm Mhagh Loirg an tábhacht a bhain le tiarnas Mhagh Loirg i saol polaitiúil an Chúige ón 10ú haois go dtí an 17ú haois luath agus de réir Byrne: ‘In the later middle ages this lord [tiarna Mhagh Loirg] was to become the effective king-maker in rivalries between the Ua Conchobair princes’ (Cosgrove, 2008: 35).

Faightear an chéad tagairt do shloinne Chlann Mhic Dhiarmada sna príomhfhoinsí taighde i 1187, nuair a luaitear *ben Conchobair Mic Diarmata, rí Moighi Luirg* in AU. Luaitear Giolla Críost Mac Diarmada le tiarnas Mhagh Loirg roimhe seo sa bhliain 1159, ach is cosúil gurbh fhéidir gur ainm athartha atá anseo seachas an t-ainm a bheith ag feidhmiú mar shloinne (féach foirmeacha 19-21 thíos). De réir Uí Dhonnabháin, b’ionann barúntacht Mhainistir na Búille agus ‘Mac Dermot’s Country’ (Herity agus McGuinness, 2010: 53) ach ní thagann an t-ainm seo chun cinn go dtí an 16ú haois dhéanach i bhfoinsí Béarla/Laidine amháin, cé go luaitear *Mac Diarmada Maige Loirg* go rímhinic sna foinsí dúchasacha roimhe seo.²⁸ Bhí lárionad cumhachta Chlann Mhic Dhiarmada lonnaithe ar oileán i ndeisceart Loch Cé ar a dtugtaí *Carraig Locha Cé* nó *Carraig Mhic Dhiarmada*. Bhí Carraig Locha Cé ina dhúnfort ag Clann Mhic Dhiarmada ón 12ú haois luath go dtí an 17ú haois (Mac Dermot, 1996: 55; O’Conor et al., 2010: 15). Níor mhiste a lua anseo nár tháinig na Normannaigh i réimeas sa cheantar seo riamh (Graham, 1988: 30;

²⁷ Shíolraigh Clann Mhic Dhiarmada ó Mhuintir Uí Mhaoil Ruanaidh (Síol Muireadhaigh) ach thosaigh siad ag baint úsáide as an sloinne Mac Diarmada am éigin timpeall 1187, nó go gairid roimhe sin (Féach AU¹, ii,210).

²⁸ Tugtar le fios gurb ionann Magh Loirg agus ‘Dúiche Mhic Dhiarmada’ ó c. 1570 ar aghaidh i bhfoinsí ón Nua-aois Luath. Féach, m.sh. ‘the country called mcDermoyd’s alias Moyloirge’ (Fiants §1724) ach déantar *Mac Diarmada Maighe Loirg* a lua maidir le hainm tiarnais an cheantair ó 1486-1650c i bhfoinsí Gaeilge an ama sin.

O'Connor, 1998: 82; Doran, 2004: 73), agus ní dhearna na Túdair ná na Seacaibítigh plandáil oifigiúil ar an gceantar ar chor ar bith (O'Connor, 2007: 192). Fágadh go raibh na teaghlaigh Ghaelacha níos treise anseo ná mar a bhí i lár agus i ndeisceart an chontae ag an am sin, cé go raibh lonnaíocht áirithe sa cheantar ag na Gaill sa tréimhse dhéanach agus is tailte críche a bhí i ndeisceart Mhagh Loirg idir Mic Dhiarmada, Uí Chonchobhair agus na Gaill go dtí an 16ú haois ar a laghad

Ní féidir achoimre a dhéanamh anseo ar na heachtraí go léir atá teastaithe sna príomhfhoinsí taighde, go háirithe faoin méid a thit amach idir Clann Mhic Dhiarmada agus clanna eile sa cheantar seo. Déantar tagairtí iomlána do na foirmeacha stairiúla ó *ACot.*, *ALC* agus *ARÉ* a sholáthar i gcás ainm na dúiche seo thíos, rud a chabhróidh, táthar ag súil, le cúlra stairiúil na dúiche a léiriú chomh maith le liosta tiarnaí na dúiche a sholáthar. Ní mór don léitheoir súil a chaitheamh ar ghinealaigh Chlann Mhaoil Ruanaidh agus Clann Mhic Dhiarmada i *Leabhar Mór na nGenealach* chun liosta iomlán a fháil²⁹ agus ar leabhar Mac Dermot (1996: 57).

Bhain tuaisceart paróistí Ard Carna, Thuaim Ná agus Chill Bhraoin le dúiche eile ar fad darbh ainm Uachtar Thíre. Is cosúil, ón bhfianaise atá bailithe, gur forannán é Uachtar Thíre den dúiche ar a dtugtaí Tír Thuathail. Meastar gurb ionann paróiste Chill Rónáin agus Tír Thuathail sa lá atá ann inniu (O'Connor, 2010: 21), ach is cinnte gur dúiche níos fairsinge a bhí inti tráth den saol. Léirítear arís agus arís eile sna hAnnála agus sna hIonchoisní gurb í abhainn na Búille teorainn thuaidh Mhagh Loirg.³⁰ Gheofar thíos na foirmeacha stairiúla atá aimsithe sna príomhfhoinsí taighde, a bhaineann le dúiche Mhagh Loirg, agus iad comhtháite leis na foirmeacha d'ainm bharúntacht Mhainistir na Búille. Baineann na tagairtí do Mhainistir na Búille leis an mbarúntacht amháin, áit gur léir san fhianaise nach iad ainm na habhann, ainm an pharóiste, ainm an bhaile ná ainm na mainistreach atá i gceist. Déantar ainm Uachtar Thíre a phlé faoi bf Cootehall, par. Thuaim Ná thíos.

Léiríonn líon na dtagairtí thuas, a aimsíodh i bpríomhfhoinsí an taighde, go raibh tábhacht faoi leith ag baint le dúiche Mhagh Loirg, go háirithe sna meánaoiseanna déanacha. Is féidir tagairtí luatha eile a bheith ann do Mhagh Loirg, sa bhreis ar na samplaí thuas, ach is leor príomhfhoinsí taighde an tionscadail seo chun léargas a thabhairt ar fhorbairt an ainm, chomh maith le cúlra a sholáthar sna fonótaí ar chúrsaí cogaidh agus polaitíochta i gCúige Chonnacht ó na meánaoiseanna déanacha go dtí an Nua-aois luath. Tugtar le fios i measc na dtagairtí thuas, na coimhlintí inmheánacha agus seachtracha a bhain le tiarnas Mhagh Loirg i rith na tréimhse sin.

Maidir le brí an ainm, deirtear linn sa dinnseanchas meadarach gur ainmníodh an dúiche as an tóraíocht a rinneadh i ndiaidh Chonall Chearnaigh ó Ráth Cruachan i lár an chontae, aníos trí Mhagh Loirg (*MDind.*, III,397). De réir an tseanchais is é lorg na tóraíochta sin atá caomhnaithe i ndara mír an ainm inniu. Luaitear *An Dagda*, pearsa eile ón tréimhse mhiotaseolaíochta, mar cháilitheoir breise ar an ainm i bhfoirm 223 thuas ó *ARÉ* (vi,2038). Faightear blúirín eolais faoi bhunús ainm na dúiche i gceann de na scéalta is mó tábhacht a bhaineann leis *An Dagda: Cath Maige Tuired*, áit go dtagraítear den ghabhal nó adhal a bhí á tharraingt ag *An Dagda* ina dhiaidh (Gray, 1983: 46).

Ar ndóigh, is é an focal *magh* ‘s, n. a plain, an open stretch of land’ (*DIL* sv. *mag*) nó ‘plain’ (*Ó Dónaill*) atá mar mhír thosaigh anseo, agus é cáilithe ag an ainmfhocal fir. *lorg* ‘o,m. trace, vestige, mark, impression; track, trail, path, course’ (*DIL* sv. *lorg* (a)(b)) nó ‘track; course’ (*Ó Dónaill*). Féach an focal *lorg* mar mhír thosaigh in bf Lorg an Chlaí (*BLÉ* 35285) i gCo. Mhaigh Eo agus in ainm na barúntachta Lorg i gCo. Fhear Manach, agus mar cháilitheoir in Lisnalurg < *Lios na Lorg (*BLÉ* 45260) i gCo. Shligigh. Ní hé an focal baininsneach *lorga* ‘staff, stick, club; shin; shank, shaft’ (*Ó Dónaill*) atá ina cháilitheoir anseo, cé go bhfuil an mhír sin coitianta go leor i logainmneacha, áit a mbíonn an bhrí ‘long low ridge; strip of land’ aici (*BLÉ: Gluais* ‘lorga(-in)’).

Paróistí Sibhialta Bharúntacht Mhainistir na Búille

Cruthaíodh barúntacht Mhainistir na Búille as na seandúichí Airteach, Magh Loirg agus Tír Thuathail a d'fhág fiche paróiste sibhialta i dtuaisceart an chontae sa bharúntacht. Ní áirítear ach ocht bparóiste sibhialta i mbarúntacht Mhainistir na Búille inniu, rud a fhágann go raibh dhá pharóiste dhéag eile sa bharúntacht roimh aimsir na Suirbhéireachta Ordanáis. Cruthaíodh barúntachtaí Dhún Gar (seacht bparóiste) agus an Chaisleáin Riabhaigh (cúig pharóiste) as na paróistí eile seo píosa roimh 1841 agus de réir Uí Dhonnabháin, bhain cruthú na mbarúntachtaí leis an Ard-Ghiúiré (Herity agus McGuinness, 2010: 53, 60), agus mar sin ní dhéantar iad a áireamh sa saothar seo.¹²⁷ Is iad seo a leanas na paróistí sibhialta atá anois i mbarúntacht Mhainistir na Búille: *Ard Carna, Cill Abhaicín, Cill Bhraoin, Cill Lomad, Cill Rónáin, Díseart Nuan, Mainistir na Búille* agus *Tuaim Ná*. Déantar tráchtairacht anseo thíos ar ainmneacha na bparóistí seo agus a mbailte fearainn in ord aibítreach.¹²⁸ Tá na bailte fearainn leagtha amach go haibítreach faoi ainm an pharóiste agus déantar aon mhionainm nó iar-rannán talún nach miste a lua a chur faoi ainm an bhaile fearainn nuair is féidir suíomh an rannáin sin a aithint. Tugtar buille faoi thuairim maidir lena shuíomh i gcásanna áirithe nuair nach féidir é a chinntiú sna foinsí a cíoradh. Léirítear mionainmneacha sa phríomhthéacs i gcló iodálach agus i ngnáthchló beag faoi ainmneacha na mbailte fearainn.

¹²⁷ Is iad *An Caisleán Mór, Cill Cholmáin, Cill Chomhlach, Cill Mhic Coimsigh, Cill na Manach, An Chraobh* agus *Tigh Baoithín* ainmneacha na bparóistí sibhialta atá le fáil i mbarúntacht Dhún Gar agus *Baile an Tobair, Baislic, Cill Chaoimhín, Cill Churcaí* agus *Cill Tulach* ainmneacha na bparóistí i mbarúntacht an Chaisleáin Riabhaigh.

¹²⁸ Ní áirítear paróiste Chill Rónáin .i. *Tír Thuathail* sa saothar seo cheal spáis, cé go bhfuil na foirmeacha stairiúla go léir bailithe don pharóiste sin agus an obair allamuigh déanta.

Ard Carna

‘The superficial contents of this parish (which takes its name from a cairn on the hill, near the church, are stated to be 19,962a. 3r. 26p., present statute measure, of which 1,235a. 2r. 4p. are covered with water... There are 86 townlands within Ardcarne, of which 32, comprising about 6,500a., are the estate of Lord Lorton; 9, containing about 3,400a., that of William Mulloy, Esq.; 8, about 1,800a., that of Hugh Barton, Esq., &c... The population of this district was laid down, in 1821, as 5,684 persons, increased in the Census of 1831, to 6,718... The late census accounts the total as 8,304. The northern portion of the parish is bounded by the Feorish river, separating it from that of Kilronan. It has a considerable quantity of reclaimable bog, and an improving system of tillage is being adopted. Limestone and freestone of the best description for architectural purposes abound, and indications of coal have been discovered in Ballyfermoyle, but, though shafts were sunk, no further operations have been continued. The Boyle river runs through the parish, being crossed by a bridge at Knockvicar, where its banks are adorned with some pleasing scenery’ (D’Alton, 1845: i, 93-5). Baineann na tagairtí seo a leanas le hainm an pharóiste amháin ach déantar ainm an bhaile fearainn a phlé go mion thíos.

‘Bounded on the North by the County Sligo, a detached portion of the parish of Boyle and the Parish of Kilronan; East by the Parish of Tumna and Killukan; South by the Parish of Estersnow and on the West by the Parish of Kilbry and the County Sligo’ (*AL*). Tá an paróiste sibhialta seo roinnte idir lár agus tuaisceart na barúntachta ag abhainn na Búille ar an taobh thoir de Loch Cé. Is léir gur tháinig méadú ar líon na mbailte fearainn sa pharóiste ó aimsir D’Alton i leith agus áirítear 90 baile fearainn¹²⁹ sa pharóiste anois; trí cinn díobh roinnte thar dhá pharóiste. Is féidir gurb iad cuid de na hoileáin ar Loch Cé na bailte fearainn breise atá againn inniu ach ní sholáthraítear aon liosta díobh in D’Alton.

Tá idir thalamh maith feirmeoireachta agus choillearnacha go flúirseach sa taobh seo den bharúntacht agus faightear sraith dhroimníní (atá idir 60 agus 150m ar airde) i dtuaisceart an pharóiste a ritheann ón oirdheisceart, siar ó thuaidh go dtí iarthuaisceart an cheantair agus isteach i gCo. Shligigh. Tá roinnt lochanna sa lár

¹²⁹ Tá 29 acra de bhf Pollower liostaithe sa pharóiste seo i mBunachar Logainmneacha na hÉireann (*BLÉ*) ach áirítear an bhf sin i bparóiste Chill Bhraoin sa saothar seo.

agus in oirthuaisceart an pharóiste seo agus is in bh Ballyfermoyle atá an pointe is airde sa pharóiste ag 153m. Tá dhá dhroichead shuntasacha sa pharóiste seo a thrasnaíonn an Bhúill; ceann i gCnoc an Bhiocáire agus ceann eile ag Uachtar Thíre.

Ainm paróiste, baile fearainn agus iar-ainm deoise atá in Ard Carna agus tá taifead air ón tréimhse Luath-Chríostaí i leith. Léiríonn an líon séadchomharthaí náisiúnta atá suite gar do shéipéal Ard Carna féin c. M 865 021 gur láthair eaglasta luath a bhí inti (Mac Dermot, 1996: 202; Moore, le foilsiú) agus is cosúil gur bunaíodh an láthair eaglasta ag Ard Carna go luath sa 6ú hAois, uair a dtagraítear do bhás an easpaig Béoáed mac Ocláin ann in c. AD 520 (Lewis, 1837: 43; Freeman, 1929: 320; Mac Dermot, 1996: 56). Ainmníodh Ard Carna mar dheoise ag Sionad Ráth Bhreasail i 1111 a rinne teorainneacha na dtailte a bhí ag deoisí na hÉireann a shonrú (Mac Erlean, 1914: 5). Tugtar le fios na teorainneacha a bhain le Tuaim, Cluain Feartha, Conga, Cill Ala agus Ard Carna in *Foras Feasa ar Éirinn* (iml. 3) agus seo a leanas atá ráite faoi Ard Carna:

Fairche Arda Carna nó Ardachaidh

Ó Ard Charna go Sliabh an Iarainn

& ó Chéis Chorainn go hUrchuilltén. (Mac Erlean, 1914: 9).

Baineadh stádas deoise d’Ard Carna ag Sionad Cheanannais sa bhliain 1152 agus rinneadh easpagóideacht Ard Carna, Ros Comáin, Droim Chliabh agus Ail Finn á chónascadh chun deoise nua Ail Finn a chruthú agus is cosúil go ndeachaigh tábhacht na láithreach i léig de réir a chéile sna meánaoiseanna déanacha agus láithreacha eaglasta eile sa cheantar máguaird ag teacht chun cinn; Oileán na Tríonóide, Mainistir na Búille agus Díseart Nuan cuir i gcás. De réir Mac Dermot, bhí baint níos láidre ag taoisigh an cheantair .i. Clann Mhic Dhiarmada le Mainistir na Búille agus le hOileán na Tríonóide nuair a bhí cónaí orthu ar Castle Island i ndeisceart Loch Cé (1996: 202). De réir an traidisiúin áitiúil, aistríodh an baile a bhí suite ag Ard Carna go dtí Mainistir na Búille ag tréimhse éigin agus faoi aimsir na Suirbhéireachta Ordanáis, ní raibh le feiceáil ach líon beag d’fhothraigh agus de ghnéithe ailtireachta a bhain leis an suíomh (Herity agus McGuinness, 2010: 58) agus tá fothraigh na lonnaíochta tréigthe (NMS RO006-103007) le feiceáil c. G 866-020 ó dheas de shéipéal Ard Carna an lae inniu. Ní fios cén fáth go díreach ar aistríodh an baile ach is féidir go raibh baint aige le teacht chun cinn Mhainistir na Búille i ngnóthaí eaglasta an cheantair ón 12ú haois go dtí díscáileadh na mainistreacha in Éirinn sa 16ú agus sa 17ú haois.

Léirítear muileann arbhair in iarthar an bhf ar *LSOI* agus níl aon séadchomhartha náisiúnta aitheanta leis an mbaile fearainn seo anois (Moore, le foilsíú).

An focal *achadh* ‘o, m. expanse of ground; pasture, field’ (*DIL* sv. *achad*) nó ‘a field, land, a plain’ (*Dinneen*) atá sa chéad mhír anseo. Déantar béarlú ar an bhfocal seo go hiondúil mar ‘*agha-*’, ‘*agh*’ nó ‘*augh-*’ (Joyce, 1869, 1875, 1913: i, 232). Is eilimint thar a bheith coitianta í *achadh* i logainmneacha na hÉireann (c. 900 sampla) agus tá breis is leath na samplaí seo le fáil i gCúige Uladh (O’Connor, 2001: 17). Féach bailte fearainn *Aghoo* i Sligeach (*BLÉ* 45287) agus i Liatroim (*BLÉ*

De réir Flanagan agus Flanagan: ‘Very often [*achadh*] is qualified by terms descriptive of its size or shape’ (2002: 12) agus léiríonn na foirmeacha stairiúla go raibh cáilitheoir éigin ag an bhfocal *achadh* go dtí déanach sa 17ú haois. Maidir le ciall an dara mír, ní léir an bhrí ó na leaganacha stairiúla thuas. Ag brath ar fhoirm 1 thuas, is féidir gurb é leagan an ghinidigh den ainmfhocal *leataobh* ‘(*leth + táeb*) side; In adv. phr. do l. apart, aside’ (*DIL* sv. *lettáeb*) agus ‘one side (of two)’ (*Ó Dónaill*) atá anseo, mar atá le fáil in bf Aghalateeve (*BLÉ* 29419) i gCo. Cé go léiríonn an fhoghraíocht áitiúil (foirmeacha 19, 20) go maireann dhá shiolla in Aghoo inniu, ní dócha gur *achadh* móide an dobhriathar treo *thuaidh* ‘(in the) north’ (*Ó Dónaill*) atá anseo; mar atá tuairimithe ag O’Connor (2001: 17) d’Aghoo i gCo. Fhear Manach.

‘At the Western extremity of the Parish. Bounded on the North by the townland of Clerraugh: East by Woodfield, Baurcullue and Blackfallow: S. by Drumcormick and Lough Key; and West by Parish Kilbryan. Contains [282] statute acres of which about 22 are bog and 8 rough pasture. Soil: clay is cold and sandy. Produce, light crops of oats and potatoes, and flax. Farms from 12 to 16 Irish acres. Forts three’ (*AL*). Tá trí ráth sa bhaile fearainn seo, péire i ndeisceart an bh (NMS RO003-044; 003-045) agus ceann eile san iarthar (NMS RO0003-043). Tá cnocán 135m (G 855 079) ar an bpointe is airde i dtuaisceart an bhaile fearainn.

Is cinnte gurb é an t-ainm pearsanta *Fionnagáin*; leagan díspeagtha den ainm *Fionn* ‘fair, bright white, light-hued’ (Ó Corráin agus Maguire, 1990: 100) atá sa dara mír anseo. Tá samplaí den sloinne seo mar cháilitheoir i logainmneacha i dTamhnaigh Uí Fhionnagáin (*BLÉ* 40811) i gCo. Mhuineacháin agus Baile Uí Fhionnagáin (*BLÉ* 18941) i gCo. na Gaillimhe. Tá cúpla féidearthacht ann maidir leis an gcéad mhír san ainm seo. Measann Connellan in 29 thuas, gurb é an focal *achadh* ‘o, m. expanse of ground; pasture, field’ (*DIL* sv. *achad*) atá sa chéad mhír agus gurb í an aidaicht *réidh* ‘smooth, level, easy to traverse’ (Ó Dónaill) atá sa dara mír ach faraor, ní thagann an fhianaise stairiúil leis an bhfocal *réidh* a bheith anseo. Más é an focal *achadh* atá mar chéad mhír, léiríonn formhór an fhianaise thuas siolla eile, an t-alt iolra b’fhéidir, a bheith idir an chéad agus an dara mír. Léirítear malartú idir ‘-ne-’/‘-ny-’ i lár an fhocail agus ‘-re-’ idir foirmeacha 1,2 agus foirmeacha 3-6

¹³² ‘Eachrudh is locally understood to mean a place full of bushes, briars’ (*OD Nóta*)

agus 8 (Joyce, 1869, 1875, 1913: 49). Murach an malartú seo is féidir gurb é an focal *eachaire* atá chun tosaigh anseo mar atá le fáil go forleathan i gContaetha Liatroma agus Muineacháin.¹³³ Ní léir brí an fhocail sin ach is féidir go bhfuil baint aige leis an bhfocal *each* ‘A horse (incl. mare or gelding) genly. of chariot or saddle-horse’ (*DIL* sv. *ech*) nó an focal *eachaire* ‘io, m. horse-keeper, groom’ (*DIL* sv. *eachaire*) freisin.

Is féidir áfach, gurb é an focal *eochair* ‘an edge, border, rim’ (*DIL* sv. *Teochair/ochair*) atá sa chéad mhír, mar atá le fáil in bf Eochair (*BLÉ* 63232) i gCo. Thír Eoghain. Ní mír choitianta í seo i logainmneacha na hÉireann ach meastar gurb í atá i gceist in Achair (*BLÉ* 38980), Co. na Mí. Féach foirm 27 thuas, áit a bhfuil míniú áitiúil ‘*Eachrudh* is locally understood to mean a place full of bushes, briars’ tugtha ag an Donnabhánach don fhocal seo. Má ghlahtar leis an gciall ‘place full of bushes, briars’ is é an focal *achrann* ‘o, m. Also *eachrann*. thicket, tangled undergrowth’ (*DIL* sv. *achrann* (a)) nó ‘tangled growth, tangle, entanglement’ (*Ó Dónaill*) a bheadh ina mhír thosaigh.

Contains [38] statute acres... Soil light gravelly clay...' (*AL*). Leithinis ar *Lough Eidin* atá sa bhaile fearainn seo. Tá talamh íseal agus riascach ar an taobh thoir den leithinis agus is cosúil go n-ardaíonn leibhéal an locha cuid shuntasach ar an taobh sin. Tá crannóg (*NMS RO007-094*) i *Lough Eidin* amach ó iarthar an bh seo.

Eanach 'o, s, n., later m. moor, swamp, bog, fen; a narrow way or passage; a place fit for an ambush' (*DIL* sv. *enach* I(a)(b)) agus 'a watery place, pond or lake; a fen, marsh or swamp' (*Dinneen*) atá mar chéad mhír anseo. Tá sé shampla den mhír seo sa bharúntacht. Is eilimint choitianta í i gCúige Uladh agus i gConnachta agus tá dáileadh na heiliminte dírithe ar cheantair na gcriosanna droimníní ó Loch nEathach i dTuaisceart Éireann siar ó dheas go dtí Cuan Mó ar chósta thiar Mhaigh Eo (O'Connor, 2001: 76). Ní féidir ciall an dara mír a chinntiú cheal fianaise breise a aimsiú den ainm, ach is féidir gur leagan den sloinne Mac Siúrdáin .i. The initial *S* of the second part of ths surname is now always aspirated, and the pronunciation is often *Ó Ciúrtáin*' (Woulfe, 1923: 407) atá ina cháilitheoir anseo. Ní léir an fhianaise a bhí ag Connellan ar an sloinne *Mac Curtáin*¹³⁴ i gcás an ainm seo agus níl aon fhianaise ann ar a leithéid d'ainm sa cheantar sa daonáireamh nó sa *Tithe App*.

¹³⁴ Gach uile seans go bhfuil Mac Curtáin ina leagan malartach den sloinne Mac Cruitín/Mac Cuirtín 'son of *Cruitín* (hunch-backed)' (Woulfe, 1923: 346).

Ardcarney, Glebe and Ballyarden' (*AL*). Baineann cuid de na tagairtí stairiúla is luaithe sa bharúntacht leis an bhfocail seo agus léiríonn na séadchomharthaí atá ann ón gCré-umhaois i leith, go bhfuil lonnaíocht an-seanda ag baint leis an gceantar (Moore, le foilsiú). Tá 631a sa bhaile fearainn seo agus liostaítear 27 séadchomhartha ann. Is cosúil go dtagann dhá phríomhbhóthar seanda le chéile (RO006-103008; RO006-103012-) soir ó dheas de láthair eaglasta Ard Carna. Meastar na fothraigh eaglasta is sine in Ard Carna a bheith suite ag *Templemihil* ag G 864 020, mar atá léirithe ar *LSO2* (*NMS RO 006-103002*).

Is é an focal *ard* 'high place, height' (*DIL* sv. 1*ard* II (a)) atá mar mhír thosaigh anseo. D'fhéadfadh dhá chiall a bheith ag an bhfocal seo ag brath ar cé acu, ainmfhocal (áit ard nó cnoc) nó aidiacht (*ard*-) atá ann (Joyce, 1869, 1875, 1913: i, 385). Tá an chiall 'high, tall' (*Ó Dónaill*) ag an bhfocal *ard* nuair atá úsáid aidiachtach aige. Faightear *ard* mar mhír thosaigh i mbreis is 630 ainm baile fearainn in Éirinn ach uaireanta freisin mar eilimint aonair, mar shampla An tArd (*BLÉ* 42003) in Uíbh Fhailí nó, mar cháilitheoir ag deireadh focail, mar shampla An Ráth Ard (*BLÉ* 32497) i gContae Luimnigh. Tá *ard* cáilithe ag an ainmfhocal fir. *carn* 'heap, pile, cairn' (*DIL*) agus 'heap of stones, cairn, esp. as burial monument' (*Ó Riain, Ó Murchadha, agus Murray, 2008: 60*). Caomhnaítear siolla breise sa dara mír sna leaganacha stairiúla (suas go dtí 1834) agus san fhoghraíocht áitiúil a léiríonn foirm an iolra: *cáirne* mar atá ag Dinneen (*Dinneen* sv. *carn*: 165). Is féidir go dtagraíonn ainm an bhaile fearainn seo don charn (*NMS RO006-103011*) atá suite ar an taobh ó dheas den bhóthar ag G 865 023.

Is dócha gurb é an cnocán ag G 878 014 atá i gceist leis an bhfocal *ard* in ainm an bhaile fearainn seo. Tá an mionainm *Bunnadubber* léirithe sa bf seo ar LSO2 agus pléitear an t-ainm sin thíos.

Léirítear an t-ainm *Bunnadubber* in aice le lochán agus sruthán beag a sreabhann i dtreo *Lough Eidin* ar LSO2 ach cuirtear an t-ainm leis an gcaiseal (NMS RO006-175) atá suite i ndeisceart Ardconra ag G 882 006 ar LSO3. Is cosúil go bhfuil an chéad suíomh is feiliúnaí do bhrí an ainm. Tá *Bunnadubber* suite ar an taobh thoir de chnocán beag ag G 879 005. Is cosúil gurb é an focal *bun* ‘base, bottom; lower end, mouth of river’ (Ó Dónaill) agus ‘an end, the end or foot of anything, such as a hill, the land, a stream (source or mouth, &c.), often also applied to bottom land, i.e. at the lower end of a farm, or at the bottom of a hill’ (Joyce, 1869, 1875, 1913, iii: 152) atá sa chéad mhír anseo. Is féidir gurb é an focal *tobar* ‘well, spring; source’ (DIL sv. *topar* (a)(c)) atá ina cháilitheoir aige.

'At the South side of the Parish. Bounded on the North by the townland of Turlough; East by Oakpark Demesne and townland of Ardcarney; South by Ardcarney Glebe; and West by Rockingham Demesne' (*AL*). Áirítear 103 acra sa bf seo ar *LSOI* ach aithnítear c. 181 acra leis sa *BSD*. Má chuirtear méid na talún sna bailte fearainn Ballyardan, Turlagh agus Glebe atá in aice a chéile tá iomlán de 160 acra ann, rud atá gar go leor don 181a luaite sa *BSD*. Tá ráth amháin i lár an bf seo ag M 866 031.

Is cinnte gurb é an focal *baile* 'place; piece of land (belonging to one family, group or individual' (*DIL* sv. 1*baile* (a)) mar mhír thosaigh anseo. Is deacair ciall an dara mír a rianú toisc an g lárnach a bheith léirithe in 1-3 thuas, rud a chuirfeadh tús-chonsan séimithe in iúl seans m.sh. **Baile Uí Gh(a/o)rdáin* nó foirm chomhchosúil léi. Níl a leithéid de shloinne teastaithe mar leagan gaelaithe den sloinne Béarla *Gordon*. Ní dócha gurb é an t-ainmfhocal *ardán* 'small height; platform; stage' (*Ó Dónaill*) atá sa dara mír ach an oiread. Ceal fianaise eile, is fearr leagan Uí Dhonnabháin a leanúint sa chás seo.

‘At the Northern extremity of the Parish. Bounded on the North by the Parish of Kilronanl East by townland of Vreanletter; South by Derryforrawn; and West by Doogerra, Fostragh, and Derreendoglass. Contains [727] statute acres of which about 280 are bog and 190 rough pasture... Soil; clay light red and sandy. Produce; bad crops of oats potatoes and flax. Farms from 5 to 10 Irish acres’ (AL). Tá cnoc 153m ar airde i lár an bhfeoil seo ag G 909 085. Léirítear trí lios in aice a chéile in iarthar an bhfeoil; créfort (NMS RO004-037) sa deisceart agus tógáil mheigiliteach (NMS RO004-052002) ag bun an chnoic atá luaite thuas.

Is dócha gurb é an focal *baile* ‘place, township’ (*Ó Dónaill*) nó ‘a town, a village, a home; a townland’ (*Dinneen*) atá ina mhír thosaigh anseo. Tá *baile* cáilithe ag comhfocal den déanamh *for-* ‘on, upon, expressing both contact and relative position (*over, above*); of approximate position juxtaposition. *on, at, by.*’ (*DIL* sv. 1*for* (a)(b)) agus ‘super-, over-, hyper-, great, extreme; before, upon, beyond’ (*Dinneen*) móide an t-ainmfhocal *maol* ‘of a convex or rounded surface resembling the crown of a head: a flat-topped hillock’ (*DIL* sv. 2*mael* (c)) agus ‘a summit, hill or heap’ (*Dinneen* sv. *maol*2). ‘*Mael* [mwaíl or moyle] as an adjective signifies bald, bare, or hornless; and is often employed as a noun to denote anything having these shapes or qualities’ (Joyce, 1869, 1875, 1913: i, 395).

Tá Formaoil deimhnithe mar leagan Gaeilge do cheithre bhaile fearainn i gCo. Mhuineacháin.¹³⁷ Baintear leas as an gcomhfocal *formaoil*: ‘to signify a round-hill’ de réir Joyce (1869, 1875, 1913: i, 397) agus is léir mar sin go dtagraíonn an dara mír anseo don chnoc ag G 909 085. Tagraíonn an t-ainmfhocal *sliabh* ‘s,n. later m. *slíab* m. a mountain, a mountain-range; a moor’ (*DIL* sv. *slíab* (a)(b)) atá le

Cnocán 97m ar airde atá anseo atá suite i ndeisceart an bhf ag G 909 074. Tá *Drumcunny Lough* ó dheas den chnocán seo. Tá an chosúlacht ar na foirmeacha stairiúla thuas gur focal firinsneach a thosaíonn le *s* atá sa dara mír toisc an '-tl-' sáiteach sin a bheith sa leagan béarlaithe mar atá le fáil go minic mar shampla, leis an bhfocal *sliabh* i logainmneacha béarlaithe.¹³⁸ Is deacair ciall an dara mír a chinntiú ach is féidir gur leagan den tuiséal gin. Contains [111] statute acres of which about 7 are bog. Soil, wet, sandy, clat interspersed with green and freestone. Produce; very light crops of oats potatoes and flax. Farms from 4 to 12 Irish acres’ (AL). Tá an bhfeoil seo ar fad faoi chraicinn inniu agus níl teaghlach ar bith ina chónaí ann. Tá droimnín 130m i dtuaisceart an bhaile fearainn agus íslíonn an talamh thar achar gairid go dtí c. 80m ar airde sa deisceart i dtreo bh Blackfallow.

Níl ach sampla amháin den bhuneilimint *barr* ‘o, m. In general, top, tip, end’ (DIL sv. 1*barr* (a)) agus ‘top; tip’ (Dinneen sv. *bárr*) sa bharúntacht seo cé go bhfuil sí coitianta go leor i logainmneacha na hÉireann (Flanagan agus Flanagan, 2002: 27). Is féidir gurb é an focal *cuilleann* atá sa dara mír anseo. De réir Uí Mháille, ciallaíonn an focal *cuilleann* ‘fána ghéar’ agus tagann topagrafaíocht an bhaile fearainn seo leis an gciall seo.¹⁴⁰

Is féidir freisin, áfach, go bhfuil *barr* cáilithe ag an ainmfhocal fir. *cuilleann* ‘o, m. (wood of the) holly-tree’ (DIL sv. *cuilenn*) agus ‘holly’ (Ó Dónaill). D’fhéadfadh go bhfuil an focal *cuilleann* le fáil go neamhspleách i mbailte fearainn i gCúige Uladh den ainm Cullion ach meastar i gcásanna áirithe gurb é an focal thuasluaite *cuilleann* atá i gceist (Ó Mainnín agus Toner, 1992: 75). Sa chuid eile den tír, faightear *cuilleann* go neamhspleách leis an iarmhír áitreabhach *-ach* in bh Cuilleannach (BLÉ 31436) i gCo. Luimnigh, agus mar cháilitheoir in Maigh Cuilinn (BLÉ 18783) i nGaillimh agus Ceann na gCuilleann (BLÉ 22992) i gCiarraí.

Suite ar imeall droimnín ar an teorainn idir an bf seo agus Lyonstown, tá rian de láthair eaglasta an-luath, áit a bhfuil imfhálú eaglasta, séipéal, cillín, carraig Aifrinn, ballán agus cloch chrosghreanta suite laistigh de 50m óna chéile (Moore, le foilsiú). Léirítear *Cloonanapple Bridge* a thrasnaíonn An Fheorais ar *LSO2* in oirthuaisceart an bf.

Is cosúil gur tugadh *Leathcheathrú an Teampaill* (foirm 1 ón *CPR*) ar an talamh timpeall ar an láthair eaglasta in iarthar an bhaile fearainn seo. Tá an fhoirm thuasluaite, áfach, liostaithe mar chuid de *Clonboyagher* (.i. bf Lyonstown) sa *CPR* ach tá formhór de shuíomh na láithreach eaglasta in bf Bridgecartron or Derrycashel. Is dócha gur eascair an t-ainm Bridgecartron ó *Cloonanapple Bridge* (*Cluain na gCapall?) atá luaite thuas. Ní raibh Derrycashel in úsáid ag muintir na háite

Níl aon trácht ar an oileán seo san Ainmleabhar. Tagraítear den oileán sa *BSD* mar chuid de bhf Drumcormick.¹⁴⁴ Ag brath ar fhoirm an *BSD*, is féidir gur tuiseal tabharthach den fhocal *inis* ‘ī,f. De réir Uí Mhaolfabhail, tá dhá chiall leis an bhfocal *inis* agus i gcás an leagain *inse*: ‘tuigtear áit a bhíonn fliuch nó faoi uisce go rialta’ leis, seachas an bhunchiall amháin gur ‘talamh timpeallaithe go hiomlán, nó gar dó sin, ag uisce...’ atá ann (2005: 67-8). Baineadh leas as an ainm *Carraig Mhic Dhiarmada* don chéad uair is cosúil i 1499 (foirm 48 thuas). Tháinig sé isteach sa Bhéarla mar **Carrick McDermott* go rialta ón 17ú haois. Tá an focal *carraig* cáilithe ag ainm an locha agus pléitear bunús an ainm sin in **Logainmneacha Ábhartha Eile** gar do dheireadh an tsaothair seo. Díol spéise is ea an cur síos ar an ngairm scoile a thug Ruaidhri mac Taidc Mic Diarmada chun uaisle, ollaimh agus filí na tíre teacht ag an oileán sa bhliain 1540 (féach an fonóta atá le foirm 57 thuas).

‘On the East side of the Parish. Bounded on the North by the townlands of Cleen and Drumsillough; East by Cloongreaghan and the Parish of Tumna; South by Culmore and the River Boyle; and West by Knockaduff’ (*AL*). Tá achar 326 acra sa bhaile fearainn seo atá suite in oirthear an pharóiste. Tá ráth amháin, fothrach bábhúin agus fothrach theach daingnithe i ndeisceart an bhaile fearainn buailte le droichead agus baile Uachtar Thíre.

Is léir gur mheas Ó Donnabháin agus Connellan gur uimhir iolra an fhocail *cloigeann* ‘o, [m.] Later also ā, [f.] (*cloc* + *cenn*) skull’ (*DIL* sv. *cloicenn*) a bhí anseo (foirmeacha 22, 24). Tacaíonn Joyce leis an tuiscint seo, áit go ndeireann sé: ‘*claigeann*... is often applied to a round, dry, hard, or rocky hill... and the simple plural is exhibited in Clegna... i.e. skulls or round hills’ (1869, 1875, 1913: ii, 428). Tá an focal *cloigeann* coitianta go leor i measc logainmneacha na hÉireann; tá An Cloigeann i nGaillimh (*BLÉ* 1165800) agus i gCo. Liatroma (*BLÉ* 29595) agus féach *cloigeann* ina cháilitheoir i gCeathrú an Chloiginn (*BLÉ* 37362) i Maigh Eo.

Léiríonn na foirmeacha luatha (1-12, 15) áfach, go bhfuil cúpla féidearthacht eile i gcás ciall an logainm seo. Is féidir go bhfuil *cloigeann* móide an iarmhír

chnuasaigh *-ach* in úsáid anseo mar atá aitheanta im Clegnagh i gCo. Aontroma (Mac Gabhann, 1997: 57) agus in Clagnagh (BLÉ 36053) Co. Mhaigh Eo sa chiall ‘áit le cnocáin chorra’. D’fhéadfadh freisin (bunaithe ar fhoirmeacha 4, 5, 7) gurb é an focal *clog* ‘o, m. bell, bell-shaped’ (DIL sv. *cloc*) móide an iarmhír *-ar* móide an iarmhír chnuasaigh *-(a)nach* atá ann, bunaithe ar fhoirmeacha 1, 4 agus 15, áit go bhféadfadh an chiall ‘cnoc cruinn’ a bheith ag an bhfocal sin (Féach Joyce, 1869, 1875, 1913: ii, 17). Féach bailte fearainn Cloggarnagh (BLÉ 43434) agus Bellmount or Cloggernagh (BLÉ 43804) i Ros Comáin.

Pé scéal é, tá na bríonna éagsúla ar fad an-ghar dá chéile agus maítear in Ó Maolfabhail (1987: 80) gurb ‘é is dóichí go gciallaíonn *cloigeann* agus *cloigneach* áit ard mhaolcharraigeach’. Ní fheileann an bhrí seo go díreach le bf Clegna ach tá an bf timpeallaithe ag droimníní aonaracha atá c. 20m níos airde ná an talamh sa cheantar máguaird. An féidir gurb iad seo na ‘cloigne’ atá i gceist?

1834	10. Ardeash and Teverough	<i>Tithe App.</i>	§87
1834	11. Shemohill and Tivorevagh	<i>Tithe App.</i>	§87

Is deacair a bheith cinnte faoi shuíomh na háite seo ach liostaítear é le bailte fearainn Carrownagashel, Rusheen, Ardeash agus Knockaculleen or Hollymount i gcónaí, rud a thugann le fios go bhfuil sé i ndeisceart Cloonaghbaun nó in iarthar Knockaculleen or Hollymount. Is dócha gurb é an focal *taobh* ‘o, m., later also ā, f. and u, m. side in concrete sense. Opposed to; direction, part, region’ (*DIL* sv. *taeb* I (a) II (b))’ nó ‘a side, a flank; direction, quarter, region’ (*Dinneen*) atá anseo, cáilithe ag an bhfocal *riabhach* ‘o,ā. of an indefinite dusky hue, swarthy (of animals), brindled; the orig. sense is prob. streaked, striped’ (*DIL* sv. *riabach*) agus ‘streaked, striped; brindled; (speckled) grey; dun, drab’ (*Ó Dónaill* sv. *2riabhach*). De réir Joyce: ‘The shades of colour designated by this word must have been usual in the surface of the land, for it is very general in local names; and it is commonly anglicised in the forms of *reagh*, *rea*, and *revagh*’ (1869, 1875, 1913: ii, 283). Féach an focal *taobh* móide focail a chuireann síos ar an gcineál talún atá ann in Taobh Garbhach (*BLÉ* 14956) i nDún na nGall agus an mhionghné *An Taobh Riabhach* (*BLÉ* 1399908) i gCo. Mhaigh Eo agus samplaí den eilimint *riabhach* in An Cheathrú Riabhach i Maigh Eo (*BLÉ* 34672); i Ros Comáin (*BLÉ* 43529) agus i nGaillimh (*BLÉ* 21527).

Bheadh foirmeacha 1 agus 3 ag tarraingt ar a chéile ach léiríonn siad an focal *cluain* ‘meadow, pasture-land, glade’ (*DIL* sv. *clúain*) a bheith ina mhír dheiridh in ainm an rannáin seo. Is féidir mar sin, áfach, gur uimhir iolra den fhocal *cluain* atá againn rud a thabharfadh *Cluainte Riabhach .i. ‘grey/striped pastures’ dúinn. Féach Cluainte Casta (*BLÉ* 40795) i Muineachán agus Cloontamore (*BLÉ* 33309) sa Longfort.

Tá dhá ráth suite ar dhroimín san iarthar agus tá imfhálú i lár an bhaile fearainn cois abhann. Talamh portaigh atá in iarthar an bhaile fearainn don chuid is mó.

Is féidir go bhfuil an chéad mhír *cluain* cáilithe anseo ag leagan díspeagtha den fhocal *gréach* 'a mountain flat, a level moory place' (Joyce, 1869, 1875, 1913:

De réir Joyce: ‘It is very common as an element in the counties of Cavan, Leitrim, Roscommon, Monaghan, and Fermanagh’ (1869, 1875, 1913: ii, 393) agus tá na samplaí eile den fhocal seo sa bharúntacht i gceantair shléibhtiúla ar fad, iad go léir i bparóiste Chill Rónáin seachas ceann amháin eile in bh Grevisk sa pharóiste seo. Ní dócha gurb é an sloinne *Ó Gréacháin* “‘des. of Créachán’ (dim. of créach, blind)” (Woulfe, 1923: 545) atá ann, mar atá molta i bhfoirmeacha 17 agus 20 thuas, toisc nach bhfuil aon rian den *Uí* teastaithe. Bhí an sloinne *Ó Gréacháin* coitianta i Maigh Eo, Ros Comáin, Gaillimh agus san Iarmhí (*Griffiths Valuation 1847-64*).

Contains [85] statute acres of which about 7 are bog... Farms from 4 to 12 Irish acres. Soil; light sandy clay. Produce; light crops of oats, potatoes and flax' (AL).

An t-ainmfhocal *corr* 'projecting point, edge; rounded hill, rounded hump' (Ó Dónaill sv. 1-2*corr*) atá sa chéad mhír anseo, cáilithe ag an bhfocal *trasna* '[? -ae io, n.] the cross-beam of a cross; width, breadth (as opp. to length)' (DIL sv. *tarsna* I) agus 'across, over, crosswise, diagonally' (Dinneen). An féidir an chiall 'corr leathan' a bheith leis an ainm seo? Ach féach a bhfuil ag Joyce: '*Tarsna* signifies across, i.e. it is applied to anything having a transverse position with respect to something else' (1869, 1875, 1913: ii, 446). I gcás bf Cortrasna, trasnaíonn dhá bhóthar an taobh thoir den mhullach (G 870 078). Síneann ceann de na bóithre as sin go dtí Cill Mhic Treana i Sligeach agus leanann an bóthar eile ar aghaidh go dtí Béal Átha Fearnáin i bparóiste Chill Rónáin. Soláthraíonn an DIL ábhar eile maidir le nathanna dobhriathartha: 'across, from side to side, diametrically; crosswise, oblique, crooked' (DIL sv. *tarsna* II (a)(b)). De réir Uí Mhaolfhabhail: 'ní léir brí *tarsna/trasna* i logainmneacha' (1990: 54). In ainneoin seo, soláthraíonn McKay míniú féideartha eile ar an eilimint i gcás Derrytrasna in Ard Mhacha, áit go ndeirtear: "'transverse oak-wood'. The townland may be so named because it stretches across from the Upper Bann to the shore of Lough Neagh" (2007: 56).

‘At the North side of the Parish. Bounded on the North by the townland of Derryhirk; East by Cartron; South by Cleen and West by Mountprospect and Curtrasna... Contains [203] statute acres of which about 3 are bog, and 14 rough pasture... Soil: light sandy yellow clay. Produce. Light crops of oats, potatoes, and flax. Three forts’ (*AL*). Tá ráth (*NMS RO003-051*), caiseal (*NMS RO003-050*) agus créfort (*NMS RO003-049*) sa bhaile fearainn seo.

Is é an focal *cros* ‘ā, f. (Lat. *crux*) Of various cross-shaped objects, cross-roads, transept’ (*DIL* sv. *cros* (c)) agus ‘a cross; a cross-road; a market place’ (*Dinneen*) atá mar eilimint tosaigh san ainm seo.¹⁹⁰ De réir Uí Dhonnabháin agus Uí Chonalláin i 24 agus 28 faoi seach, is é an tuiseal gin. uatha den fhocal *áth* ‘u, m. ford; In transfd. sense of open space or hollow between two objects’ (*DIL* sv. *ath*) agus ‘a ford’ (*Dinneen*) a bhí sa dara mír. Bheadh *Cros an Átha mar leagan féideartha agus léiríonn na foirmeacha áitiúla (29-32) go bhfuil | a: | ag deireadh an fhocail, a thacaíonn leis an bhfocal *áth* a bheith i gceist. De réir Joyce:

‘The word Cross itself is the name of about thirty townlands, and it forms the first syllable of about 150 others... Some of these places probably took their names from cross-roads, and in others the word is used adjectively, to signify a transverse position, but these are exceptions, and the greater number commemorate the erection of crosses’ (Joyce, 1869, 1875, 1913).

¹⁹⁰ De réir Uí Chonalláin: ‘*Crois an Átha... and oldest inhabitants* [timpeall na bliana 1910, is cosúil] had a strong *ish* in *Crois* ending. *J’O D.* gave the literary word *Cros*. It happens as i said above to be the locative or dative case of *cros* that was in use’ (*BLÉ* 42859).

Tá crosbhóthar tábhachtach i lár an bhaile fearainn ar an mbóthar idir Cill Mhic Treana agus Cnoc an Bhiocáire agus idir Béal Átha Fearnáin agus Cnoc an Bhiocáire. Tá an crosbhóthar suite ar thaobh mullaigh ach tá *áth* suite píosa uaidh in oirthear an bhaile fearainn (G 881 079) agus tá ceann eile in bf Cartron (G 886 076) atá buailte leis.

Tugtar le fios ar chártaí an *BLÉ* i nóta le hAlan Mac an Bhaire go raibh *cros* cáilithe ag an bhfocal *snádadh* ‘protects, convoys. In Laws usually of giving safe conduct as far as the border of another `túath’ (*DIL* sv. *snáidid*) agus ‘protecting (*early*), potection’ (*Dinneen*). Déantar forbairt an ainm a léiriú mar seo a leanas ar an gcárta: *Cros/na* < *Cros/sná* < *Cros snáidh* (= *snádhaidh* > *snádhadh* = *cosaint*) (*BLÉ* 42859).

Léiríonn iontrálacha an *BSD* go raibh achar c. 388 acra plandála a bhí tairbheach i gCrossna (as 629 acra plandála san iomlán) agus aithnítear sé rannán a bheith laistigh den bhaile fearainn. Is iad *Tawnedrissoge*, *Mogher*, *Derrydoray*, *Aghalature*, *Derrobroane* agus *Derrevoge* na rannáin sin mar atá sa *BSD*. Má aistrítear an 629 acra plandála go hacraí gallda bhíodh c. 1019 acra gallda in Crossna sa 17ú haois, cé nach bhfuil ann inniu ach 203 acra. 'Detached part of Ardcarne Parish and is bounded on the North by Derrygra Townland; East by Carrageen and Loughnaseer; South by Clayheen and West by Drumsillagh' (*AL*). Tá 197 acra d'achar ag an mbaile fearainn seo agus talamh

portaigh atá san fhorhmór. Tá dhá ráth in iarthar an bh suite ar dhroimín íseal c. 50m ar airde.

Tá foirm dhíspeagtha an fhocail *doire* ‘io, probably neuter; an oak-wood; a grove, thicket’ (*DIL* sv. *daire* I, II) nó ‘an oak grove, a wood, a thicket’ (*Dinneen*) mar chéad mhír anseo ach is deacair an dara mír a rianú cheal fianaise breise. Is cosúil gur mheas Connellan (foirm 8) gurbh é an focal baininsneach *máine* ‘f. (= Lat. *mania*) mania, infatuation, madness’ (*DIL* sv. *máinia*) nó ainm pearsanta *Máine* a bhí anseo agus tacaíonn foirmeacha 2 agus 6 le *m* a bheith mar chonsan tosaigh sa dara mír. Is féidir freisin gurbh é an focal *manach* ‘o, m., (Lat. *monachus*) a monk’ (*DIL* sv. *manach(a)*) agus ‘a monk, a tenant of ecclesiastical lands’ (*Dinneen*) mar atá i Derrywanna in p. Chill Bhraoin sa bharúntacht seo. Is mó seans áfach, gurbh é *eanach* ‘o, s, n., later m. moor, swamp, bog, fen; a narrow way or passage’ (*DIL* sv. *enach* I(a)(b)) nó ‘marsh, swamp, fen’ (*Ó Dónaill*) atá mar cháilitheoir anseo bunaithe ar a bhfuil léiríthe thuas i bhfoirmeacha 3, 7 agus 9. Féach Cluain Eanaigh (*BLÉ* 46485) agus Coill Eanaigh (*BLÉ* 46774) i dTiobraid Árann.

Faightear an t-iar-rannán *Derreencaska* in oirthear an bh seo c. G 934 034 ar léarscáileanna *JM RC*. De réir dealraimh, *doirín* móide an focal *Cáisc* ‘(Lat. *pascha*). `Like Lat. *pascha* treated partly as neut. pl., partly as fem. Pasch, Easter, paschal feast’ (*DIL* sv. *cáisc*) atá anseo. ‘In many parts of Ireland the young people used to meet on Easter Sunday or Easter Monday and amuse themselves with various sports and pastimes... We find these meetings sometimes commemorated by the word *cáisc*’ (Joyce, 1869, 1875, 1913: ii, 467). Contains [163] statute acres of which about 79 are bog... Soil: cold, sandy clay. Produces bad crops of oats potatoes and flax. Farms from 4 to 6 Irish acres' (AL). Tá trí droimnín c. 70m ar airde suite i dtuaisceart an bhaile fearainn seo ach talamh portaigh atá san oirdheisceart.

Mheas Ó Donnabháin go raibh *doirín* cáilithe sa chás seo ag leagan den fhocal bain. *dumhach* 'ā,f. sand-bank, but also used like *duma* for bank or mound in general' (DIL sv. *dumach*) agus 'sand-hill, dune' (Ó Dónaill). Is dócha gur fhoirm den tuiseal tabh. atá in *dumhaigh* agus tá an fhoirm seo liostaithe ag Ó Dónaill mar leagan malartach ar an bhfocal *dumhach*. D'fhorbair an eilimint seo i dtosach is léir, ón bhfocal *dumha* 'mound, tumulus, barrow; By extension heap, pile in general' (DIL sv. *duma*). Tá an focal *dumhaigh* le fáil go neamhspleách in *An Dumhaigh* (BLÉ 14816) i nDún na nGall; mar chéad mhír i *Dumhaigh Ithir* (BLÉ 18260) i nGaillimh ach is minic don mhír seo a bheith ar an gcósta agus de réir Joyce: '*Dumhach* is used on some parts of the coast to signify a sandbank; but it is very difficult to separate the word from *dumha*, a grave, mound, and from other terms approaching it in sound' (1869, 1875, 1913: ii, 387). Is féidir mar sin, go dtagraíonn an focal don trí dhroimnín atá sa bhf seo toisc nach bhfuil aon tulach nó feart saorga suite sa bhaile fearainn.

An méid sin ráite, níl na míreanna *dumhach/dumhaigh* coitianta sa taobh seo tíre agus níl ach trí shampla measta eile atá suite in aice a chéile in iarthar na barúntachta .i. Knockadoo, Knockadoobrusna agus Killerdoo i bparóiste Mhainistir na Búille. Bunaithe ar dháileadh na míre *doirín* sa bharúntacht seo, is cosúil go dtagraíonn an mhír *doirín* do dhroimnín go háirithe ar an taobh thoirthuaidh

d'abhainn na Búille áit a bhfuil droimníní agus an focal *doirín* le fáil go flúirseach in aice lena chéile.¹⁹⁸

Is féidir mar sin, gurb é an focal *dubh* móide iarmhír áitreabhach/chnuasaigh *-ach* ‘ink; blackness’ (*Dinneen* sv. *dubhach*) atá ina cháilitheoir anseo, rud a thabharfadh **Doirín an Dúigh* (< *Dubhaigh*) ‘little oak-wood of the black colouring substance’ dúinn? Féach freisin ‘o.m. vn. of *dubaid*. growing dark, turning black (lit. and fig.); With trans. force, making or turning black, blackening’ (*DIL* sv. *dubad*). De réir Joyce: ‘At the bottom of some dep bogs there is found a half liquid stuff... which was formerly used... for dyeing black... Many of the places where this dye stuff was found are still indicated by their names’ (1869, 1875, 1913: ii, 270). Is cosúil gurb é an focal *doire* ‘io, probably neuter; an oak-wood; a grove, thicket’ (*DIL* sv. *daire* I, II) atá cáilithe anseo ag leagan gin. den fhocal *muileann* ‘o, m., (Lat. *molīna*). A mill (usually one for grinding corn, worked by a stream)’ (*DIL* sv. *muilend*). Is minic go n-athraíonn an *m* go *w* i leaganacha béarlaithe nuair atá an focal *muileann* ina cháilitheoir de thoradh an tséimhithe ar an gconsan tosaigh (Joyce, 1869, 1875, 1913: i, 376). Mheas Ó Donnabháin (foirm 6) gurb é an focal *adhan .i. *oigheann* ‘m. aighen (oighean, v.l.) m. cooking-vessel, pan’ (DIL sv. *laigen*) nó ‘a pan, boiler, a cauldron made of iron, brass or copper; a river source; cf. *Moing an Oighinn*, the source of the Blackwater’ (Dinneen sv. *oigheann*) a bhí sa dara mír anseo. Níl an bhrí ‘a river source’ don fhocal *oigheann* luaite sa DIL ach éiríonn sruthán in oirdheisceart Derreenine. Chomh maith leis seo, tagann an topagrafaíocht in oirdheisceart Derreenine ó dheas de *Derreenine Bridge* leis an gciall ‘a cauldron’ mar a bhí molta ag Ó Donnabháin. Féach Eidhean (BLÉ 31292) i gCo. Tá muintir Uí Scingín luaite le paróiste Ard Carna sa 13ú haois agus iad ina n-airchinnigh ar thailte Ard Carna²⁰⁷ agus déantar tagairt díobh arís in AD 1426 agus in AD 1446 in *Ann.Elph.*²⁰⁸ Tá cuma thruaillithe ar fhoirmeacha 2-5 ach bunaithe ar an ainm malartach a léirítear iontu, is féidir go raibh **Srath na Scingín* .i. *srath* ‘valley, bottom, meadow or grassy place near a river’ (*DIL* sv. *srath*(b)) mar ainm malartach ar an mbf seo, rud a d’fheileadh do thopagrafaíocht an bhaile fearainn seo atá suite cois abhann agus timpeallaithe ag dobharlaigh/ceantair dhobhartha.

²⁰⁹ Bhí cúpla tuairim eile luaithe ag Tonra: ‘It could be Dubh-Dhoire meaning the black wood. Father M. O’Flanagan in his history of the county calls it Dubhcharaid, whereas Bishop Tireacháin’s account of St. Patrick’s journey calls it Dumha Grad or Dumha Garad, the mound of a man called Garad’ (the aspiration of the final d would give us Dumha Garaidh which is pretty close to present-day pronunciation). Part of townland in vicinity of Tom and Noreen McDermott’s house has a name of its own, Cloonshanaghy from the Irish Cluain Seanchaí ‘the cluain of the storyteller’, or simpler still ‘the cluain with the old house’ (2001: 23-24).

Tá dhá dhroimín sa bhaile fearainn seo, ceann 74m ar airde ina lár agus ceann eile c. 60m ar airde sa deisceart.

Is é an focal *droim* ‘ridge, usually of elevated ground; hill’ (*DIL* sv. *druim(m)* III) nó ‘a back, a ridge’ (*Dinneen* sv. *drom*) atá sa chéad mhír anseo. Is féidir gur tuiséal gin. ar *broc* ‘o, m. *broc* m. badger’ (*DIL* sv. *brocc*) atá sa dara mír mar atá le fáil in Achadh an Bhroic (*BLÉ* 40470) i Muineachán agus in Derrybrick sa Chabhán (*BLÉ* 5240). Ní dócha gurb é tuiséal gin. ar *breac* ‘o, m. subst. use of 1 *brecc*, lit. speckled one, a small fish, usu. translated trout’ (*DIL* sv. *2brecc*) atá anseo in ainneoin go bhfuil *Drumdoe Lough* suite in iardheisceart an bh. Ní dócha go bhfuil *droim* cáilithe ag an ainm pearsanta *Breac* ‘freckled, speckled’ (Ó Corráin agus Maguire, 1990) (féach f. luatha) mar a mheastar a bheith i gceist in Ballybrick < Baile Mhic Giolla Bhric i gCo. an Dúin (Muhr, 1996: 156) agus Drumbrick (*BLÉ* 28951) i gCo. Dá mbeadh leagan ginideach den aid. *breac* ‘o, ā speckled, spotted; variegated; patterned, ornamented’ (*DIL* sv. *1brecc*) i gceist anseo, bheifí ag súil le ‘-brack’ mar leagan béarlaithe na heiliminte ach ní léirítear ‘-brack’ ach i <25% de na samplaí thuas. ²²⁰ Féach: ‘Although this townland is usually pronounced ‘Errone’, sources going back two hundred years at least, always have an extra syllable, ‘ir’. This townland has an unusual shape. It has a frontage on the Boyle River opposite the Shannon-erne marina and another on Lough Key itself opposite the marine in Kilfaughna. It is perhaps this latter frontage that gives us a clue to the meaning of the name. Oirear means ‘a lake-front’ and so *Oirear Ona* would mean ‘Ona’s lake-front’ (there is another place in Co. Roscommon called after Ona, i.e. Imleach Ona near Elphin). But it is better, I think, to derive it from Oirear Mhóna, i.e. the lake-front consisting of peat’ (Tonra, 2001: 25).

Is dócha gurb é Bullock Island atá i gceist le *Inchymore* bunaithe ar mhéid na n-acraí tairbheacha atá luaite sa *BSD* agus aithníodh *Inchymore* mar chuid de *Drumcormuck pasture* san fhoinsé chéanna. ‘On the East side of the Parish. Bounded on the North by the townland of Culmore; East by Cloonybryan; South by Cloonybryan and Oakport Demesne; and West by Oakport Demesne’ (*AL*). Tá 32 acra sa bhaile fearainn seo ar *LSOI* atá suite ar an taobh ó thuaidh den bhóthar idir Ard Carna agus baile Uachtar Thíre.

Tá an t-ainmfhocal *cnoc* ‘o, m. hill, mound’ (*DIL* sv. *cnocc(b)*) nó ‘a hill, a height, a mountain’ (*Dinneen*) cáilithe i gcás an logainm seo ag *rua* ‘o,ā.; lit. red, of a brownish or dark red... Freq. as sobriquet = red-haired, and in place-names’ (*DIL* sv. *riúad(a)*). Tá 68 bf darb ainm Knockroe in Éirinn agus tá cúig cinn díobh le fáil i gContae Ros Comáin, iad go léir sách gar dá chéile i mbarúntacht Mhainistir na Búille agus an Chaisleáin Riabhaigh. Tá na samplaí ar fad i Ros Comáin níos lú ná 5km ó thalamh portaigh agus d’fhéadfadh mar sin gur ag tagairt do dhath na hithreach atá an cáilitheoir *rua* sna cásanna seo. Tá cnocán c.70m ar airde suite i ndeisceart an bhaile fearainn in aice leis an mbóthar ag G 884 027. Is féidir áfach gurb é an cnocán atá in bf Oakport Demesne atá luaite san ainm seo, áit a bhfuil talamh portaigh ó thuaidh den chnocán ag c. G 875 031.

Tagraítear do dhroichead a bheith anseo in *ARÉ* i 1595 ach is droichead ón 19ú haois atá ann inniu (Moore, le foilsíú). Tá dhá chréfort ann freisin, ceann i dtuaisceart an bhfeiceann agus ceann eile san oirthear agus meastar go raibh teach rialta de chuid na bProinsiasach suite ar bharr an chnoic ag G 870 055 go

Is léir gur ainm cumtha atá i Lyonstown a tháinig i chun cinn ar **Cloonboygher* go déanach san 18ú haois nó go luath sa 19ú haois. Tá Thady Lyons luaite le *Cloonbigher* i 1725 (foirm 23) agus Robert Lyons *Esq.* luaite le *Lyonstown* i 1834 (foirm 27). Ainm cumtha atá anseo is léir agus luaitear Mr. Thomas Barlow leis an áit i 1834 (foirm 3 thuas). Ní thagann an t-ainm Béarla Mountprospect chun cinn go dtí an 19ú haois ach bunaithe ar líon na n-acraí atá luaite le *Aghalature* sa *BSD*, is féidir gurb ionann *Aghalature* agus Mountprospect. Bhí c. 94 acra in *Aghalature* má aistrítear méid na n-acraí luaite leis sa *BSD* agus tá 99 in Mountprospect.

Tá an chosúlacht ar fhoirm 1 thuas gurb é *achadh* ‘field’ (*Ó Dónaill*) atá sa chéad mhír agus an réimír *leath-* móide an focal *tuar* ‘a cultivated field, tilled land’ (*DIL* sv. *2tuar* (c)) nó ‘bleaching green’ (*Ó Dónaill* sv. *3tuar*) atá ina cháilitheoirí. Is minic do na bríonna *paddock*, (*cultivated*) *field*, *pasture*’ a bheith i gceist leis an eilimint *tuar* i logainmneacha na hÉireann (*BLÉ* Glossary). ‘At the East side of the Parish. Bounded on the North by the Boyle River. East by the townlands of Knockroe and Cloonybryan; South by Ardcarney; and West by Ballyarden, Turlough, Erreronagh and Derryshinen’ (*AL*). Tá 587 acra sa bhaile fearainn seo agus áirítear raon leathan séadchomharthaí ann. Tá dhá ráth, caiseal amháin, suíomh botháin, láthair eaglasta agus reilig *Killidean*, agus dhá chrannóg in *Oakport Lough*.²³³ Léirítear na mionainmneacha seo a leanas ar *LSO2* sa diméin: *Oakport House, Drumoolagh Hill, The Grove, Bog Plantation, Limekiln Wood, Lady’s Plantation, Deer Park, Littleport Wood, Laundry Lough* agus *Brickeen*.

Is é an focal *port* ‘o,m. (Lat. *portus*) a place, spot, locality, gen. of a restricted area; a bank, shore (of river or sea)’ (*DIL* sv. *1port* (a)(c)) agus ‘a bank, earthwork or platform, a shore, a port, a harbour’ (*Dinneen*) atá sa chéad mhír anseo. De réir

²³³ Dar le *Áit.-JaOD* tugtar *O’Brien’s Lake* ar *Oakport Lough* freisin.

Flanagan agus Flanagan: “The fact that it basically means ‘platform’ or ‘bank’ explains why it should be both ‘port’ and ‘fort’” (2002: 130). Tá *port* cáilithe ag an aidiacht *daireach* ‘o-ā. Oaken, Abounding in oaks, Bushy, clustering’ (*DIL* sv. *dairech* I-III) nó ‘planted with oaks; full of oaks’ (*Ó Dónaill*).

D’fhéadfadh an focal *cill* ‘church; churchyard; cell’ (*Ó Dónaill*) a bheith cáilithe anseo ag an ainm pearsanta **Ethian*. De réir Kelly, bhí baint ag Naomh **Ethian* leis an áit seo sa 5ú hAois (1879c: 582). Níor thángthas ar a leithéid d’ainm sa naomhseanchas ná i *Leabhar Mór na nGenealach*.

Tá an t-oileán seo suite 200m amach ó bhruach an locha i Rockingham Demesne ar Loch Cé. Tá c. 7 acra luaite leis an oileán ar *LSO1* agus is dócha go raibh cuid mhór den oileán seo faoi chrainn, rud atá tugtha le fios san ainm reatha ar an oileán

Orchard Island. Tá ganntanas fianaise don oileán seo ach is féidir gurb í seo an áit atá ainmnithe mar *Crenackmore pasture* ar Loch Cé sa *BSD*. Tá na háiteanna eile atá luaite in aice le *Crenackmore* suite laistigh de bhf Rockingham Demesne anois. Ní miste achar an oileáin a chur san áireamh freisin, áit a bhfuil 2 acra plandála tairbheach (c. 3 acra gallda) luaite leis sa *BSD* agus an chuid eile faoi chrainn b'fhéidir? Is cosúil go bhfuil an chéad chonsan i *Crenackmore* caol agus mar sin ní dócha gurb é *crann* + iarmhír áitreabhach *-ach* 'ā, f. atá teastaithe den fhocal *ráth* in ainmneacha bhailte fearainn na barúntachta toisc go mbaintear leas as na téarmaí *caiseal* nó *lios* go hiondúil. Tacaíonn léarscáil O'Connor leis an dáileadh seo agus tá an líon is mó samplaí i gCúige Laighean, i Mumhain agus ansin le 15% i gConnachta agus 8% in Ulaidh (2001: 130). Tá dhá chiall faoi leith ag an ainmfhocal *ros* ach is deacair uaireanta an chiall a chinntiú i gcásanna áirithe. Nuair atá *ros* le fáil ar an gcósta (m.sh. Níor gá ach an oiread go mbeadh an dá chiall ag teacht salach ar a chéile mar is minic a bhíonn coillearnach ag fás ar rinn tíre i gceantair phortaigh nó cois locha. Is fearr glacadh le brí Uí Dhónaill ‘wood, wooded headland; headland, promontory’ (*Ó Dónaill* sv. *2ros*).

Tá c. 4 acra d'achar ag an oileán seo ar *LSO1*. Níl aon tagairt don oileán san Ainmleabhar ach is dócha gurb é seo an t-oileán darb ainm *Inchanegro* atá aitheanta mar chuid de *Cloontykilla* (iar-rannán talún laistigh de Rockingham Demesne) sa *BSD*. Luadh 2 acra plandála tairbheach leis an oileán sa *BSD* rud a thugann c. 3 acra gallda dúinn sa lá atá inniu ann. Tá Bullock Island (11 acra) ró-mhór agus Garravinch or Lahans Island (2 acra) ró-bheag do mhéid na talún atá luaite sa *BSD*.

Tuiseal tabharthach den fhocal *inis* 'ī,f. In Mid and Mod. Ir. freq. inflected in pl. as dental stem. an island' (*DIL*) atá sa chéad mhír anseo ag brath ar fhoirm an *BSD* thuas. Tá *inse* < *inis* cáilithe is cosúil ag tuiseal gin. iolra an fhocail *crodh* 'o, m. cattle, herds, stock; In wider sense goods, property, wealth' (*DIL* sv. *1crodh*) agus 'cattle, livestock, riches, chattels' (*Dinneen*).

Ní dócha gurb é *cró* 'Orig. prob. *croë* io, m. A term of very wide application, the basic meaning being enclosure, enclosed space, fold, pen; Of animals sty, stall, pen, fold; Of persons hut, cell, prison' (*DIL* sv. *1cró* (a)(b)) agus 'enclosure, fold, fence' (*Dinneen*) atá mar cháilitheoir anseo toisc an *g* atá le sonrú i lár an fhocail i bhfoirm 1 thuas. Leaganacha déanacha is ea *Swallow Island* ó *LSO1* agus *Sally Island* ó *LSO2* agus is cosúil gur míléamh ar an bhfocal *swallow* a bhí is cúis leis an bhfocal *sally* a mholadh ar *LSO2* agus *LSO3*.

Tá trí ráth, créfort, imfhálú agus gallán sa bhaile fearainn seo. Tá dhá dhroimnín sa bhaile fearainn, ceann sa lár agus ceann eile san oirthear. Is cosúil ón méid atá léirithe ar *JM RC* go dtugtaí *Knocknarugh* ar an droimnín oirthearach.

Is foirm chalctha den tuiseal tabharthach atá sa mhír thosaigh *tulach* ‘ā, f. (1 tul). Also with ads. in -ai as in ī- stems in some early exx. Tá an t-ainmfhocal *meall* thar a bheith coitianta i gcontaetha Chorcaí agus Chiarraí ach níl mórán samplaí eile sa tír lasmuigh díobh sin. De réir Joyce: ‘The primary meaning of *meall* is a lump, mass, or heap of anything; and i is applied locally to a small round hillock’ (1869, 1875, 1913: i, 394), ach is deacair an bhrí ‘*hillock of the knoll*’ nó a leithéid a shamhlú toisc gur eilimintí comheisiacha iad ar bhealach.

Is féidir freisin gurb í an aidiacht i léig *meall*- ‘(O.Ir. *meld*) o,ā. pleasant, delightful’ (DIL sv. *3meall*) nó ‘sweet, pleasant’ (Dinneen) atá anseo.

Tá an t-ainmfhocal *corr* ‘tapering, cuspidated, peaked, pointed, jutting out or up, swelling’ (*DIL* sv. 1*corr* II) chun tosaigh anseo agus is féidir go dtagraíonn úsáid na míre seo don droimnín íseal i dtuaisceart an bhaile fearainn. Ní dócha gur don lúb in abhainn na Sionainne a thagraíonn sé. Is é an focal *droichead* ‘bridge’ (*Ó Dónaill*) atá ina cháilitheoir anseo arís. Ní léirítear aon droichead sa bhaile fearainn seo trasna Abhainn Chill Abhaicín ar *LSOI* agus mar sin is dócha gurb é an droichead i gCora Droma Rúisc atá luaite san ainm. ‘At the N. Eastern extremity of the parish. Bounded on the North by the Parish of Tumna and River Shannon; East by the river Shannon; South by the townland of Cordryhead and Killukan and West by Mullaghmore... Soil and crops are good. It is exposed to the Shannon floods which lay a great portion of it under water in winter’ (AL). Tá 183a sa bhaile fearainn seo de réir *LSOI* agus tá cuid de bhaile Chora Droma Rúisc suite i dtuaisceart Cortober. Tá dhá dhroimnín c. 60m ar airde i lár agus in iarthuaisceart an bhaile fearainn seo agus tá toibreacha suite in aice leis an bpéire díobh.

Tá an focal *corr* cáilithe sa chás seo ag an ainmfhocal *tobar* ‘well, spring; source’ (*DIL* sv. *topar* (a)(c)). De réir Joyce tá an focal seo ar an gceann is coitianta i measc logainmneacha na hÉireann a úsáidtear chun cur síos a dhéanamh ar dhabhach nó ar fhuarán uisce (1869, 1875, 1913: i, 450). Ní léir úsáid an ailt sna foirmeacha déanacha (seachas foirmeacha an Ainmleabhair) ach is cinnte go bhfuil guta cúnata lárnach léirithe i bhfoirmeacha 1-9, 11. Is éasca botún idir *r* agus *n* a shamhlú sa chéad mhír i bhfoirm 1 thuas agus ní dócha gurb é an t-alt iolra (*na*) atá léirithe. Tá ocht mbaile fearainn den ainm Cortober sa tír agus tá siad dáilte idir Muineachán (4), An Cabhán (2), Liatroim (1) agus Ros Comáin (1).

‘At the South East side of the Parish. Bounded on the North by the townland of Lodge. East by the Glebe. South by the Parish of Killumod; and West by the townland of Lodge’ (*AL*). Tá 100a sa bhaile fearainn seo atá roinnte idir paróistí Chill Lomad (31 acra) agus Chill Abhaicín (69 acra). Tá trí ráth ann, péire i dtuaisceart an bhaile fearainn agus ceann eile san oirthear. Roinneann Abhainn Chill Abhaicín an baile fearainn ina dhá leath. De réir an *NMS* bhíodh muileann arbhair in oirdheisceart an bhaile fearainn ach is cosúil go raibh an muileann seo (*NMS* RO011-

Ainm déanach atá in Deerpark don bhaile fearainn seo agus tá gach cosúlacht ar an scéal gurb é **Carrownass* bunainm an bhaile fearainn. Déantar an rannán **Carrownass* a lua i dteannta bailte fearainn eile sa cheantar seo sna foinsí thuasluaite agus tá dhá eas léirithe ar Abhainn Chill Abhaicín in oirdheisceart Deerpark ar *LSO2*. Is cosúil mar sin gurb iad na focail *ceathrú* ‘quarter, fourth part... part; district, quarter, name of a measure of land’ (*DIL* sv. *cethramthu(e)*) móide ginideach den fhocal *eas* ‘a cataract, rapid; a rapidly flowing stream’ (*DIL* sv. *3es(s)*) atá mar bhuneilimintí ainm an bhaile fearainn seo. ‘At the East side of the Parish. Bounded on the North by the townlands of Mullaghmore and Curtubber; East by Cordryhead; South by the Parish of Killumod; and townlands Glebe and Lodge; and West by Scregg’ (*AL*). Tá 149a in bf Killukin agus tá caiseal, ráth, reilig agus fothrach séipéil ann. Tá an séipéal liostaithe sa chánachas eaglasta i 1306. De réir D’Alton, bhí séipéal Chill Abhaicín ina bhallóga sa bhliain 1615 ach bhí an bhíocáireacht ag feidhmiú ann in athuir ón mbliain 1633 ar aghaidh (1845: i, 91). Is cosúil gur dúnadh an séipéal arís go déanach sa 18ú haois nó go luath san 19ú haois agus ní léirítear ainm an tséipéil ar *LSO1*.

Láthair eaglasta atá anseo a bhí in úsáid ón 14ú haois ar a laghad go dtí déanach sa 19ú haois. Tá an t-ainmfhocal *cill* ‘Usually transl. church, but in a number of exx. clearly ref. to monastic settlement or foundation, collection of ecclesiastical buildings; churchyard, graveyard’ (*DIL* sv. *cell* (a)(b)) cáilithe anseo ag an ainm pearsanta *Abhac*, a d’fhorbair ón bhfocal céanna den chiall ‘o, m. dwarf.’ (*DIL* sv. *abacc*). Is ainm pearsanta gan urrús ‘*Eibhicín*’ atá molta san Ainmleabhar mar cháilitheoir anseo. Meastar gurb é Cill Lúcainn bunleagan an ainm Killukin atá ina ainm baile fearainn agus paróiste sna Cluainte i mbarúntacht Ros Comáin c.

20km ó dheas den bhaile fearainn seo. Níl aon fhianaise theangeolaíoch a thacaíonn leis an tuairim ag Keenehan (2006: 89) gurb ionann an cáilitheoir agus ainm an naoimh *Luncharia* atá luaite le Killunagher < *Cill Luineachair i bparóiste Annagh, Maigh Eo, i gcás an dá Killukin.

Tá *cnoc* 'a hill, a height, a mountain' (*Dinneen*) cáilithe anseo ag leagan gin. den fhocal *coirthe* 'io, m. Also *ca-*. rock; pillar, standing stone' (*DIL* sv. 1*coirthe*) agus 'a stone, esp. a memorial stone; al. *cairthe, cáirthe*' (*Dinneen*). Is léir go dtagraíonn úsáid na míre *cnoc* don chnocán ag M 892 983 agus tá an gallán suite ar fhána thiar an chnocáin. Tá sampla eile den eilimint *coirthe* le fáil sa bharúntacht seo san ainm baile fearainn Aghacarra i bparóiste Mhainistir na Búille.

Is cosúil ó 1-3 thuas gurb é *Lia Fada* bunainm an ghalláin atá suite ag M 890 983. *Lia* 'gs. *liacc*... Stone; Standing stone, pillar-stone, usually of a memorial stone' (*DIL* sv. 1*lí* (b)) nó 'stone, pillar-stone' (*Ó Dónaill*) móide an aidiacht *fada* 'Long, of space or distance' (*DIL* sv. *fota* (a)) a fhreagraíonn go maith do chruth an ghalláin seo. Tugtar *Clogh Con* ar an ngallán in Weld (1832: 286) agus *Clocthrom* air san Ainmleabhar i 1837. De réir Connellan agus é ag déanamh cur síos ar an ngallán seo:

'The *Lia fada* leans towards the north. Above ground it is nine feet nine inches in length, two feet wide, and one foot six inches deep. It may weigh about two tons. A typical folk-tale recounts how Fionn Mac Cumhaill tossed the stone from a point about seven miles away in Co. Leitrim to land and impale itself into the ground at this point. An impression of the four fingers and thumb of the giant remains on the stone... It is generally thought that pillar stones, such as the *Lia fada*, served religious purposes, and were *foci* of pagan adorations. The stone may well have a history of nearly two thousand years' (1963: 197-8).

fearainn agus tá an chuid sin den bhaile fearainn faoi chrainn anois. Talamh feirme atá sa chuid eile de Lugnashammer agus léiríonn an *NMS* feart (*NMS* RO010-043) in iarthar an bhaile fearainn ag M 853 968. Tá 365 acra luaite leis an rannán seo sa *BSD* agus is cinnte go raibh an baile fearainn seo dhá oiread níos mó ar a laghad sa 17ú haois.

Teastaítear trí ainm mhalartacha don bhaile fearainn seo sa *BSD* (8) thuas agus cé go bhfuil achar sách beag ag an mbaile fearainn inniu, is féidir go raibh píosa oirthearach de Croghan mar chuid den bhaile fearainn tráth. Is é Lugnashammer ainm an lae inniu ar an mbaile fearainn, áit a bhfuil na focail *log* ‘hollow, pit, ditch; burial place, grave’ (*DIL* sv. *1loc* II) móide gin. iolra den fhocal *seamair* ‘ā,f. clover, shamrock’ (*DIL* sv. *semar*) mar cháilitheoir againn. Féach samplaí den fhocal *seamair* in ainmneacha bailte fearainn in An Seamar Bán (*BLÉ* 36652) agus An Seamar Dubh (*BLÉ* 36653) i Maigh Eo agus Knocknashammer < *Cnoc na Seamar (*BLÉ* 4524) sa Chabhán.

Is é **Ardaghloske* an t-ainm is sine atá teastaithe don áit sna foinsí a cíoradh agus is é an réimír aidiachtach *ard* ‘high, tall’ (*Ó Dónaill*) móide an t-ainmfhocal *achadh* ‘expanse of ground; pasture, field’ (*DIL* sv. *achad*) móide an aidiacht bhriathartha *loiscthe* ‘burnt, scorched, parched’ (*Dinneen*) atá ann. Déantar *Ardagh* nó *Ardaghy* den chomhfhocal *ard-achadh* ‘high field’ go hiondúil i logainmneacha na hÉireann (Joyce, 1869, 1875, 1913: i, 233; Ó Maolfabhail, 1990: 3). Tá an focal *loiscthe* le fáil minic go leor i measc ainmneacha na hÉireann sa chiall ‘Land burnt in any way, whether by accident or design for agricultural purposes’ (Joyce, 1869, 1875, 1913: i, 238) agus d’fhéadfadh cinnte gurb í sin an chiall atá i gceist sa chás seo. Féach Achadh Loiscthe/Aghalusk (*BLÉ* 42204) i gCo. Uíbh Fhailí agus Cnoc Bhoth Loiscthe (*BLÉ* 39742) i gCo. Mhuineacháin.

Cé is moite d’fhoirm amhrasach 4 thuas, is cosúil gurb iad na heilimintí *lios* ‘ móide an sloinne *Mac Giollabhuidhe* ‘son of *Giolla búidhe* (yellow lad)’ (Woulfe, 1923: 368) atá léirithe i bhfoirmeacha 8 agus 10 thuas ach ní thángthas ar aon sampla eile den ainm seo sna foinsí a cíoradh. Níl aon *lios/ráth* in bf Lugnashammer an lae inniu ach is féidir go dtagraíonn an fhoirm seo don ráth atá suite ó dheas den bhaile fearainn seo in oirthear bf Croghan ag M 859 962.

Tá an t-ainm seo teastaithe arís agus arís eile i dteannta áiteanna eile sa cheantar seo ach ní féidir súfómh an rannáin nó na mionghné a dheimhniú. Tá an caiseal is gaire don bhaile fearainn seo suite c. 800m soir ó thuaidh de Lugnashammer in bf Faus. Aithnítear an baile fearainn seo agus Toormore faoin ainm *Boher*.

Ainm thar a bheith spéisiúil atá anseo agus ní féidir bunbhrí an ainm a chinntiú gan tuilleadh fhianaise luath a fháil. Maidir leis an gcéad mhír anseo, tá an t-athrú *m < b* agus a mhalairt teastaithe go rialta i gCo. Mhaigh Eo i measc buneilimintí áirithe, agus is féidir sa chás seo go n-eascraíonn an *m-* tosaigh thuas ón tuiséal tabharthach .i. “i mB-” (Ó hAisibéil, 2013a). An féidir mar sin, an eilimint *bac* a mholadh mar mhír thosaigh anseo? Tá roinnt bríonna éagsúla ag an bhfocal seo ach tá ‘o, n. and m. angle, bend, corner; (an enclosed) corner or angle of a field’ (*DIL* sv. *1bacc* (a)(b)) agus ‘river bend’ (McKay, 2007: 52). Maidir leis an gcáilitheoir, is léir gur ainmfhocal baininscneach atá ann (mar gheall ar an alt láir atá le sonrú i bhformhór na bhfoirmeacha), agus is féidir gur leagan malartach den fhocal *díle* ‘n.f. torrential rain, wet weather; flood, torrent’ (*DIL* sv. *díliu* (b)(d)) nó ‘flood, deluge’ (*Ó Dónaill*) atá ann. Tá an leagan malartach ginidigh den fhocal seo .i. *díle* seachas *díleann* teastaithe sa *DIL*. Feileann topagrafaíocht an bhaile fearainn don chiall áirithe seo. Tá lúb shuntasach sa sruthán in iardheisceart an bhaile fearainn seo ag M 878 981, agus tá talamh portaigh ar an taobh thiar den sruthán.

Is dócha nach raibh Ó Donnabháin cinnte faoi bhunús an ainm seo. Féach go bhfuil ‘a nickname’ ráite aige san *AL*. Is léir go raibh Ó Conalláin ag tarraingt ar obair Uí Dhonnabháin i 11 thuas.

I gcás an ainm Toormore, is é an focal *tuar* 'a cultivated field, tilled land' (*DIL* sv. *2túar* (c)), "'field', particularly a dry or well-drained field, with a specialised sense of a 'bleach-green'" (Flanagan agus Flanagan, 2002: 158) atá sa

Maidir le **Boher* is cinnte gurb é an focal *bóthar* ‘a road, a way, an avenue; a journey’ (*Dinneen*). Dar le *Áit.-RMcG* i f. 29 thuas, tugtar **Boher* ar an gceantar ar fad i mbailte fearainn Macnadille agus Toormore. Tagraíonn an t-ainm *Lecarrowencashell* don chaiseal atá suite ag M 886 985 in iarthar an bhaile fearainn seo. Tá *leathcheathrú* .i. *leath* ‘half... side’ (*DIL* sv. *leth*) móide *ceathrú* ‘quarter, fourth part... part; district, quarter, name of a measure of land’ (*DIL* sv. *cethramthu(e)*) cáilithe ag an bhfocal *caiseal* ‘stone wall, rampart; stone fort’ (*DIL* sv. *caisel*). ‘Bounded on the North by the parish of Kilmacrrany [*sic*] (in the County Sligo); East by the parish of Ardcarney; South by the parish of Estersnow and on the West by the parish of Boyle’ (*AL*). Tá 20 baile fearainn i bparóiste Chill Bhraoin agus tá sé suite i lár na barúntachta idir paróistí Ard Carna agus Mhainistir na Búille. Tá deich mbaile fearainn scartha ón gcuid eile den pharóiste agus iad ar an taobh ó thuaidh de Loch Cé. Tá talamh ard (c. 140m) i ndeisceart an pharóiste i mbailte fearainn Carrowmore,

Fawnanierin, Pollower agus Keeloges agus íslíonn sé as sin ó thuaidh go dtí c. 40m os cionn leibhéal na farraige i dtreo an locha. Tá talamh ard arís ar an taobh thuaidh den loch, áit a bhfuil coillearnacha agus crios droimníní le fáil atá ina ngnéithe fisiciúla suntasacha sa taobh seo tíre. Pléitear ainm an pharóiste thíos faoi bhaile fearainn Kilbryan ach ní miste a lua nach bhfuil an láthair eaglasta féin in bf Kilbryan ach in bf Rockingham Demesne. Eanach ‘o, s, n., later m. moor, swamp, bog, fen; a narrow way or passage; a place fit for an ambush’ (*DIL* sv. *enach* I(a)(b)) agus ‘marsh, swamp, fen’ (*Ó Dónaill*) atá sa chéad ainm anseo. Feileann an t-ainm seo do thopagrafaíocht an bhaile fearainn, áit a bhfuil iarthar an bh in aice an locha agus talamh an-íseal ann (idir 40-50m os cionn cothrom na farráige). Tá an t-ainmfhocal seo le fáil mar mhír thosaigh ‘*Annagh-*’ i mbreis ar 200 bhaile fearainn in Éirinn agus faightear mar mhír dheiridh freisin é i c. 70 ainm baile fearainn.

Is léir gurb é an focal *droim* ‘ridge, usually of elevated ground; hill’ (*DIL* sv. *druim(m)* III) nó ‘a back, a ridge’ (*Dinneen* sv. *drom*) atá chun tosaigh san ainm malartach ar an áit: Drumanilra. Tá cnoc in iarthar an bhaile fearainn ag G 831 074 atá 67m ar airde agus d’fhéadfadh gurb é sin an *droim* atá luaite. Is deacair an dara mír a chinntiú mar gheall ar easpa taifid³¹⁰ ach bunaithe ar an gcruth atá ar an leagan Béarla i gcomparáid le hainmneacha cosúla eile sa tír, agus ar thuiscint an Donnabhánaigh, is féidir foirm mhalartach meititéise a bheith i gceist in *iolra* (foirm 5) d’*iolar* ‘eagle’ (*Ó Dónaill*) ‘o, m. Níl ach 35a sa bhaile fearainn seo atá i lár an pharóiste ach bhíodh achar níos mó ag an mbf sular cruthaíodh Rockingham Demesne. 'In the South end of the parish. Bounded on the North by townlands Kilbryan and Ballykevician; East by Radiveen and Pullower; South by townland Fawnaneeran and the Parish of Boyle and on the West by the Parish of Boyle... The whole is a stock farm having the herds house which is the only ones in the townland near the centre. Soil is of the best description. It is part of the plains of Boyle. Three forts' (AL). Tá 164 acra sa bhfeoil seo chomh maith le dhá lios, ráth amháin, dhá chaiseal, uaimh thalún agus créfort. Tá cairéal gníomhach suite i lár an bhaile fearainn ó dheas den iarnród agus den N4 go Sligeach. Bhí an baile fearainn seo mar chuid d'fheirm bhaile phobal Oileán na Tríonóide i dteannta *Drumman's Little*, Kilbryan agus Fawnanierin.

D'fhéadfadh foirm éigin den fhocal *caol* 'o, ā thin, slender, narrow and related meanings in a variety of applications; narrow part of things, bodies; strait, narrow' (DIL sv. *cáel* I, II(d,e)) a bheith mar bhuneilimint anseo. Tá leagan iolra an Bhéarla den fhocal *caológ* 'osier-bed; riverside field, meadow; small channel; small branch of river' (*Ó Dónaill*) léirithe i bhfoirmeacha 1, 9-13, 15, 17-20, 22 thuas, mar atá le fáil in Keeloges (BLÉ 31591) i Luimneach sa chiall '*places of osiers*' ach ní thagann an chiall sin le topagrafaíocht an bhaile fearainn seo. '*Caologaidhe*' bunaithe ar '*narrow ridges*' atá ag an Donnabhánach ach ní fhreagraíonn aon ghné thopagrafach don chiall seo sa cheantar. Tá breis ar 40 shampla den ainm seo i

bhfoirm Keeloges nó Keeloge tríd an tír. Féach go háirithe an t-ainm Keale (*BLÉ* 30997) i Luimnigh áit go dtagraíonn an t-ainm do ghné chaol/chúng éigin (Ó Maolfabhail, 1990: 82). Is dócha gurb í sin an chiall atá anseo.

'In the South centre of the parish. Bounded on the North by Rockingham demesne; East by Ballykevican; South by Keelogue and on the West by the parish of Boyle...All one Farm... Soil good yellow clay... One fort' (AL). Tá 64 acra sa bhaile fearainn seo agus tá ráth amháin sa tuaisceart. Ar an gcuma chéanna le bf Ballykeevican, baineadh c. 70a den bf seo agus Rockingham Demesne á chruthú.³³¹

Dar leis an Donnabhánach, foirm thruaillithe atá san ainm ar '*Kill Mh[oi]rin*' (féach fonóta le foirm 31 thuas) ach léiríonn foirmeacha 1 agus 2 thuas nach amhlaidh atá. An focal *cill* 'ā, f. (Lat. *cella*). In later lang. also with ns. *cill*. (a) Usually transl. church, but in a number of exx. clearly ref. to monastic settlement or foundation, collection of ecclesiastical buildings; (b) churchyard, graveyard' (*DIL* sv. *cell*) agus 'a church, a churchyard, a burial place; cell, house' (*Dinneen*) atá mar mhír thosaigh san ainm seo. Is focal é atá neamhchoitianta i mbailte fearainn sa cheantar taighde (10 sampla as 377 ainm), ach tá ceithre shampla den eilimint in ainmneacha na bparóistí sa bharúntacht. Is é an t-ainm pearsanta *Braon* 'sadness, sorrow' (Woulfe, 1923: 441) atá sa dara mír den ainm, in ainneoin an mhéid atá molta i bhfoirmeacha 32 agus 33 thuas.

Tá láthair eaglasta *Kilbryan* (NMS RO006-038002) suite i mbaile fearainn Rockingham Demesne ach déanfar scéal na láithreach eaglasta a phlé anseo. Mar atá le feiceáil i bhfoirmeacha 1 agus 2 thuas, bronnadh tailte i gCill Bhraoin ar mhainistir Oileán na Tríonóide i 1237. Chuimsigh *Drummans Little*, Fawnanierin, Keeloges, agus Kilbryan feirm bhaile na mainistreach agus seans gur tógadh an séipéal seo (NMS RO006-038002) timpeall an ama sin (Clyne, 2010: 82). Níl trácht ar an séipéal féin sa chánachas eaglasta sa 14ú haois ach is cosúil go raibh an fheirm bhaile fós i seilbh na mainistreach sa bhliain 1570, nuair atá tailte agus reachtaireacht

Chill Bhraoin liostaithe mar chuid de thailte mhainistir Oileán na Tríonóide a bhí le tabhairt do John Crofton in aimsir dhíscaoileadh na mainistreacha. Bronnadh an talamh céanna ar a mhac Edward sa bhliain 1605, áit a bhfuil ‘3 cottages in Kilvorine – in Kilvorine, 60a arable, and 40a pasture, underwood, and bog’ áirithe sa deonú. Ón méid atá ráite sa *BSD*, is cosúil go raibh Kilbryan ina shéipéal paróiste ach nach raibh fágtha den séipéal in aimsir na Suirbhéireachta ach na ballaí loma.³³²

Is cosúil gur dhá áit faoi leith iad Kilteasheen agus *Baile na gCeall*. Tá taifead siar go dtí 1612 ag *Baile na gCeall* ach tugtar ‘Half a town Land’ agus luaitear 125 acra tairbheach leis an áit sa *BSD*. Tá an focal *baile* ‘place; piece of land (belonging to one family, group or individual)’ (*DIL sv. baile*(a)) nó ‘place, township’ (*Ó Dónaill*) cáilithe ag an tuiseal gin. iolra den fhocal *cill* ‘Usually transl. church, but in a number of exx. clearly ref. to monastic settlement or foundation, collection of ecclesiastical buildings; churchyard, graveyard’ (*DIL sv. cell* (a)(b)).

I ngingealach Mhic Dhiarmada Mhagh Loirg i *Leabhar Mór na nGenealach*, measadh *Baile na gCeall* a bheith in aice an droichid ag Knockvicar (Féach foirm 4 thuas agus Ó Muraíle, 1990: 545, 550-2) agus tá *B:gall* (**Ballygall*) léirithe go soiléir ar an taobh ó thuaidh de *K:nicar* (Knockvicar) trasna abhainn na Búille ar léarscáil *HD* den cheantar i 1685. Tá gach cosúlacht ar an scéal go raibh Kilteasheen ina láthair eaglasta shuntasach ag tréimhsí ama éagsúla ón 8ú go dtí an 14ú hAois ar a laghad (Read, 2010: 55) agus tá rian den séipéal, reilig laistigh den imfhálú eaglasta agus fothraigh ‘chúirt an easpaig’ i ndeisceart an bh (*ibid*: 63).

Tá 130 acra sa bhaile fearainn seo ach bhí sé roinnte idir paróistí Ard Carna (29a) agus Chill Bhraoin (101a) ar *LSOI*. Tá dhá chaiseal, feart fáinneach agus feart tulaí sa bhaile fearainn.

Is cosúil go bhfuil an focal *poll* ‘o,m. A hole, Generally of an opening or cavity in the earth... In place-names gen. denotes a cave or pool’ (*DIL*) cáilithe anseo ag an aid. *odhar* ‘adj. and subst., name of a colour, dun, or greyish brown...; of persons, of dark or sallow complexion (?)’ (*DIL* sv. *odor* (a)) nó ‘io, iā. of a dun or brownish colour’ (*DIL* sv. *odorda*). Is ar éigean gur ainm pearsanta atá i gceist sa chás seo. Féach mar shampla *Ower* (*BLÉ* 21836) agus *Turloughour* (*BLÉ* 21542) i nGaillimh agus *Oddar* (*BLÉ* 38765) sa Mhí. Tá uaimh thalún gar do theorainn thiar thuaidh an bh seo in bh *Keeloges* agus is féidir gurb é seo an *poll* atá i gceist.

Is é an focal *sean* 'o, ā old, ancient, long-standing' (*DIL* sv. *sen*) atá mar réimír againn anseo. Tá *sean* ina réimír ar os cionn 400 ainm baile fearainn sa tír. De réir Joyce: 'It is probable that *sean* in such names refers to use... at the time these [places] were so called, they were old [when] compared with others in the neighbourhood... or that they were simply old, without implying any comparison' (1869, 1875, 1913: ii, 481-2). Is é an t-ainmfhocal *buaile* 'milking place in summer pasturage; fold, enclosure; small grazing field' (*Ó Dónaill*) atá cáilithe ag an réimír *sean-* i gcás an ainm seo; féach Cuiltaboolia roimhe seo i bparóiste Ard Carna agus Curraghnaboley i bparóiste Chill Rónáin. Is cosúil gurb é an focal *smut* ‘stump, short piece, short portion; snout’ (*Ó Dónaill*) móide trí iarmhír *-ar* (brí éiginnte) + *-an* + an iarmhír áitreabhach *-ach* (Joyce, 1869, 1875, 1913: ii,16-7; Ó Máille, 1987: 34). Ní dócha go bhfuil an leagan díspeagtha de: *smután* ‘stump, chunk of wood’ (*Ó Dónaill*) againn mar atá le fáil in Smuttanagh (*BLÉ* 35488) i Maigh Eo agus i Kilnasmuttaun (*BLÉ* 52219) i Loch Garman. Tá 2 acra talún san oileán seo agus tá sé suite c. 200m amach ó *Drumman's Little* in bhf Rockingham Demesne. Tá caladh ar thaobh thoir an oileáin agus tá fothrach Theach Rialta mhanaigh *Premonstré* Mhainistir na Tríonóide suite i lár an oileáin. Tá stair an-seanda ag an láthair seo ag dul siar go dtí tús an 13ú hAois ar a laghad (Clyne, 2010: 69). Ní mór a lua freisin gur tiomsaíodh *Annála Locha Cé* ar an oileán seo go déanach sa 16ú hAois faoi phátrúnacht Mhic Dhiarmada na Carraige (Féach Castle Island, p. Ard Carna). Tógadh bunaitheoir na mainistreach, Clarus Mac Mailin ar bhruacha an locha agus tuairimítear in Clyne (2005: 85) go raibh fonn air líon na mainistreacha agus na séipéal *Premonstré* in Éirinn a fhorbairt ag an am, ach go hairithe agus é ina Ard-Deagánach Oil Finn. Tugadh léas do John Crofton i 1570 d'Oileán na Tríonóide agus do thailte na Mainistreach (*Fiants §* 1724) ach níor cuireadh i bhfeidhm é (Clyne, 2005: 29), agus ansin do Andrew Peppard i 1587 (*Fiants §* 5070) ach bhí na tailte i seilbh muintir Crofton arís faoin mbliain 1605 (*CPR* 70a). Cuireadh corp an Ridire Conyers Clifford sa mhainistir anseo i ndiaidh Cath an Chorrshléibhe i 1599.

Oileán ‘o, m. Island’ (*DIL* sv. *ailén*) nó ‘an island, a small island’ (*Dinneen*) atá sa chéad mhír anseo ar ndóigh. Tá *oileán* bunaithe ar an bhfocal *ail* ‘i and k, f. oil f. (gs. and np. *oili*), boulder, rock’ (*DIL*) móide an iarmhír *-án* agus is cosúil gur carraig atá timpeallaithe ag uisce atá i gceist leis an bhfocal. Ní fhaightear an focal *oileán* i scríbhinní roimh an 13ú hAois (Ó Maolfabhail, 2005: 85) agus sa chás seo, tá leaganacha den fhocal Laidine *insula* teastaithe i bhfoirmeacha 2 agus 3 thuas.³⁵⁶ De réir Uí Mhaolfabhail: tagraíonn an focal *oileán* i gcomhthéacs intíre do “‘talamh

³⁵⁵ ‘late monastery or priory of the H. Trinity of canons in McDermod’s country otherwise Moylurge, within the **island of the H. tirim timpeallaithe ag talamh uisciúil’, seachas ‘talamh timpeallaithe ag uisce’” (2005: 86) ach féadtar go bhfuil níos mó ná seo i gceist. Tá láthair eaglasta ar Church Island c. 450m siar ó thuaidh de Trinity Island agus is é an t-ainmfhocal *inis* atá teastaithe mar ainm an oileáin i ngach aon sampla de na foirmeacha stairiúla, bíodh gur leaganacha Gaeilge agus Laidine atá ina bhformhór. Is féidir nach mbraitheann úsáid nan fhocail seo ar an gcomhthéacs mar atá molta ag Ó Maolfabhail, ach go mbraitheann sé ar aois an logainm agus ar aois na láithreach eaglasta í féin. Meastar láthair eaglasta Church Island a bheith níos sine ná an ceann ar Trinity Island (Gwynn agus Hadcock, 1970: 179).

Ar ndóigh is tuiseal gin. uatha den fhocal *Tríonóid* ‘ī, f. (Lat. *trinitāt*- through Brit.) *trínóid* (gan illrughadh aici). The Trinity’ (*DIL* sv. *tríndóit*) atá sa dara mír anseo a thagraíonn don láthair eaglasta féin de chuid an oird *Praemonstratensian*. Craobhtheach de Mhainistir *Premontré* na Fraince a bhí ann (Gwynn agus Hadcock, 1970: 205). Níl an focal seo coitianta in ainmneacha bailte fearainn na tíre ach tá sí le fáil in ainmneacha dhá chraobhtheach de chuid na Mainistreach seo .i. Killeen/Cillín na Tríonóide (*BLÉ* 34570) i Maigh Eo agus Trinity Island (*BLÉ* 4792) ar Loch Uachtair sa Chabhán.

‘The acerable contents of this parish are set down as 5,159a. 3r. 38p., whereof 301a. 0r. 9p. are covered, partly by the Shannon, and partly by loughs, of which there are several within it; there is also a quantity of bog and some excellent limestone... The population was, in 1821, returned as 1,490, increased in the Census of 1831, to 1,978... The late Report limits the total population to 1,857 persons’ (D’Alton, 1845: i, 88-9).

é seo an paróiste is faide ó dheas sa cheantar taighde. Tá cuid de thaobh thoir an pharóiste buailte leis an tSionainn. De réir Lewis agus é ag déanamh cur síos ar an bparóiste i 1837, bhí: ‘1978 inhabitants. It comprises 2883 statute acres, as applotted under the tithe act, also several small lakes, and a quantity of bog; there is some excellent limestone’ (1837: 157). Tá talamh íseal in oirthear an pharóiste (idir 40-60m os cionn cothrom farraige) agus tá crios droimníní scaipthe go forleathan san iarthar. Ardaíonn na droimníní seo go dtí idir 80-100m ar airde agus tá an pointe is airde díobh i mbaile fearainn Carrowmore in iarthar an pharóiste. Tá idir choillearnacha, thalamh íseal idir droimníní agus cheantair chalaí sa pharóiste seo agus tá trí loch ann; *Canbo Lough*, *Lisdaly Lough* agus cuid de *Corbally Lough*. Eascraíonn Abhainn Chill Abhaicín as deisceart an pharóiste ag *Corbally Lough* agus sreabhann sí as sin chuig *Lough Canbo* tríd lár an pharóiste go dtí go dtéann sí isteach in abhainn na Sionainne. Tá fothrach shéipéal Chill Lomad agus sean-reilig an pharóiste le fáil i mbaile fearainn Killummod (féach thíos) atá in oirthear an pharóiste. Níl aon eolas le fáil ar naomh darbh ainm *Lomad* sa naomhsheanchas agus níor éirigh leis an Donnabhánach aon rian den naomh baineann seo a aimsiú.³⁵⁸ Sa pharóiste seo freisin tá láthair eaglasta Killappoge atá tiomnaithe do Naomh Lapán.

'Bounded on the North by the Parish of Killukin; East by the townland of Drumer; South by Canbo and West by Lisdaly... Contains [406] statute acres of which 166 are bog, 14 rough pasture and 25 march [*sic*] [*recte* marsh]... Soil good warm strong clay... It contains 3 forts also.' (AL). Tá Ballinvilla suite i dtuaisceart pharóiste Chill Lomad agus tá crannóg, lios, agus trí ráth laistigh den bhaile fearainn seo.

Baile 'place, township' (*Ó Dónaill*) nó 'a town, a village, a home; a townland' (*Dinneen*) atá sa chéad mhír anseo. Baineadh leas as an bhfocal *baile* sa chiall 'place' i dtéacsanna meánaoiseacha luatha agus sna hannála suas go dtí an dara leath den dara haois déag ach meastar ón tréimhse AD 1169 ar aghaidh gur "land / farmstead/residence, later 'town and lands' (townland)" a bhí i gceist le *baile*; go háirithe sna ceantair a bhí faoi cheannasaíocht na Normannach (*Ó Riain, Ó Murchadha, agus Murray, 2005: 4*). Níor tháinig na Normannaigh i réimeas i gContae Ros Comáin go dtí AD 1200 ar a luaithe³⁶⁰ agus ní dócha go bhfeileann an chiall áirithe sin sa chás seo. Dar le *Ó Riain et al.*, tá an chiall: 'a unit of assessment equiv. to a number of townlands' i gceist le *baile* i gCúige Chonnacht (*2005: 4*) ach arís ní fheileann an bhrí sin sa chás seo mar gheall ar an dara mír atá nasctha le *baile* anseo.

Murach foirm 1 thuas; bheadh gach cosúlacht ann gur tuiseal gin. den fhocal *bile* "io... (large) tree; tree-trunk(?)... b. *feada* 'ancient tree' (as landmark)... Esp. ancient and venerated tree" (*DIL* sv. *1bile(a)*), '(large, sacred) tree' (*Ó Dónaill*), 'a sacred or historic tree' (*Dinneen*) atá i gceist i gcás an dara mír sa logainm seo. Tá sé bhaile fearainn eile in Éirinn den ainm Ballinvilla (4) nó Ballinvella (2) agus tugtar '*Baile an Bhile*' ar gach aon cheann acu (m.sh. *BLÉ* 46153, *BLÉ* 50185). Tháinig

³⁶⁰ Tagairt in Annála Locha Cé don chéad fheachtas cogaidh de chuid na Normannach i Ros Comáin in AD 1177: *Milid Gócan, cona rideribh, do breith do Muircertach mac Ruaidri h-I Conchobair co Ros Comáin, do milled Connacht, ar ulca ré nathair.* (ALC, i, 154).

Seán Ó Donnabháin (foirmeacha 14, 15) agus Connellan (foirm 17) ar an gconclúid chéanna ach léiríonn an t-aon sampla Gaeilge (foirm 1) den ainm gur gin. de *bealach* ‘way; a road, track’ (*Ó Dónaill*) atá i gceist leis an dara mír. Féach *Baile an Bhealaigh (1)* (*Ó Riain, Ó Murchadha, agus Murray, 2005: 6*) freisin. Sa bhreis air seo, tá tréadbhóthar/conair seanda (*NMS RO005-021*) le fáil c. 3km soir ó thuaidh de *Ballinvilla* i mbaile fearainn *Eastersnow* atá gar go leor do shuíomh measta *Bhóthar an Chorainn* a thrasnaíonn an cheantar ó *Dhroim ar Snámh* i gcontae Liatroma go dtí *An Chéis* i gcontae Shligigh (*Doran, 2004: 72*)³⁶¹. Tá na forannta leis an bhfocal *droim* ‘ridge, usually of elevated ground; hill’ (*DIL sv. druim(m) III*) a luaitear i bhfoirmeacha 3, 11, 12 tite as feidhm. Tá *Loch Lios Uí Dhálaigh* (*BLÉ 1410770*) i ndeisceart an bhaile fearainn agus é roinnte idir an bhf seo, *Lisdaly*, *Canbo* agus *Knockroe*.

‘At the North centre of Parish. Bounded on the North and East by the Parish of Killukan; on the South by townland Lisdaly and on the West by Killepogue... Contains [263] statute acres of which 49 are bog... Soil which produces excellent oats, potatoes and flax, consists of good warm strong clay with limestone’ (AL). Tá ráth amháin sa bhaile fearainn seo.

Bun ‘base, bottom; lower end, mouth of river’ (Ó Dónaill) agus ‘an end, the end or foot of anything, such as a hill, the land, a stream (source or mouth, &c.), often also applied to bottom land, *i.e.* at the lower end of a farm, or at the bottom of a hill’ (Joyce, 1869, 1875, 1913, iii: 152) atá sa chéad mhír. Feileann ‘píosa talún ag bun an chnoic’ mar mhíniú sa chás seo, áit a bhfuil an chuid theas agus thoir den bhaile fearainn c. 10m níos ísle ná an chuid eile agus go síneann an talamh le fána ó dheas i dtreo Lisdaly agus Ballinvilla.

Is í an aidiacht *riabhach* ‘streaked, striped; brindled; (speckled) grey; dun, drab’ (Ó Dónaill) a cháilíonn *bun* an uair seo agus is iondúil go n-úsáidtear ‘-reagh’ mar leagan béarlaithe den fhocal *riabhach*. Féach An Caisleán Riabhach (BLÉ 223), i Ros Comáin agus go háirithe ar an taifead téacs ón Ainmleabhar a ghabhann le An Bun Riabhach (BLÉ 1486) i bparóiste Chill Tiobrad, Co. Liatroma, áit go luann an Donnabhánach ‘*revagh* has been made *reagh* in Ulster, but cannot in Connaught’ (AL). Mar sin féin, léiríonn na samplaí thuas gur ‘-ragh’ nó ‘-reagh’ a bhí in úsáid san fhormhór i gcás an bhaile fearainn seo. ‘The shades of colour designated by this word must have been usual in the surface of the land, for it is very general in local names; and it is commonly anglicised in the forms of *reagh*, *rea*, and *revagh*’ (Joyce, 1869, 1875, 1913, ii: 283).

Seans go dtagraítear don ráth (NMS RO010-045) atá in oirthuaisceart an bhaile fearainn i bhfoirm 4 (*Dunrewagh* – Dún Riabhach [?]) ach is mó seans gur éiginnteacht chló idir *B* agus *D* is cúis leis an litriú áirithe seo. Tugtar ainmneacha malartacha dúinn ar an mbf i bhfoirmeacha 4 (*Drumins*) agus 5 (*Drumone*) ina bhfuil an mhír *droim* ‘ridge, usually of elevated ground; hill’ (DIL sv. *druim(m)* III) nó ‘a back, a ridge’ (*Dinneen* sv. *drom*) móide an iarmhír dhíspeagtha *-ín/-án* le fáil sa chiall ‘droim beag’.

‘At the centre of Parish. Bounded on the North by the townland of Ballinville; on the East by the townland of Drumer and Drawn; on the South by Finner; on the East by Knockroe and Lisdaly... Contains [315] statute acres of which about 53 are bog, 7 rough pasture and 19 marsh and [57] acres water... The soil which is a strong good warm clay produces very good crops of oats, potatoes and flax. It contains one fort. Canbo old castle is situated near the centre’ (*AL*). Tá ráth, dhá chrannóg, lios, bábhún agus teach daingnithe laistigh den bhaile fearainn seo.

Ceann ‘o, n., later m... the human head, head of an animal... Very freq. in nn. loc.’ (*DIL* sv. *cenn*), ‘a head... (4) top, peak, topmost part... a headland, a cape, promontory’ (*Dinneen*). Féach go háirithe Ó Riain et al.:

Originally denoting a human or animal head, this word came to be used topographically in various ways, the main ones being: **1.** A cape or headland...; **2.** A hill or mountain top...; **3.** An end-point, often the head of a sea-inlet...; **4.** A fancied resemblance to an animal’s head... (2011: 67)

Tá éiginnteacht ann maidir leis an dara mír atá anseo ach is minic gur ainmfhocal a leanann *ceann* (Ó Maolfabhail, 1987: 76) agus féadtar gurb amhlaidh atá i gcás an logainm seo. Mheas an Donnabhánach i bhfoirm 30 ón *AL* gur *bó* ‘ox, cow’ (*DIL*) a bhí sa mhír dheiridh. Ní léir cén focal a bhí i gceist ag Connellan i bhfoirm 33. Léirítear fuaim chuimilteach | v | don chonsan ‘m’ i bhfoirmeacha 5-7 agus 12 ach an consan pléascach | b | atá sna foirmeacha eile ar fad 8-11, 13-32. Is éasca a fheiceáil cén fáth ar mheas an Donnabhánach gur *ceann bó* a bhí i gceist leis an ainm mar gheall ar na foirmeacha dar chríoch ‘-bo(e)’. Níl againn sna foinsí is luaithe (1-4) ach an tagairt chéanna agus meititéis aisteach léirithe idir cé acu *Cindghuba* nó *Cinn Bughbha* atá ann. D’fhéadfadh gurb é an t-ainmfhocal *bú* ‘io. bugha, m. Name of some bright-coloured flower, hyacinth (?), bluebell (?)’ (*DIL* sv. *buga*) nó ‘the flax flower; the hyacinth’ (*Dinneen* sv. *bugha*) mar atá i gCluain Bú (*BLÉ* 18416) na Gaillimhe. De réir Joyce, is é an t-ainm pearsanta *Bugh*, iníon le Bodb Derg (duine de ríthe Thuatha Dé Danann), atá sa dara mír anseo (1869, 1875, 1913: i, 182).

Más é an t-ainmfhocal *má* ‘s, n. ns. a mmág; a plain, an open stretch of land’ (*DIL* sv. *mag(b)*) agus ‘a plain, campus or field, a level district a battle-field’ (*Dinneen* sv. *magh*) atá le feiceáil i bhfoirm 5 thuas, is féidir gur thagair an chuid seo

den ainm don talamh cothrom a shíneann soir ó thuaidh agus soir ó dheas sa bhaile fearainn seo. Insítear i bhfoirm 5 gur leag Ruaidrí mac Taidhg Mic Diarmada agus Brian Ó Ruairc caisleán Canbo i 1536, ach cuireadh caoi éigin ar an gcaisleán in athuair idir sin agus 1641, uair go léirítear sa *BSD* go raibh an caisleán nó foirgneamh comhchosúil leis fós ina sheasamh agus in úinéireacht Josias Lambert.³⁶⁷

Tá tulach fearta sa bhf seo chomh maith leis an trí ráth atá luaite san Ainmleabhar.

Logainm comhshuite atá anseo leis an aid. *dubh* agus an t-ainmfhocal *cluain* le chéile. *Dubh* 'black; swarthy; dark' (*DIL*) nó 'black, dark, great, intense' (*Ó Dónaill* sv. *dú-*) atá mar réimír anseo. Dar le Joyce: '*Dubh* [dʊv], black, blackish, very dark coloured. This word is found in vast numbers of names throughout Ireland – a fact which results in a great measure from the prevalence of bogs and boggy lands' (1869, 1875, 1913: ii, 268). Tá raon sách leathan céille ag baint leis an bhfocal

³⁷¹ 'Dowghelone or Doughcloine Pasturable wood mixt with some arable' (*BSD* 361:6).

seo i gcomhthéacs na logainmneacha. D'fhéadfadh gur dath dubh, talamh portaigh nó talamh fraoigh atá i gceist léi (Joyce, 1869, 1875, 1913: ii, 268-271).

Is é an t-ainmfhocal *cluain* ‘i, m. later f.... meadow, pasture-land, glade’ (*DIL* sv. *clúain*) agus ‘a meadow, pasture land’ (*Dinneen*) atá sa dara mír anseo. Tá *cluain* le fáil i mbreis agus 1800 ainm bhaile fearainn in Éirinn, go háirithe i gcontaetha na Gaillimhe, Ros Comáin agus Maigh Eo. Deir Joyce:

Cluain [cloon] is often translated *pratium* by Latin writers... it is usually rendered in English by ‘lawn’ or ‘meadow’. Its exact meaning, however is a fertile piece of land or a green arable spot surrounded or nearly surrounded by bog or marsh on one side and water on the other (1869, 1875, 1913: i, 233).

Tá staidéar domhain déanta ag an Dr. Pádraig Ó Céarbhaill i gContae Tiobraid Árann ar bhrí na heiliminte *cluain* i gcomhthéacs an chontae sin agus féadtar a mhaíomh gurb ionann cás Ros Comáin. ‘Talamh taobh le bealach uisce atá i bhformhór na logainmneacha dar céad eilimint *Cluain*... agus i gcás a leath nach mór, portach nó ithir fhliuch a bhí i gcuid den talamh’ (Ó Cearbhaill, 2010: 17). Tá ceithre shampla eile de logainmneacha den déanamh seo in Éirinn; Daghloonagh (BLÉ 44722), Doughcloyne (BLÉ 9509), Dughlone (BLÉ 53272), Doughloon (BLÉ 43722). Cuir an t-ainm seo i gcomparáid le Cluain Duibh (BLÉ 18776), logainm neamhchomhshuite den déanamh ainmfhocal + ainmfhocal sa ghinideach.

‘At the eastern extremity of Parish. Bounded on the North by the Parish of Killukan; on the east by the river Shannon; on South by Cartron; and on the West by the townland of Deerpark... Contains [385] statute acres of which about 39 are bog... Soil bad wet clay and marshy’ (*AL*). Tá cúig ráth, lios amháin agus cloch ghreanta sa bhaile fearainn seo. Is ainm baile fearainn agus ainm toghroinne é Danesfort agus tugtar *Danesfort* ar ráth in iarthar an bhfeiceáil *SO2* freisin. Mar atá le feiceáil sa liosta thuas, tá trí ainm eile luaite leis an mbf go stairúil. Tá ainm éagsúil eile (*Annaghcasey*) marcáilte ar léarscáileanna an Ard-Ghiúiré den cheantar i 1817.

Is aistriúchán é Danesfort ón 19ú haois atá bunaithe is dócha, ar fhoirmeacha 4-12, 15, 16 agus 18 thuas a léiríonn *lios* móide focal a fhéachann cosúil leis an ainm pearsanta *Lochlainn*. Tá *Lisloghlin*, nó leaganacha atá litrithe cosúil leis, sa taifead stairiúil idir na blianta 1591 agus 1738. Tá *lios* ‘o.m. gs. *lis*, the space about a dwelling-house or houses enclosed by a bank or rampart’ (*DIL* sv. *les*) nó ‘a small circumvallation or ring-fort’ (*Dinneen*) againn mar mhír thosaigh sna foirmeacha seo. Tá breis ar 1400 ainm in Éirinn dar tús an fhocail seo agus díol spéise go bhfuil

siad le fáil go príomha i gceantair na gcriosanna droimníní sa tír leis an dlús is airde díobh i gContae Mhuineacháin (O'Connor, 2001: 97).

Tá dhá fhéidearthacht láidir ann maidir le ciall an dara mír san ainm seo. D'fhéadfadh gurb é an t-ainm pearsanta *Lochlainn* atá sa dara mír, rud atá molta ag an mBrainse Logainmneacha (fch. *BLÉ* 42893) ach d'fhéadfadh gurb é an t-ainm pearsanta *Lachtnán* [nó an sloinne: *Ó Lachtnáin*] atá ann. Bheadh meascán idir *Lachtnáin* agus *Lochlainn* éasca go leor go háirithe i bhfoirmeacha stairiúla an Bhéarla. Díol spéise go bhfuil Muintir Uí Lachtnáin aitheanta le Síol Muireadhaigh ag Mac Fhirbhisigh (Woulfe, 1923: 579). Ní léirítear aon rian de *mac* idir na heilimintí in aon cheann de na foirmeacha stairiúla, rud a chuireann an sloinne *Mac Lochlainn* as an áireamh. Tá féidearthacht eile ann áfach más féidir brath ar fhoirm 7 thuas; áit a bhféadfadh an t-ainm pearsanta Maoileachlainn a bheith againn i *Lissemelaghlyn*: *Lios **Maoileachlainn**. Tá an t-ainm pearsanta Maoileachlainn (*var. de Maoilsheachlainn*) le fáil in bf Lios Maoileachlainn (*BLÉ* 20553) in oirthear na Gaillimhe.

Maireann tagairt amháin ó na hannála (fch. foirmeacha 1-3) den loisceadh a rinneadh ar longfort Aodha Uí Chonchobhair³⁷² sa bhliain 1261 agus luaitear an longfort sin a bheith suite ag Snámh Muireadhaigh (*var. Snam Muredaigh, Snám in redaigh* agus *Snamh Inredaigh*). Meastar áit thrasnaithe abhann a bheith i gceist le *snámh* i logainmneacha go hiondúil, go háirithe áit thrasnaithe do bheithígh agus do dhaoine.³⁷³ Dar le Joyce, roghnaíodh na háiteanna seo toisc go raibh an sruthán níos cúinge ná áit eile, nó gur measadh an t-uisce a bheith níos sábháilte, nó go raibh cruth faoi leith ar bhruach na habhann a bhí feiliúnach d'áit thrasnaithe (1869, 1875, 1913: i, 365). Ní fios cé hé an Muireadach atá luaite anseo ach díol spéise go bhfuil ceithre theaghlach den sloinne *Murray* (Ó Muireadhaigh) luaite in aice láimhe i mbaile fearainn Cordrehid i nDaonáireamh 1901. Ní mór cuimhneamh freisin go bhfuil an bf seo buailte le *Bóthar an Chorainn* a thagann ó Dhroim ar Snámh i gContae Liatroma agus ar a mbíodh beithígh agus daoine ag taisteal san aimsir anallód. Bhí tuairim ag Ó Murchadha gur foirm thruallaithe í foirm 13

Tugann Weld *Ballintra or Ballintrave* ar an droichead seo (Weld, 1832: 117).

Tá trí ráth sa bhaile fearainn agus tá gach cosúlacht ar an scéal ó *LSOI* go raibh an chuid den bhfeoil atá i gCill Lomad anois mar chuid de bhfeoil Cartron atá buailte leis and an taobh thoir agus theas. Tacaíonn foirm Ghaeilge Connellan ó *PNED* thuas leis seo, foirm atá bunaithe ar thaighde a rinne sé féin go háitiúil. Ba mhinic do Connellan iar-chodanna de bhailte fearainn a aithint in ainneoin go raibh siad faoi ainm béarlaithe nua. Féach mar shampla ar bhfeoil Reycroftspark i bparóiste Ard Carna. Déantar tráchttaireacht iomlán ar Deerpark sa chaibidil ar pharóiste Chill Abhaicín.

Tá dumha teorann le fáil freisin ar thalamh portaigh i ndeisceart an bhaile fearainn (fch. Derraun thuas).

Droim ‘ridge, usually of elevated ground; hill’ (*DIL* sv. *druim(m)* III) nó ‘a back, a ridge’ (*Dinneen* sv. *drom*) atá sa chéad mhír anseo. Tá *droim* le fáil níos minice i ndeisceart na barúntachta i gcomparáid leis an tuaisceart. Ní féidir an dara

mír a chinntiú sa chás seo. Ní dócha gurbh é an t-ainmfhocal *ortha* ‘prayer; incantation, spell’ (*Ó Dónaill*) atá i gceist, ach d’fhéadfadh gur *oirthear* ‘front part; the east, eastwards’ (*DIL sv. airther I, (a),(b)*) ‘east, eastern part’ (*Ó Dónaill*) atá ann leis an siolla deiridh tite ar lár. Deir Joyce: ‘*Oir* is usually represented in anglicised names by *er*. It commonly occurs in the end of names, and when it does, it always carries the accent’ (1869, 1875, 1913: ii, 448) agus is fíor an ráiteas sin i gcás Drumerr freisin. D’fhéadfadh gur fhoirm an-truailithe de **Droim Oirthir* nó **Droim Oirthearach* atá i bhfoirm 1. Is ionann foinsí foirmeacha 2 agus 3; rud atá le feiceáil go rialta idir na hIonchoisní agus an *CPR*, go háirithe do na blianta 1616 go dtí 1618 agus sna foirmeacha seo tá ‘*-orhe*’ mar eilimint deiridh acu. *Druim Thoir* ‘eastern ridge’ atá molta ag Connellan in *PNED* agus ag Ó Donnabháin agus seans go bhfuil fiúntas éigin leis an moladh sin. Feileann an comhthéacs fisiciúil don mhíniú seo toisc go síneann an droim áirithe seo soir ó bh Ballinvilla agus é timpeallaithe ag talamh portaigh ísil ar an dá thaobh, thuaidh agus theas. Tá dhá ráth, caiseal, crannóg agus uaimh thalún laistigh de cheann de na ráthanna sa bhaile fearainn seo. Tá codanna de *Canbo Lough* agus *Corbally Lough* i Finnor.

Fionn ‘o-ā; white, bright, lustrous’ (*DIL* sv. *finn*) agus ‘white, pale, fair (of hue, hair)’ (*Dinneen*) atá sa chéad mhír anseo. Tá an focal *alt* ‘height’ (*DIL* sv. *ailt3*) agus ‘cliff, side of glen’ (*Dinneen* sv. *allt*, *ailt*) le feiceáil i bhfoirm 8 freisin, rud a fheileann do chomhthéacs fisiciúil an bf. Tá rannáin thiar agus thoir léirithe sa *BSD* (foirmeacha 11, 12) ach níl aon tagairt don rannán thoir i ndiaidh c1660 – tá *East ffennor* luaite faoi bf Carrowreagh sa *BSD*. An bhféadfaí a rá gurb é an tulach ag M 899 948 atá suite díreach ar theorainn Finnor le Carrowreagh atá i gceist le *East ffenor* anseo?

Maidir leis an dara mír, tá cúpla féidearthacht ann. Ní dócha gurb é an t-ainm pearsanta *Finnabhair* atá anseo agus mar sin ní féidir glacadh le míniú O’Curry ar an ainm sin gurb é an focal (*f*)*abra* ‘eyelash(es), eyelid’ (*DIL* sv. *abra*) nó *fabhra* ‘an eyelash, an eyelid; fig. the eye; the brow, esp. of a hill... *f. an chnuic*, the brow of the hill’ (*Dinneen*) atá sa dara mír (1873: iii, 10). Measann Mac an Bhaird gur **windobrigs*, gin. *windobrigos* ‘white hill’ atá sa logainm *Fionnabhair*, gin. *Fionnabhrach* (1993: 11). Féach bf Fionnú (*BLÉ* 32206) i gContae Luimnigh freisin,

Tá Kilmolappoge Church in bf Doore, Co. Cheatharlach, freisin. Sa bhliain 1845 bhí an

³⁷⁹ ‘In this century however they [muintir na hÉireann] have rejected the *Mo* from the name of *My Lappog*, and made him simply *Lappog* (*Lapdog*). This is the ugliest name for a Saint I ever heard; *Lapa* is a *paw* on the webbed foot of a duck or goose; and I should suppose they called *My Lapog* that name from his having being a squat little divine with *spread* feet. I believe there is a species of fairy of this name, with whom Mr. Curry is well acquainted’ (Herity agus McGuinness, 2010: 71).

méid seo le rá faoin séipéal ag D’Alton: ‘The church of this parish has been long a ruin; it is situated in the townland of Killapoge, near the village of Croghan, and was more anciently called the church of Dromyn; the parochial cemetery surrounds it...’ (D’Alton, 1845: i, 89). Léiríonn foirm 11 an t-ainm malartach *Drumeene alias Killepoge* agus faightear leagnanacha éagsúla den ainm seo sa *Papal Taxation*, na *Fiants* agus sna hIonchoisí (foirmeacha 1-5). Is cosúil gur *droim* ‘ridge, usually of elevated ground; hill’ (*DIL* sv. *druim(m)* III) nó ‘a back, a ridge’ (*Dinneen* sv. *drom*) móide an iarmhír dhíspeagtha *-ín* atá san ainm malartach seo a bhí aitheanta de réir dealraimh, roimh thrácht ar bith ar Killapoge. D’fhéadfaí gurb í an aidiacht *mín* “smooth, level, of surfaces; commonly of land, often approaching the sense of arable or fertile” (*DIL*) atá ann.

The townlands, into which the parish is apportioned, are 23 in number, 11 of which (upwards of 3,000a.) belong to Guy Lloyd Esq., and 8 others (upwards of 2,000a.) to Lord Lorton. The population of this district was, in 1821, returned as 1,539, increased in the Census of 1831 to 1,951... the late Report extends the number of inhabitants to 2,035’ (D’Alton, 1845: i, 84-5).

It is bounded on the W. by Ballinvogher; on the N. by Carrowkeel and Carhoonacappul on the E. by Carkfree and on the S. by the parish of Killeelagh... This townland contains 274 acres of which 211 acres are cultivated, 11 uncultivated, 37 of bog and 15 of wood... A stream runs through this townland from Treanamarley Lough into the Finisclin river. The road from Roscommon to Boyle passes through a portion of this townland. There is a good house here, 3 stories high, the residence of the occupier. There is nothing remarkable to be seen in this townland’ (*AL*). Tá ráth amháin i ndeisceart an bhaile fearainn nach raibh aitheanta san *AL* nó ar *LSOI* ar an taobh ó thuaidh de dhroimín íseal agus tugtar *Rathroe* air seo ar *LSO2*.

³⁹¹ ‘linn’ [dúch]

Is éard atá sa chéad mhír anseo ná an aidiacht *cam* ‘o, ā., crooked, bent, curved, twisted’ (*DIL* sv. *cam* (a)) nó ‘in *comps.*, bent, crooked, dishonest, etc.’ (*Dinneen* sv. *cam-*, *cama-*, *caim-*). Maidir leis an mír *cam* i logainmneacha, de réir Joyce: ‘Its most frequent application is to rivers and glens... Several small streams in various parts of Ireland are called Camlin and Camline – that is crooked or curved line’ (1869, 1875, 1913: ii, 420) ach is ráiteas amhrasach atá ansin toisc nach dtugann Joyce le fios brí an dara mír.

Bhí an Donnabhánach idir dhá chomhairle an é an focal *líne* nó *linn* a bhí i gceist leis an dara mír (fch. foirm 36) agus ní léir ón bhfianaise stairiúil cén focal go díreach atá i gceist. Is féidir gur *líne* ‘line’ (*Ó Dónaill*) nó *linn* ‘f., of water pool, lake’ (*DIL* sv. *linn* (a)) nó ‘a pool, pond, lake, water’ (*Dinneen*) atá ann agus ní miste a lua go bhfuil casadh suntasach le feiceáil (c. M 792 955) in Abhainn Fhionasclainn a shreabhann tríd iarthuaisceart an bh seo. D’fhéadfadh freisin gur *lann* ‘ā, f. and o, m., land, ground, plot’ (*DIL* sv. *lann*) atá ann mar atá le fáil in Aghlin (*BLÉ* 29020) i bhFear Manach agus, spéisiúil go leor, in Finisclin (*BLÉ* 42903) sa pharóiste seo. Is féidir freisin gurb é an consan séimhithe | **g** | atá againn ón bhfocal *gleann* ‘A valley, a hollow; common in place-names... In wider sense of a hollow or depression in general’ (*DIL* sv. *glenn*) mar atá i gCromghlinn (*BLÉ* 1412114). Ní dócha gurb é an focal *uillinn* ‘ā,f., Angle, corner’ (*DIL* sv. *uilen* II) atá anseo ag brath ar na foirmeacha stairiúla.

This townland contains 192 acres, of which 149 are cultivated, 39 acres of bog. 3 acres of wood and one of water... There are no farm houses; those used by the tenantry being chiefly mud cabins. The road from Roscommon to Boyle passes through this townland, and a stream which arises at the road side runs through a small plantation into Camlin, and from there to the Finisclin river. There is nothing particular to be observed here’ (*AL*). Tugtar *Crowsfield* ar an mbf seo ar léarscáileanna an Ard-Ghiúiré.

Bunaithe ar an méid atá léirithe sna hIonchoisní, is cosúil go raibh an focal *ceathrú* ‘n.f. (*cethramad*). quarter, fourth part... part; district, quarter, name of a measure of land’ (*DIL* sv. *cethramthu(e)*)’ ina réimír ar an logainm seo sa 17ú hAois (féach foirm 27 freisin). Is éard atá sa dara mír ná ainm éin; *an chearc fhraoigh* ‘(red) grouse’ (*Ó Dónaill*) nó ‘ā, f. hen...; of female of other birds: c. fraich... grouse’ (*DIL* sv. *cerc*). De réir Joyce áfach:

‘The full name of the bird [cearc fhraoigh] seldom appears in names however; the word *cearc* being generally used alone; and although this word means the hen of any bird, yet in its topographical application it is commonly intended for grouse. It is easily recognised in names, as it always takes some such anglicised form as *cark*, *kirk*, *kirk* or *gark*...’ (1869, 1875, 1913: ii, 298-9).

³⁹² ‘Only the latter part of this name is retained. Carrow was originally prefixed. (Heath-hen)’ (*OD Nóta*)

Ní hiondúil go bhfaightear ainmneacha éanlaithe gan aon mhír rompu, féach mar shampla Cró na gCearc Fraoigh (*BLÉ* 14748) i nDún na nGall; Gortnagark (*BLÉ* 10841) i gCorcaigh, agus Slievenagark (*BLÉ* 34182) i Maigh Eo. ³⁹⁹ 'There is a remarkable cave here' (*OD Nóta*) 'remains of a castle within 7 perches of the fishhouse and between the two lakes of Clogher & Cavetown' [dúch]

by Farrinagalla; on the W. by Cloonshaughane, Cavetown Lake and Gloora; on the N. by Clogher, the Lake and Estersnow and on the E. by Cavetown, Glebe and Fass... This townland contains 305 acres of which 193 acres are cultivated, 16 acres of bog, 18 acres of wood and 76 of water... There is a Gentleman's seat here – two stories high, a tower on the lough shore whose base is 281 feet above the level of the sea, 2 stone obelisks, one on the W. side of the townland, and the other in the Lough, a boat house in ruins, a well called Tubber Lunnaun, and a stream which runs from Clogher Lough to Cavetown Lough on which there is an eel house. The road from Elphin, to Boyle passess its W. end. Nothing more remarkable' (AL). Tá trí chrannóg, caisleán, ráth amháin, tobar beannaithe agus ballán liostaithe sa bhaile fearainn ag an NMS (Moore, le foilsíú).

Tá an t-ainmfhocal *baile* 'place; piece of land (belonging to one family, group or individual)' (DIL sv. *baile*(a)) cáilithe sa chás seo ag an ainmfhocal bain. *uaimh* 'three forms are found: *úamh* ā, f., *úaim* i, f., *úama* d, f., a cave; an underground passage or souterrain' (DIL sv. *úam* (a)(d)) nó 'a cave or grotto, a cellar or crypt, a souterrain' (Dinneen). Tá ginideach uatha *uamha* seachas *uaimhe* san ainm seo toisc gur tamhan *i* den fhocal *úam* atá againn. Is féidir sin a mheas bunaithe ar an deireadh leathan atá ag leagan ginideach an fhocail sna foirmeacha stairiúla (Strachan agus Bergin, 1949: 6).⁴⁰¹

Maidir leis na focail *uagh*, *uaimh* agus *uath* i logainmneacha na hÉireann: 'The second form *uaimh* is the one in most general use, and its genitive is either *uamha* or *uamhain*... Both of these genitives are represented in our present names. The first very often forms the termination *oe* or *oo*, or with the article, *nahoe*, or *nahoo*' (Joyce, 1869, 1875, 1913: i, 438-9). Tá *uaimh* sa bhaile fearainn seo ag M 844 977 atá léirithe ar *LSO1*, *LSO2* agus de réir Moore: 'A small natural cave at the base of a limestone escarpment. Presumably the origin of the townland name' (Moore, le foilsíú). Bhí Caisleán Bhaile na hUamha suite ag M 839 980 ar bhruach oir-dheisceartach Loch Bhaile na hUamha. Féach bf Corr na hUamha (BLÉ 39847) i Muineachán agus Tulaigh na hUamha (BLÉ 36511) i Maigh Eo.

⁴⁰¹ Dá mbeadh tamhan ā anseo, bheimis ag súil le **uaim*(h)e sa ghin. uatha; msh. *túath* < *túa(i)the*. Dá mbeadh an tamhan déadach anseo, bheimis ag súil le *-d/t* ag an deireadh; msh. **úamad*.

The road from Elphin to Boyle forms the W. boundary. There is nothing remarkable to be seen in this townland’ (AL). Tá an ghléib aitheanta san AL agus ar LSO1 mar bhaile fearainn faoi leith ach is cuid de Cavetown or Ballynahooagh í ar LSO2. Tá *Glebe Ho.* léirithe anseo ar LSO1 ach tugtar *Estersnow Rectory* ar an bhfoirgneamh ar LSO2. Tá láthair eaglasta Dhíseart Nuan cúpla céad slat ó thuaidh den fhoirgneamh seo, díreach laistigh de bh Eastersnow.

fearainn seo. Is féidir gurb é seo an caisleán atá luaite le Cavetown sna tagairtí ó 1487 ar aghaidh (Moore, le foilsiú).

Clochar ‘o, [m.] (*cloch*), stony place’ (*DIL*) nó ‘stony place, stony ridge; stone building’ (*Ó Dónaill*) is ciall leis an ainm seo. De réir Joyce: ‘...*clochar*, which is generally applied to stony land – a place abounding in stones, or having a stony surface; but it occasionally means a rock...the form *clochar* from *cloch*, a stone, is like that of *sruthar* from *sruth*, a stream’ (Joyce, 1869, 1875, 1913: i, 413-5). Tá 35 baile fearainn darb ainm Clogher agus roinnt eile den struchtúr *clochar* + cáilitheoir sa tír. Tá an eilimint *clochar* cáilithe i bhfoirmeacha 1 agus 2 ag leagan den sloinne Ó Murghaile ‘des. of Murghal (sea-valour); a scattered surname’ (Woulfe, 1923: 623). Tá an eilimint *baile* ‘place; piece of land (belonging to one family, group or individual)’ (*DIL* sv. *baile* (a)) mar mhír thosaigh ar fhoirmeacha 4 agus 5 thuas, agus déantar caomhnú ar an alt iolra idir an dá mír i gcás foirm 4.

There is a road that crosses this townland leading to Boyle. There is no Farm Houses on this townland what is are chiefly mud. Nothing remarkable to be seen only a small lough in the south boundary called Loughaun’ (AL).

Tá an mhír *corr* ‘tapering, cuspidated, peaked, pointed, jutting out or up, swelling’ (DIL sv. 1*corr* II) nó ‘projecting point, angle, edge’ (Ó Dónaill) chun tosaigh anseo. Tá bríonna éagsúla leis an bhfocal *corr* ach is léir gurb í an chiall ‘round-hill’ an ceann is coitianta i gcás logainmneacha (Féach Joyce, 1869, 1875, 1913: i, 397). Tá *corr* cáilithe anseo ag tuiseal gin. iolra den ainmfhocal *fiach* ‘o.m., a raven’ (DIL) nó ‘a raven; and carrion crow’ (Dinneen). Léiríonn foirm 6 thuas gur *leath-bhaile* a bhí i Cornaveagh seachas *ceathramha* mar is gnách le bailte fearainn an cheantair seo (Féach Joyce, 1869, 1875, 1913: i, 242). D’fhéadfadh gur leath de bh Finisclin a bhí anseo.⁴¹⁰ Is deacair a rá cén ghné thopagrafach atá i gceist le *corr* i gcás an bhaile fearainn seo. Is talamh portaigh chothroim atá in iarthar an bhaile fearainn agus talamh feirme atá san oirthear. Níl aon talamh/cnoc ard laistigh den bhf. Also two caves, and a well called Tubber Noon, a mill race runs from the parish boundary through the S. end of the townland into Cavetown Lough' (*AL*). Tá liosta fada séadchomharthaí luaite leis an mbaile fearainn seo a léiríonn lonnaíocht sheanda sa cheantar ag Moore (le foilsíú). Tá séipéal, reilig, tobar beannaithe (féach thíos), dhá uaimh thalún, imfhálú eaglasta, tulach, grúpa cloch (*Carrignabeast*), córas páirceanna, caiseal, conair agus dhá fhulacht fia. Rinneadh cur síos ar an séipéal i 1845: 'The parochial church, a plain but comfortable building, capable of accommodating 150 persons, is situated in a deep hollow near the southern extremity of the plains of Boyle, of which this parish is considered to be the limit' (D'Alton, i, 85) agus ní mhaireann anois ach fothrach an tséipéil sin.

Leagan truaillithe thar a bheith spéisiúil is ea Estersnow atá ina ainm baile fearainn agus ainm paróiste. Is í céad mhír an ainm seo ná *díseart* 'solitary place, hence retreat, asylum, hermitage' (*DIL* sv. *dísert*) nó "a 'desert'; a secluded retreat" (*Dinneen*). Faightear leaganacha béarlaithe den fhocal *díseart* mar *Dysart*, *Desert*, *Desart*, *Deeshart* agus *Disert* i dtuairim agus 30 áit sa tír; féach mar shampla An Díseart (*BLÉ* 34001) i gContae Lú. Tá sé le fáil mar mhír thosaigh freisin in ainm an pharóiste Díseart Gailine (*BLÉ* 1434) i gContae Laoise agus ina mír thánaisteach in bf Cill an Dísirt (*BLÉ* 6973) i gContae an Chláir. Cuir 57 thuas i gcomparáid leis an bhfuaim chéanna | **aiser** | atá léirithe i bhfoirm bhéarlaithe ainm an pharóiste Isertkelly (*BLÉ* 1011) i nGaillimh.

Maidir le haois na heiliminte, áitíonn Joyce go mbaintear úsáid as an téarma i gcomhthéacs eaglasta 'to denote a hermitage, such secluded spots as the early Irish saints loved to select for their little dwellings; and it was afterwards applied to churches erected in those places (1869, 1875, 1913: i, 324-5). Measann Hughes go mbaineann roinnt de na láithreacha eaglasta seo le scaipeadh gluaiseacht aiséiteach na gCéilí Dé san 8ú agus sa 9ú haois (1991: 137)⁴¹⁹ ach tá na láithreacha seo teoranta do dheisceart na tíre amháin (Flanagan, 1984: 35-6). Maíonn Flanagan nach bhfuil trácht ar na suíomhanna suntasacha *díseart* sna hannála roimh an 9ú haois, rud a léiríonn, dar léi, nach mbaineann an téarma go forleathan le tús ré na Críostaíochta in Éirinn (*ibid.*).

⁴¹⁹ Is cosúil go bhfuil an tuairim seo bunaithe ar Kenney, J.F., 1929. *The sources for the early history of Ireland : an introduction and guide*. New York: Columbia University Press: 468.

De réir Flanagan; áit a bhfuil comhthéacs luath den eilimint *díseart* againn, is minic a bhíonn ainm pearsanta mar cháilitheoir aici (*ibid.*) agus i gcás Estersnow, is é an t-ainm pearsanta *Nuadha* atá sa dara mír. Bhí Nuadha i gceannas ar an bpobal eaglasta in Ard Mhacha agus tá sé aitheanta le tuaisceart Ros Comáin ó thús an 9ú haois.⁴²⁰ Maidir leis na foirmeacha Gaeilge den ainm atá liostaithe thuas, is cinnte gur comhdhéanamh *Nuadu* + foirceann déadach + *-án* (Nuad-at-án/Nuadh-ad-án) atá ann agus é giorraithe go dtí Nuadh-d-án/Nuadhán (Ní Dhonnchadha, 2009b). Tá féilte luaite le Nuadha ar 19 Feabhra agus 3 Meán Fómhair i bhféilirí na Naomh (Ó Riain, 2011: 517). De réir Uí Riain, bhí Nuadu ar an duine deiridh de *heres Patricii* a tháinig ó Chúige Connacht agus bhí ról faoi leith ag Nuadu i gcur chun cinn dlí darbh ainm *Lex* nó *Cáin Darí* maidir le gadaíocht beithígh (1994: 33-5) agus samhlaíonn Ó Riain nasc a bheith ann idir iarrachtaí Nuadu é féin a chur chun tosaigh mar chomharba ar Ard Mhacha agus na himeachtaí atá leagtha amach i *dTáin Bó Cúailnge*.

Maidir le leagan béarlaithe ainm an bhaile fearainn seo, bhí an méid seo le rá ag Seán Ó Donnabháin:

‘What an extraordinary corruption *Easter-Snow* is for Disert Noone! It is written Ath Dhísirt Nuadhain... and now very corruptly Tirs Nuadhain... In Meath they corrupt *Disert* to *Ister* by a fair (dichnedh and) metathesis, but *here* (in Moylurg) it is mangled to *Tirs* in Irish and *Easter* in the anglicising... But there is no accounting for (the) freaks of custom’ (Herity agus McGuinness, 2010: 72-3).

Tá séadchomhartha náisiúnta *Carrignabeast* (NMS RO010-015) suite in oirthuaisceart an bh seo ach bhí an chuid seo den bh in Knocknabeast ar *LSO1*. Tagraíonn Ó Donnabháin don traidisiún áitiúil a bhaineann leis na carraigeacha seo i Litreacha na Suirbhéireachta Ordanáis.⁴²¹

⁴²¹ ‘The only tradition connected with St. Patrick in this neighbourhood is that he turned two serpents into two (large) stones which are still to be seen on the hill of Ardéash in the parish of Ardcarra. They used to leap from hill to hill and devour every one they met, and when St. Patrick was passing thorough Moylurg, he was desired not to pass in the direction they used to frequent, but that man of God who was neither afraid of the Devil (himself) nor of his satellites, passed that way with real Christian fortitude and encountering with two deamons in the shape of two serpents, succeeded in transubstantiating their spiritual and assumed corporeal essence into stone!’ (Herity agus McGuinness, 2010: 71).

Is cosúil go dtagraíonn an t-ainm seo don talamh ard c. 108m ar airde i dtuaisceart an bhaile fearainn. Tá an eilimint *corr* ‘tapering, cuspidated, peaked, pointed, jutting out or up, swelling’ (*DIL* sv. 1*corr* II) cáilithe anseo ag an ainmfhocal firinsneach *gabhar* ‘o,m. a goat’ (*DIL* sv. 1*gabor*). ‘Situated on the W. boundary of the parish. It is bounded on the N. and W. by the parish of Killnamanna on the S. by Cornaveagh; on the E. by the parish of Killcola. In possession of the King family in 1641... This townland contains 528 acres, of which 84 acres are cultivated and 444 acres of bog... A stream from the parish boundary runs through this townland and into the Breedogue river. A road passes through it leading to Boyle. There is no farm houses, what is are chiefly mud. Nothing remarkable to be observed here only a small Lough on the N. boundary called Loughawn’ (AL). Sreabhann Abhainn Fhionasclainn trí lár an bhaile fearainn seo.

Is dócha gur eascair ainm an bhaile fearainn seo ó ainm na habhann – ainm ar forbairt é ar an bhfocal *ineasclann* ‘o, a torrent, a swift, turbulent stream’ (DIL sv. *inescland*) nó ‘rapid, torrent’ (Ó Dónaill). Is féidir gur cuireadh an foirceann *f* leis an ainm toisc úsáid an ghinidigh i gcás ainm na habhann .i. **Abhainn an Ineasclainn* > *Abhainn an Fhionasclainn* > *Abhainn Fhionasclainn* an lae inniu (Féach 'Systematic Changes' le Joyce, 1869, 1875, 1913: i, 29), ach faraor níl aon fhianaise stairiúil againn d’ainm na habhann. Measann Mac Giolla Easpaig (1981: 156), áfach, gur *Eni-Sesko-Landa ‘land in the sedges’ atá i sanasaíocht an fhocail seo agus féach Dinnseanchas (1972):

‘Rinneamar scrúdú ar na háiteanna sin ar fad [den ainm Dromiskín srl.] agus dá thoradh tá an-amhras orainn faoin mbrí atá curtha síos don fhocal ... Níl, agus ní mheasaimid go mbeadh ag aon am, sruth luath ná tréan in aon cheann acu. ... Tá, nó bhí, roinnt bogaigh nó portaigh i ngach ceann acu agus, má tá cúrsaí uisce i gceist leis an bhfocal, b’fhéidir gur rud den sórt sin a chiallaíos sé’ (1972: 61).

Is talamh bogaigh ar fad atá i dtuaisceart agus i ndeisceart an bhaile fearainn seo mar is léir ó haerfótagraif den cheantar. Is cosúil mar sin gur eascair *ineasclann* ó na heilimintí *in* + *seisc* + *lann*. Feach freisin Ó Cearbhaill, 2010: 133-4.

Faightear leagan neamhspleách den ainm Fionasclainn mar Finisklin in *Ga, Li, Sl*, Finisclin i *RC* (BLÉ 42903), Finnisglin (BLÉ 18048) i nGaillimh agus Finiskil (BLÉ 30062) i gCo. Liatroma agus tá dáileadh Connachtach ag an eilimint seo don chuid is mó. Féach bunfhoirm an fhocail in bf Inisclan i bparóiste an tSraitha Bháin Uachtaraigh i dTír Eoghain. Tá an eilimint seo le fáil mar cháilitheoir i ndornán beag

and unite here they fall into the boundary of Cloonshanaughane. There is nothing remarkable to be seen in this townland' (*AL*). Tá dhá ráth sa bhaile fearainn seo suite ar barr *Mullaghdoe* atá luaite thíos.

Is é an rannán talún *trian* 'o,n., later also m.... third part; applied to towns etc., district, quarter' (*DIL* sv. *trian* (a)(d)) mír thosaigh an ainm seo, cáilithe, is cosúil, ag an bhfocal iasachta déanaí *marla* 'm. marl (clay)' (*DIL* sv. *marla*) nó 'marl, a kind of rich clay; *m. buidhe*, yellow subsoil' (*Dinneen* sv. *már*la). Féach an leagan neamhspleách i mbailte fearainn Marley or Knockduff (*BLÉ* 3601) i gCeatharlach; Marley (*BLÉ* 21762) agus Marlay (*BLÉ* 20542) i nGaillimh agus Marley (*BLÉ* 52616) i Loch Garman ach sa chuid is mó díobh seo is aistriúcháin déanacha iad ar an leagan Béarla den fhocal. Is aistriúchán ar an mBéarla freisin iad an dá Marlhill (*BLÉ* 48045; 47717) i dTiobraid Árann agus Marlbrook (*BLÉ* 30709) i Luimneach. Níl ach méid beag (<18 sampla) d'ainmneacha bailte fearainn sa tír ina bhfuil an focal *marla* le fáil agus níl ach c. 9 sampla den fhocal a bheith ina mhír dheiridh i logainm.⁴³⁴

D'fhéadfadh gur leagan fíréanta é *Trian na Marbh-laogh* 'third of the still-born calves' atá ag Mac Fhirbhisigh i bhfoirm 11 thuas den fhocal *marbh-* 'in *comps.*, dead-, necro-, still-born' (*Dinneen*) agus *lao* 'a suckling or very young calf' (*Dinneen* sv. *laogh*)⁴³⁵ ach b'ait *lao* a bheith in úsáid sa cheantar toisc go bhfaightear an focal *gamhain* níos minice in ainmneacha an cheantair staidéir (féach Carrigeenagowna agus Cloongownagh). Níl taifead den fhocal *lao* sa cheantar seo i *LASID* i, lch. 6 nó ag Henry (Henry, 1957: 222). Bainteach ar bhealach leis an mbrí ainmhíoch seo; tá an focal *már*la/*marla* 'a weak or puny person or beast; a diminutive sheep; a lamb, calf, etc., prematurely born' (*Dinneen*) ann freisin.

De bharr an *t* atá teastaithe i bhfoirmeacha 1, 3, 4, 6, 8, 10 thuas, níor mhiste an focal **martraí* mar atá, seans, i Martry (*BLÉ* 6660) i gCo. an Chláir a áireamh anseo; rud a thacódh le **Trian na Martraí* mar bhunfhoirm ar ainm na háite seo. Is deacair a rá cad is brí leis an bhfocal seo ach féach mar atá ag Ó Donnabháin i gcás Martry (*BLÉ* 42824) Ros Comáin agus Martry (*BLÉ* 38226) i gContae na Mí áit a bhfuil "Martraidh(e), 'a place where people were slaughtered'" aige ón bhfocal

⁴³⁴ Mar shampla Carrowmarley (*BLÉ* 36206); Gortawarla (*BLÉ* 37096); Pollawarla (*BLÉ* 35586) i Maigh Eo; Pollawarla (*BLÉ* 21317) i nGaillimh; Gortamarle (*BLÉ* 43670) i Ros Comáin; Poll an Mharla (*BLÉ* 47560) i dTiobraid Árann; Poulmarl (*BLÉ* 54473) i Loch Garman.

⁴³⁵ Féach cúrsaí foghraíochta '*mairbh-leanbh* (*pron. mara-l.*), a still-born infant... *marbh-uan* (*pron. maruan*), a still-born lamb' (*Dinneen* sv. *marbh-*).

martra ‘iā, f., (< Lat. *martyrium*, influenced by O.Ir. *martar*’) martyrdom; coll. relics (of saints or martyrs), somet. burial-place or tomb of a saint (*DIL* sv. *martrae* (a)(c)) nó ‘martyrdom; relics (of a martyr, saint)’ (*Ó Dónaill*). Féach áfach, go bhfuil an *t* léirithe i bhfoirmeacha a tháinig ó fhoinsí gaolmhara (*Inq.* agus *CPR*) agus is dócha mar sin gur botún a bhí á chóipeáil ó fhoinse amháin go ceann eile atá sa *t* sin san fhocal deiridh. Ag brath ar an bhfianaise stairiúil thuas, ní dócha an sloinne Ó Mearlaigh a bheith i gceist anseo, mar atá i gCoill Ó Mearlaigh (*BLÉ* 40905) i gCo. Mhuineacháin. Is féidir mar sin gurb iad *Trian na Marbhlaio* nó *Trian na Marlaí* na bunleaganacha Gaeilge d’ainm an bhaile fearainn seo.

around the town of the same name, extending from Lough Gara to Lough Key, and N. and S. of the river between these lakes which divides into two nearly equal parts' (AL). Aithnítear 72 baile fearainn faoi leith i bparóiste Mhainistir na Búille in *BLÉ* agus tá Mainistir na Búille ar an bparóiste is mó sa bharúntacht ó thaobh líon na n-acraí de. De réir a bhfuil ráite ag D'Alton thuas, bhí 68 baile fearainn sa pharóiste ach áirítear na hoileáin ar Loch Cé mar bhailte fearainn faoi leith sa *General Alphabetical Index to the Townlands and Towns, Parishes and Baronies of Ireland* (1851), rud a fhágann 72 baile fearainn againn. Tá cuid bheag de bh Rockingham Demesne laistigh den pharóiste seo freisin ach déantar an baile fearainn sin a áireamh faoi pharóiste Ard Carna. Mar thoradh air seo, pléitear 71 ainm baile fearainn san iomlán i bparóiste Mhainistir na Búille sa saothar seo.

Tá féarach saibhir i ndeisceart an pharóiste agus is ann atá 'Machairí na Búille' (c. 100-150m ar airde) suite. Íslíonn leibhéal na talún as seo i dtreo abhainn na Búille agus tá crios dromainní (80-100m ar airde) scaipthe ar an taobh ó dheas den abhainn. Corrach íseal (40-50m ar airde) atá sa talamh ar an taobh thoir de bhaile Mhainistir na Búille i dtreo Loch Cé agus is ceantar ard sléibhtiúil atá i dtuaisceart an pharóiste, áit a bhfuil An Corrshliabh (240m ar airde) suite. Tagann athrú suntasach ar thopagrafaíocht an pharóiste sa tuaisceart agus faightear crios droimní mar atá i dtuaisceart Ard Carna sa chuid seo de Mhainistir na Búille. Áirítear codanna de *Loch Cé, Cornacarta Lough, Black Lough, Derrywana Lough, Lough Arkedy, Loughangrania, Lough Arrow, Lough Gara Lower* agus is iad *An Bhúill* agus *Easky River* príomhaibhneacha an pharóiste. Trasnaíonn seacht ndroichead an Bhúill ó *Lough Gara* soir go dtí *Loch Cé*.

Maidir le suíomhanna seandálaíochta de, tá an líon is mó díobh le fáil i mbailte fearainn Erris, Carrickmore, Knockadoobrusna agus in Knocknashee. Tá tuama ursanach (ó 3800 go 3200 BC) in bh Drumanone in iarthar an pharóiste agus i mbaile Mhainistir na Búille féin tá an mhainistir Chistéirseach cois Búille (ón 12ú haois) agus *King House* (ón 18ú haois) ann agus faightear láithreacha eaglasta Church Island (11ú haois ar a laghad) ar Loch Cé, *Eas Mac nEirc/Eas Uí Fhloinn* (6ú haois) in Mocmoyne, *Templenadriney Church* in bh Erris agus láthair eaglasta eile in Warren or Drum (14ú haois ar a laghad) in aice láimhe (Moore, le foilsíú). Tá suíomh luíocháin Chath an Chorrshléibhe (16ú haois) suite in oirthear an Chorrshléibhe.

Ainm barúntachta, paróiste agus baile atá i Mainistir na Búille ach níl aon bhaile fearainn den ainm seo. Pléitear ainm na habhann faoi **Logainmneacha Ábhartha Eile** thíos.

Farnochtaigh*‘bare hill’*

Bunaithe ar shuíomh an ainm seo in *JM RC*, is cosúil go raibh an rannán talún seo suite c. G 819 097 in iarthuaisceart an bhaile fearainn. Ní féidir ciall an ainm a rianadh go héasca ach is féidir gurb é an focal *farnocht* ‘o-ā bare, naked’ (*DIL*), áit a bhfuil an réamhfhocail *for* ‘on, upon, expressing both

contact and relative position (over, above); of approximate position juxtaposition. on, at, by' (*DIL* sv. 1for I (a)(b)) móide *nocht* 'o, ā. naked, bare, uncovered' (*DIL* sv. 2*nocht*). Tá bailte fearainn den ainm Farnagh(t) i Liatroim (*BLÉ* 29295), i nGaillimh (*BLÉ* 20669) agus i Maigh Eo (*BLÉ* 37580).

Tá c. 12 acra d'uisce ag an loch seo atá litrithe go míchruinn mar *Lougharkedy* ar Isc. *Discovery*. Eascraíonn an botún seo ó smúiteán atá le feiceáil ar an -n- i lár an fhocail ar *LSO3*. Ní féidir brí an ainm a chinntiú ceal fianaise eile ach ag brath ar an bhfianaise atá san Ainmleabhar, is féidir gurb é an t-ainm pearsanta *Céadach* 'Possibly... somebody who counted his wealth in hundreds' (Ó Corráin agus Maguire, 1990: 50) atá mar cháilitheoir ag leagan díspeagtha an fhocail *loch* .i. *lochán*. Níor mhiste leagan iolra an ainmfhocail *céadach* 'ā, f. mantle' (*DIL* sv. 3*cétach*) a chur san áireamh anseo freisin ach ní shamhlóinn úsáid an fhocail sin sa chomhthéacs topagrafach seo. An féidir, áfach, míniú níos simplí a mholadh, áit go bhuil *céide* 'flat-topped hill; place of assembly' (Ó *Dónaill*) ina cháilitheoir ar an bhfocal *loch*? Tá cnocán c. 90m ar airde le barr réidh ar bhruach thiar an locha agus is féidir gurb é seo an *céide* atá luaithe san ainm.

Chiefly rocky pasture and 22 acres of bog and one acre of water... There are a few good farm houses on this townland and is traversed in different quarters by several roads, nothing more particular to be observed' (*AL*). Tá ráth amháin (*NMS RO005-019*) i ndeisceart an bh suite ar dhroimín beag ag G 781 021.

Ainm thar a bheith spéisiúil atá in ainm an bhaile fearainn seo. Níl rian den ainm Ballylugnagon roimh an 18ú haois sna foinsí a cíoradh. Thángthas ar leaganacha stairiúla áfach, do rannán talún darbh ainm *Lugnagon* a bhí suite i ndeisceart bh Leam nó in oirdheisceart Behy níos faide ó dheas sa pharóiste seo. Léiríonn na samplaí is luaithe atá againn thuas go raibh *Balure/Boilure/Balloor* mar ainm an bh seo agus faightear rannáin eile faoin ainm seo sna foinsí sin. Tugtar *Ardagh* ar dheisceart an bh agus *Cashel* ar an tuaisceart ar *LSO3* agus luaitear na rannáin sin mar fho-aicme de bh *Balloor* i leabhar cheaproinnt na ndeachúna.⁴⁴³ Tá *Boilure* (.i. *Balloor*) léirithe in *JM RC* in oirthear Ballylugnagon agus in iarthar

Mocmoyne agus léirítear rannán/ainm an tigh *Milmount* i ndeisceart an bhó dheas de *Ardagh* cois abhann. Tá foirmeacha luatha an ainm seo tearc go leor ach is cosúil ón dá fhoirm atá againn gurb iad na focail *baile* agus *úr* ‘fresh, new, recent; *baile úr*, a new town’ (*Dinneen*) atá anseo. Féach mar shampla bailte fearainn Ballure (*BLÉ* 45121) i Sligeach, Balloor (*BLÉ* 37357) i Maigh Eo.

Níl aon fhianaise luath den ainm Ballyluggan a bheith tugtha ar an áit seo. Má ghlactar le fianaise an tSuirbhéara Teorainn, is é an t-ainmfhocal *baile* atá chun tosaigh anseo, agus é faoi réir ag an bhfocal *log* ‘hollow, pit, ditch; burial place, grave’ (*DIL* sv. 1*loc* II) móide gin. iolra an fhocail *cú* ‘n, m., later also f. dog, hound; wolf’ (*DIL* sv. 1*cú* (a)(b)). Tá *log* (.i. ísleán) in oirthuaisceart an bhaile fearainn agus is féidir gurb é seo an *log* atá luaite san ainm. Féach ainm den struchtúr céanna in bh Luggan < **Log* na gCon (*BLÉ* 29070) i gCo. ‘Situated in the S. part of the parish and is bounded on the W. by Ballymore West and on the N by same; E. by part of Grangebeg and Ballybane and Leam; S. by Beaghy. Bishop’s Land. This townland contains 395 acres and chiefly in a high state of cultivation and 3 acres of wood... There is a good mansion 2 stories high formerly the residence of the late Rev. Elwood now in possession of his sons. There is nothing particular to be observed in this townland’ (*AL*). Tá ceithre ráth i dtuaisceart an

bhaile fearainn seo agus caiseal san iardheisceart. Léirítear an t-ainm *Fordstown* c. M 786 980 i ndeisceart an bhaile fearainn seo in *JM RC*.

D'aithnítear Ballymore East agus Ballymore West faoin ainm *Ballymore* go dtí aimsir na Suirbhéireachta Ordanáis is cosúil agus mar sin, pléitear an t-ainm Ballymore East faoi Ballymore West thíos. Ní raibh an t-ainm Corbally ag muintir na háite i 1988 nó i 2011. Tá taifead den ainm malartach Corbally ón 17ú haois i leith agus is éard atá ann ná an focal *corr* ‘tapering, cuspidated, peaked, pointed, jutting out or up, swelling’ (*DIL* sv. 1*corr* II) nó ‘odd; tapering, pointed; round, curved’ (*Ó Dónaill* sv. 5*corr*) ina mhír thosaigh ar an bhfocal *baile* ‘a town, a village, a home; a townland’ (*Dinneen*). Ní léirítear séimhiú ar an dara mír sna foirmeacha luatha agus de réir Muhr: ‘unlenited *b* regularly appears in anglicized forms’ (1996: 196-7) agus dar léi ní léir brí an ainm go cinnte. Féach tráchttaireacht McKay sa tsraith chéanna áfach, áit go maítear:

‘The element *corr* could possibly signify ‘odd’ in the sense of ‘prominent’ or, perhaps, ‘remote’. Again, since one of the meanings of *corr* is ‘smooth/rounded’, it is possible that An Corbhaile may signify ‘smooth townland or farmstead’, referring to the contours of the land’ (1995: 176)

agus is féidir gurb í an bhrí sin atá i gceist anseo. Féach freisin an chiall ‘noticeable’ molta i *Logainmneacha na hÉireann: Contae Luimnigh* (1990: 141). Tá 66 baile fearainn in Éirinn den ainm Corbally nó Corbally móide iarmhír cosúil le *More, Beg, East, West* srl.

Mhainistir na Búille. Luaitear *Tullogh* mar ainm malartach ar bhaile Mhainistir na Búille i bhfoirm 6 thuas. Tugann Isc. eastáit *Hogan* ó 1724 le fios go dtugtaí *Easkey* ar bhailte fearainn Bellspark agus Lowparks sa tréimhse sin. Is féidir gur máistriú nó míléamh ar an bhfocal *bulwark* ‘A substantial defensive work of earth, or other material; a rampart, a fortification’ (OED) atá in Bellspark. Ní léir teaghlach den sloinne *Bell* a bheith ina chónaí sa cheantar seo ach an oiread. Pléitear fianaise stairiúil an ainm *Tulach* faoi Lowparks thíos.

‘Situating in Lough Key E. of Taunytakin and N. of Erris... It is of no importance. Was fix'd for the use of a Trigonometrical station [point]’ (*AL*). Tá an ceart ag an méid atá ráite san Ainmleabhar faoin oileán seo ach amháin go meastar crannóg (*NMS RO006-035*) a bheith suite ann (Moore, le foilsiú). Níl anseo ach oileáinín beag de thrastomhas c. 19m nó mar sin atá suite in iarthar Loch Cé. Is féidir go bhfuil an t-oileáinín ainmnithe as George Bingham a bhí mar Ghobharnóir Shligigh timpeall na bliana 1596 a shocraigh faoi bhealach nua a dhéanamh tríd an Chorrshliabh. Tá seanchas éigin a bhain leis an oileán seo agus *Cailleach na Carraige* teastaithe ag Ó Donnabháin i Litreacha na Suirbhéireachta Ordanáis.⁴⁴⁸

⁴⁴⁸ ‘In the angle of Lough Key, where it receives the Upper River Boyle, there are 3 trees growing upon very small islets called the *Hag's leaps*, and the legend connected with *Cailleach na Carraige* states that when she was departing from the *Rock*, she leaped from the one to the other (of these islets), before she reached the land, and in (each) spot touched by her feet a tree sprang up which vegetates in full bloom to this day!’ (Herity agus McGuinness, 2010: 75).

fennóc) nó ‘a Royston or scald- (hooded-) crow’ (*Dinneen*). Is minic a bhíonn *feannóg* i bhfolach i leaganacha béarlaithe mar *finnog* nó *finnoge*. (Finnog < Fionnóg < Feannóg). Tirfinnog < Tír Fheannóg (*BLÉ* 40916) i gCo. Mhuineacháin agus in Carrownafinnoge < *Ceathrú na Feannóige (*BLÉ* 21061) i gCo. na Gaillimhe. Tá an chosúlacht ar fhoirmeacha 12 agus 13 gur léirú iad ar na focail *Caiseal an Fhiaigh* .i. ginideach u. an fhocail *fiach* ‘raven’ (*Ó Dónaill*) a bheith mar dara mír. Léiríonn *Isc. Hogan* gurb ionann oirthear Ballytrasna an lae inniu agus Cashelfinoge agus go raibh Lugnamuddagh féin suite i dtuaisceart an bhaile fearainn seo in aice le bailte fearainn Warren or Drum agus Greatmeadow. Tá imfhálú féideartha suite ag G 814 010 in oirthear Ballytrasna (Moore, le foilsíú).

Maidir leis an ainm Lugnamuddagh, is é an focal *log* ‘hollow, pit, ditch; burial place, grave’ (*DIL* sv. 1*loc* II) atá ann, móide leagan ginideach iol. den fhocal *bodach* ‘o, m. serf; rustic, peasant’ (*DIL* sv. *botach*) nó ‘a clown, a churl’ (*Dinneen*). Tá an *b* uraithe caomhnaithe i bhfoirmeacha 1, 3, 4, 6-10. Tá *log* suntasach sa talamh le fáil ag G 817 015 in oirdheisceart an bhaile fearainn seo agus íslíonn an talamh i dtuaisceart Letsfordpark freisin a d’aithníte mar Lugnamuddagh ar *Isc. Is é *dumha* ‘mound, tumulus, barrow... *dumae crainn* ‘mound of a tree’, (i.e. with a tree planted on it? used as a meer or boundary-mark); By extension heap, pile’ (*DIL* sv. *1duma*) an mhír thosaigh anseo. Is dócha go bhfuil leagan den fhocal *mias* ‘a flat board or slab, a table; a tray, platter or dish; a flat dish or platter’ (*DIL* sv. *mias* (b)) ina cháilitheoir. Míniú is ea sin a thagann leis an seanchas faoin áit atá caomhnaithe san Ainmleabhar thuas, áit gur ith na manaigh a mbéile deiridh anseo agus iad díbeartha ag Clann Mhic Dhiarmada ó Mhainistir na Búille. ‘Situating in Lough-Key E. of Taunytaskin... This island contains 4 acres has the ruins of an old church and is planted. It was used some [years] ago as a burying place but is dis-continued’ (*AL*). Tá an t-oileán seo suite c. 250m ó bhruach an locha ag Tawnytaskin. Tá scrín naoimh (*NMS RO006-006002*), fothraigh na mainistreach (*NMS RO006-006001*) agus cillín (*NMS RO006-006003*) le fáil ar an oileán.

Suíomh eaglasta luath atá anseo dar le Moore (le foilsíú) cé nach bhfuil tagairtí nó stair luath taifeadta faoi. De réir Archdall, bhunaigh Naomh Colm Cille an láthair eaglasta luath seo sa 6ú haois ach tugann sé eolas míchruinn faoi shuíomh an oileáin cé go gceartaíonn sé Colgan a rinne ionannú idir an áit seo agus suíomh luath *Eas Mac nEirc* atá suite ar abhainn na Búille féin (1786: 90). Tháinig an phríóireacht faoi riail Agaistín Naofa am éigin san 12ú haois agus tá bás Mhuireadaigh Uí Ghormghaile taifeadta sa bhliain 1229 agus bás Mhaol Íosa Mhic Dhónaill Uí Ghormghaile i 1234. Is cosúil gur tháinig deireadh le húsáid an tsuímh roimh dheireadh an 16ú haois (Gwynn agus Hadcock, 1970: 179) ach tagraíonn Ó Donnabháin i 1837 den chillín a bheith in úsáid roinnt blianta sular tháinig seisean chun an cheantair.

Is é an focal *inis* ‘an island’ (*Dinneen*) atá sa chéad mhír anseo agus é cáilithe ag leagan ginideach iol. an fhocail *mac* ‘o, m. A son; Folld. by a gen. or adj. *mac* is often used to form masc. proper names, or sobriquets’ (*DIL* sv. *1macc* I, IV) i bhfoirmeacha 1-38, 40 móide an t-ainm pearsanta Eirnín > Éirín (*LMG* ii 772 §739.2)? Léiríonn na foirmeacha éagsúla thuas aistriú idir *mac* agus *mhic* (atá léirithe i bhfoirmeacha 22, 23, 27-36 go háirithe le ‘-vi-’ ach tá leaganacha éagsúla de i bhfoirmeacha 18, 24 agus 26 freisin.

De réir Uí Dhonnabháin, is é an t-ainm pearsanta **Duach* atá ina cháilitheoir ar an eilimint *druim* anseo agus soláthraíonn sé an fhoirm Ghaeilge ‘Druim Dhua’ mar a bhí ag muintir na háite in aimsir na Suirbhéireachta. Díol spéise go bhfuil an t-

ainm pearsanta *Dauí* (> *Duí*; gin. *Duach*) teastaithe i scéala báis Rí Chonnacht i gCath Seghais a tharla, de réir an tseanchais, sa cheantar lastuaidh den Bhúill timpeall an Chorrshléibhe.⁴⁷⁸ Féach Baile Duach (*BLÉ* 47807) i dTiobraid Árann.

Níor mhiste leagan eile Uí Dhonnabháin a chur san áireamh anseo, áit a bhfuil ‘Druim dubha’ scríofa i bpeann luaidhe san Ainmleabhar, b’fhéidir, a léiríonn an fhoghraíocht áitiúil a bhí ar an ainm seo in aimsir na Suirbhéireachta. Is féidir mar sin gurb í an aidiacht *dubh* ‘black, extremely dark or gloomy, swarthy’ (*Ó Dónaill* sv. *dubh*3) atá mar cháilitheoir a d’fhéadfadh a bheith léirithe i bhfoirmeacha 10, 11, 16. Nó d’fhéadfadh an focal *dumha* ‘io, mound, tumulus, barrow’ (*DIL* sv. *duma*) a bheith anseo. Maidir le *dumha*, maíonn Joyce: ‘...it is not easy to separate this word from *dubh*, black, and *dumhach*, a sand-bank’ (1869, 1875, 1913: i, 337) fós féin tá an focal *dumha* coitianta go leor sa pharóiste seo, sa deisceart go háirithe. Tugtar *Doo* ar an móta atá suite ag G 805 094 ar *LSO2* agus is féidir gurb é seo nó suíomh an tigh dhaingnithe féin atá i gceist leis an bhfocal *dumha* san ainm seo. The road from Boyle to Roscommon runs along the west side of it... This townland contains 240 acres all of which is cultivated... There are some groups of indifferent houses on this townland, but none that could be properly called farm houses. The road from Boyle to Croghan forms its W. boundary. There is an old fort to be seen here. Nothing more remarkable’ (*AL*). Tá an dá bhaile fearainn seo suite ag deisceart ‘Machairí na Búille’ in oirdheisceart an pharóiste. Is cosúil nach raibh scoilt sa bhaile fearainn, idir mór agus beag, go dtí an 18ú haois (12, 13) agus mar sin, cruinnítear na foirmeacha stairiúla go léir le chéile thuas. Beg.⁴⁸⁵ Tá 240 acra in Grallagh More agus 120 acra in Grallagh Beg. Tá dhá dhíog fháinneacha agus feart fáinneach in Grallagh More agus tá caiseal (*NMS RO010-007*) in Grallagh Beg.

Is dócha gurb é an focal *greallach* ‘ā.f. swamp, bog, loamy land, mire’ (*DIL* sv. *Igrellach*) nó ‘clay, loam, mire; ground beaten or trampled on’ (*Dinneen*) atá san ainm anseo agus déantar na cáilitheoirí *mór/beag* agus ‘north/south’ a cheangal leis i gcuid de na foirmeacha déanacha. Tá bailte fearainn den ainm seo le fáil timpeall na tíre, i nGaillimh, i Maigh Eo, i mBaile Átha Cliath, i bPort Láirge agus i dTiobráid Árann (*BLÉ*). Féach freisin plé ar an ainm Grallaghgreenan i gCo. Aontroma (Muhr, 1996: 164-5). Bíodh is go bhfuil an dá bhaile fearainn seo aitheanta mar chodanna de ‘Machairí na Búille’, tá talamh fliuch léirithe i lár Grallagh Beg ar *LSO1* agus *LSO2* agus freagraíonn an talamh fliuch seo do bhuncharraig aolchloiche atá gar do dhromchla na hithreach i lár an bhaile fearainn mar atá léirithe ar an léarscáil fhoithreach. Dar le *Áit.-FT* aithnítear an dá bf faoin ainm Grallagh anois (36).

Is é an focal *gráinseach* 'ā.f. a grange, a granary' (DIL sv. *gráinnsech*) atá mar bhuneilimint anseo agus é cáilithe ag an aidiacht *beag*. Maidir leis an bhfocal *gráinseach* i logainmneacha na hÉireann i gcoitinne, de réir Flanagan agus Flanagan, d'fhorbair an focal ón "Norman-Franch *grange* and means 'grange, monastic farm... It occurs frequently in place-names... It refers to a land-unit, generally a townland, held as farmland (not necessarily solely for the production of cereals) by a monastic house of the twelfth century or later" (2002: 96). 'Situating in the N.W. corner of the Parish and is bounded on the N.E. and W. sides by Killaraght Parish and on the S. by Lough Garrow and the townland of Teivanagh... This townland contains 205 acres of which 120 acres are cultivated, 16 acres are uncultivated and 69 acres of bog... There are no farm houses on the townland; a stone group are occupied by the tenantry. Nothing remarkable to be observed, only an old fort on the south corner contiguous to Lough Gara' (*AL*). Tá ráth amháin (*NMS RO005-022*) i ndeisceart an bhaile fearainn agus ar bhruach Loch Uí Ghadhra. Talamh portaigh atá in iarthar agus in iarthuaisceart an bhaile fearainn.

Leagan iolra an fhocail *coill* 'wood, forest' (*DIL* sv. 1*caill*) agus 'a wood, grove' (*Dinneen*) atá sa chéad mhír anseo. Níl an *t* lárnach leis an iolra a chur in iúl le feiceáil go dtí foirm 5 thuas. Tá dealramh an fhocail *coillidh* ar an gcéad fhocal i bhfoirm 1 agus, b'fhéidir, *cill* 'church, churchyard, cell' (*Ó Dónaill*) in 2-4. I

bhformhór na bhfoirmeacha, áfach, is cinnte gurb é an focal *coillte* atá i gceist agus é cáilithe, is dócha, ag an sloinne Normannach *Breathnach* ‘the Welshman’ (Woulfe, 1923: 231), nó na Breatnaigh (.i. dream ón mBreatain) i gcoitinne. Ní dócha gurb é an sloinne neamhchoitianta *Brannóc* atá anseo in ainneoin go bhfuil an fhuaim sin léirithe i bhfoirmeacha 6 agus 9 thuas. Níl teaghlach de cheachtar sloinne le fáil sa cheantar máguaird i Leabhar Cheaproinnt na nDeachúna nó sna Daonáirimh (1901/1911). Tá an fuaimniú | **kAl** | ar an gcéad fhocal, mar atá léirithe i 6-9, 13 le sonrú go háitiúil go fóill (20, 21). Luaitear iomlán de 182a leis an mbaile fearainn seo agus le rannáin bheaga laistigh do sa *BSD*, méid nach bhfuil i bhfad ó líon acraí an lae inniu.

‘Situating in the S. part of the Parish and is bounded on the N. by Knockacrow; on the E. by Lisserdray and W. by the Parish of Killaraght... This townland contains 108 acres of which 99 acres are cultivated and 9 acres of wood... There are no farm houses on this townland. There is a fine mansion on this townland 2 stories high where the present occupier, Lloyd Esq. resides. Nothing remarkable to be observed’ (AL). Tá feart babhlach suite ar dhroim 108m ar airde i ndeisceart an bhaile fearainn ag G 769 003. Luaitear 52 acra tairbheach sa bhaile fearainn seo sa BSD.

Tá an t-ainmfhocal *cnoc* ‘hill, mound’ (DIL sv. *cnocc* (b)) cáilithe ag an bhfocal *dumha* ‘a cairn or mound’ (*Dinneen*) san ainm seo (Féach Killerdoo thuas). Léiriú is ea an *e/a* lárnach i bhfoirmeacha 3, 5-27 ar an alt uatha. Is cosúil go bhfuil foirmeacha amhrasacha 1 agus 2 cáilithe ag an aidiacht *meánach* ‘middle, intermediate’ (Ó Dónaill sv. *2meánach*). Is fíor go bhfuil an baile fearainn seo níos lú ná Knockadoobrusna ach in ainneoin an méid atá ráite san Ainmleabhar thuas agus i nóta mínithe do Knockadoobrusna sa BLÉ⁴⁹¹, ní dócha an iarmhír *beag* a bheith curtha le Knockadoo riamh. Tugann léarscáileanna eastáit *Hogan, Longfield* agus Leabhar Cheapoinnt na nDeachúna le fios go raibh na míreanna *mór* agus *beag* in úsáid laistigh do bhf Knockadoobrusna féin ag tréimhsí áirithe san 18ú agus sa 19ú haois. Sa bhreis air seo, léirítear an rannán *Knockadoo* a bheith buailte le taobh thiar an rannáin *Knockadoo-bresna* ar léarscáileann *King Har.* ach tá an dá bhaile fearainn seo c. 2.5km óna chéile, rud a léiríonn go mbaintí leas as na hainmneacha **Cnoc an Dumha*, **Cnoc an Dumha Mór* agus **Cnoc an Dumha Beag* do Knockadoobrusna an lae inniu. Déantar an bhf atá faoi chaibidil anseo a lua i dteannta Ardmore agus Knocknacloy go hiondúil sna foinsí stairiúla agus mar gheall air seo, tá cuid de na tagairtí faoi Knockadoo thuas éiginnte.

⁴⁹⁰ ‘There are two doos here very conspicuous’ (OD Nóta); ‘tumuli’ (OD Nóta)

⁴⁹¹ ‘Is é Cnoc (an) Dumha (M(h)ó(i)r) an t-ainm ó cheart (cf. 1619 ‘Knockdownmory’, Calendar of Patent Rolls; ‘Knockdoemore’, Inquisitiones), á idirdhealú seo ar Cnoc an Dumha Beag/Bhig sa pharóiste céanna (.i. an baile fearainn darb ainm Béarla Knockadoo an lae inniu; cf. 1660c ‘Knockadowe or Knockdowe’, Book of Survey and Distribution). Thit an cáilitheoir *mór* as úsáid idir an 17ú agus an 19ú haois agus cuireadh an ginideach cáilíochta *brosna* leis ina ionad’ (BLÉ, 42752).

Tá cnocán 130m ar airde i lár an bhaile fearainn agus is féidir gurb é seo an ghné atá luaite san ainm.

Is ionann céad agus dara mír an ainm seo agus na cinn atá in Knockadoo thuas ach sa chás seo, tá an mhír bhreise againn: *brosna* 'io, m. faggot(s), bundle of firewood, fuel' (*DIL*) agus 'a faggot, an armful of wood; broken wood for firing' (*Dinneen*). Tá cnocán 92m ar airde roinnte idir an baile fearainn seo, Bellspark, Knocknashee agus an chuid thoir de bhf Mocmoyne. Léiríonn *Isc. Ainm abhann agus sráidbhaile atá in *Easky*. Is é leagan ginideach an fhocail *iascach* 'o, ā (*iasc*) abounding in fish' (*DIL sv. 1íascach*) bunainm na háite seo a thagraíonn don abhainn a théann trí lár an bhaile fearainn seo agus isteach sa Bhúill c. 550m lastuaidh den Mhainistir. Is dócha mar sin gurb é *Tulach* a chiallaigh 'Hill(ock), mound' (*DIL*) nó 'low hill, hillock, mound' (*Ó Dónaill*) ainm an chnocáin agus gurb é *Iascaigh* bunainm bailte fearainn Bellspark agus Lowparks, Spa agus Copse.

The ruins of an old church and Grave-Yard called Assylinn. There is a good Farm house on this land, but nothing more than what is above described to be observed’ (AL). Tá an chuid thiar thuaidh de bhaile Mhainistir na Búille suite in oirthear an bhaile fearainn seo agus tá láthair luatheaglasta agus reilig *Eas Uí Fhloinn* suite san iarthar. Talamh réidh agus íseal atá sa chuid den bhaile fearainn atá cois abhann ach ardaíonn leibhéal na talún in iarthar agus i dtuaisceart an bh. Luaitear c. 83a tairbheach leis an rannán seo sa *BSD*. Aithnítear dhá leac chroise, cloch chrosghreanta, reilig, fothraigh séipéil, úrdhún agus feart sa bhaile fearainn seo (Moore, le foilsíú). Liostaítear Mocmoyne i dteannta áiteanna eile sa pharóiste seo a bhí in úinéireacht ab Mhainistir na Búille sna hIonchoisní agus is cinnte mar sin gur tháinig Mainistir na Búille chun tosaigh mar phríomhláthair eaglasta ón 12ú haois ar aghaidh. Níl fágtha inniu ach fothrach an tséipéil ag *Eas Uí Fhloinn* agus drochbhail ar an méid sin féin. Gheofar tráchttaireacht *Eas Uí Fhloinn* faoi **Logainmneacha Ábhartha Eile** thíos.

Ar an gcéad léamh, is cosúil gur leagan den fhocal *magh* ‘a plain, campus or field, a level district’ (*Dinneen*) atá sa chéad mhír anseo. De réir Uí Mhaolfabhail: ‘Tá dhá phríomhchineál logainm ann a mbíonn *má* iontu. Meastar gur sine an cineál... i bhfoirm comhfhocail agus *má* ar an dara heilimint san ainm, ná an cineál ina mbíonn *má* ina aonar chun tosaigh’ agus cáilitheoir ina dhiaidh mar atá againn, is dócha, i gcás an ainm seo (2005: 79). Déantar consan pléascach | **k** | den *-gh* ag deireadh an fhocail *magh* i mbaile fearainn Mackmine < *Maigh Maoin (*BLÉ* 52164) i gCo. Loch Garman. Níl sampla ar bith eile den fhuaim | **k** | a bheith ag *-gh* deiridh na Gaeilge sa taobh seo tíre agus mar sin, is féidir gur sampla eile atá anseo den eilimint *bac* ‘angle, bend, corner’ (*DIL* sv. *1bacc*) nó ‘(of terrain, etc. barrier); bend (in river, etc.)’ (*Ó Dónaill*), mar atá le fáil seans, in bh Macnadille i bparóiste

Chill Abhaicín thuas. Féach An Bac Meánach (*BLÉ* 39294) i gCo. Mhuineacháin agus Cullybackey (*BLÉ* 62935) i gCo. Aontroma.

Is dócha go bhfuil *bac* cáilithe ag an bhfocal *maighean* ‘ā, f., a spot, place in the widest sense; transl. ‘inviolable precinct’ or ‘sanc-tuary’ (*DIL* sv. *maigen* (a)(b)) nó ‘a place; ground, precinct, messuage, curtilage’ (*Dinneen*). Maíonn Ó Maolfabhail go gciallaíonn an focal *maighean* ‘áit’ i gcomhthéacs ginearálta agus ‘achar teoranta talaimh mórthimpeall áras duine’ .i. *tearmann* i gcomhthéacs dlí, ach maíonn sé freisin áfach go gcúngaíonn comhthéacs dlí an ainm a úsáid (2005: 82). Féach an nóta mínithe ‘the ring-fort of the homesteads’ i gcás bf Sycamore Fields or Lisnamaine < *Lios na Maighean (*BLÉ* 5049) sa Chabhán. An féidir go dtagraíonn ainm na háite seo *Bac Maighean don lúb in abhainn na Búille atá ar taobh ó dheas den bf seo, trasna ó bf Termon < *An Tearmann agus an chiall ‘river bend of (the) sanctuary/inviolable place’ ag teacht chun cuimhne?

This well is said to have contained 2 trouts, which were spared by the Fry's of Frybrook, but tradition states that when broiling they escaped, and were seen in the well in the morning! There is nothing more remarkable to be observed in this townland’ (AL). Tá talamh íseal c. 50m ar airde i dtuaisceart an bhaile fearainn agus tá droimnín 100m ar airde sa deisceart. Tá cuid de bhaile Mhainistir na Búille in oirthear an bhaile fearainn. Áirítear leac naoimh, tobar beannaithe agus conair i measc séadchomharthaí an bhaile fearainn (Moore, le foilsíú).

De réir Flangan agus Flanagan, tá an focal *tearmann*⁵⁰⁵ fréamhaithe sa Laidin *terminus* agus baintear úsáid as i logainmneacha na hÉireann chun cur síos a dhéanamh ar ‘the lands of a church or monastery within which the rights of sanctuary prevailed’ (2002: 150). Is cinnte go dtagraíonn úsáid an fhocail seo don láthair eaglasta díreach trasna na habhann ag *Eas Uí Fhloinn* in bf Mocmoyne seachas don mhainistir Chistéirseach in oirthear an bhaile. Tá 25 baile fearainn den ainm Termon/Tarmon (nó *tearmann* móide mír thosaigh/dheiridh) timpeall na tíre agus tá bhformhór suite ar chósta thiar na hÉireann nó sa tuaisceart (O'Connor, 2001: 141).

‘Situating in the N.W. part of the Parish. On the E. and W. sides of the road from Boyle to Gurteen. It is bounded on the N. by Killaraght Parish; on the E. by Drumshanagh and Drumsnore; on the S. by Lough Gara and on the W. by Cuttybranogue... This townland contains 240 acres of which 172 are cultivated, 32 acres uncultivated chiefly rocky pasture... 36 acres of bog... There is a farmhouse 2 stories high, which is going to decay, though being the residence of the occupier... There is nothing remarkable to be seen, only an old fort E. of Teevanagh Farm House’ (AL). Tá an pointe is airde (90m) i lár an bhaile fearainn agus tá caiseal (NMS RO005-011) in oirthear an bhaile fearainn. Íslíonn an talamh i dtreo an iarthair agus léirítear teach *Tivannagh* agus dhá áith arbhair ar *LSOI*.

Is cinnte gurb é an focal *teach* ‘house, habitation, dwelling’ (*Ó Dónaill*) sa tuiseal tabh. atá sa chéad mhír anseo. Níl rian de láthair eaglasta sa bhaile fearainn ná aon bhaint le láthair eaglasta léirithe sna foinsí a cíoradh ach mar sin féin ní féidir an focal *manach* ‘monk, tenant of church land’ (*Ó Dónaill*) a chur as an áireamh anseo. Is féidir gurb é an t-ainm treabhchais *Mainigh* (= Uí Mhaine) atá mar cháilitheoir anseo; ainm a bhí thar a bheith coitianta sa tréimhse luath i measc gaiscíoch fhinscéalach agus teaghlach ríshleachta (*Ó Corráin agus Maguire*, 1990: 132), ag brath ar fhoirmeacha 1, 3, 5, 7, 8 agus 15.

‘This parish contains, according to the recent Trigonometrical Survey, 9,188a. 3r. 13p., of which 971a. 1r. 34p. are covered with water... Its population was returned in 1821 as 3,614 persons; increased, on the return of 1831, to 4,433... The late Census states the total, including the inhabitants of Battle-bridge, as but 4,180. There is no church in this parish, but, on the townland of Tumna are some massy old walls of the ancient parochial edifice, measuring in area about 16 yards by 10, having near it a little chantry, 7 yards by 5; these ruins lie close to the junction of the Boyle water with the Shannon, on a swelling slope, and are surrounded by a grave-yard. The Boyle, at west of this point, expands into a fine sheet of water, encircled by which is an island of 19 acres, called Inchatyra, to which projects, from the Roscommon side, the beautifully wooded promontory of Drumharlogh, part of the Hughstown estate’ (D’Alton, 1845: i, 117-8). Baineann na tagairtí seo a leanas le hainm an pharóiste amháin ach pléitear an t-ainm go mion faoi bhaile fearainn Tumna thíos.

‘Bounded on the North by the Parish of Kilronan; East by the County of Leitrim; South by the Parish of Killukan and on the West by the Parish of Ardcarney, in the Barony of Boyle and County Roscommon’ (*AL*). Tá 51 baile fearainn sa pharóiste seo atá suite ar theorainn thoir na barúntachta agus é roinnte ina dhá leath ag abhainn na Búille agus *Lough Eidin*. Tá idir thalamh feirme arúil agus choillearnacha beaga sa taobh seo den bharúntacht ach b’fhiú a lua go bhfuil difríochtaí suntasacha idir cuid thuaidh agus cuid theas an pharóiste. I gcodarsnacht le tuaisceart Ard Carna, áit a bhfuil go leor droimníní beaga le fáil, faightear roinnt mhaith dromainn fhada (idir 50-86m ar airde) i dtuaisceart an pharóiste, chomh maith le talamh fliuch agus íseal sna corraigh cois Sionainne. Tá an talamh feirme is fearr i ndeisceart an pharóiste go háirithe san iardheisceart sna bailte fearainn atá buailte le paróistí Chill Abhaicín agus Ard Carna. Tá *Cootehall Lough* agus *Lough Eidin* i lár an pharóiste; *Drumdoo Lough*, *Shanballybaun Lough*, *Loughaun* agus *Lough Naseer* sa tuaisceart. Níl ach droichead amháin thar abhainn na Búille sa pharóiste seo agus tá sé sin suite idir Cuilmore in Ard Carna agus Uachtar Thíre i dTuaim Ná. Tá trí dhroichead a thrasnaíonn an tSionainn sa pharóiste: *Droichead Bhéal Átha an Chatha*, *Droichead Hartley* agus *Droichead Dhroim Thairbh*.

Ó thaobh suíomhanna seandálaíochta de, tá an chuid is mó díobh le fáil i lár agus i ndeisceart an pharóiste. Aithnítear créfort mótach de chuid Chlann Mhic Dhiarmada ar oileán Inishatirra i *Lough Eidin* a bhí in úsáid sa 14ú agus sa 15ú haois (O’Conor, 1998: 82) agus tá láthair eaglasta Thuaim Ná suite ar bhruach an locha céanna. Tá dáileadh sách dlúth de ráthanna sa pharóiste go háirithe sna dromainn fada ina lár ach níl mórán láithreacha eaglasta eile ann i ngeall ar láidreachta agus tábhacht Ard Carna i gcúrsaí eaglasta an cheantair seo sa luaththréimhse stairiúil.

Ainm paróiste, baile fearainn agus toghroinn atá i dTuaim Ná agus tá an t-ainm le fáil chomh fada siar leis an 12ú haois sa taifead stairiúil. Tagraítear d'ainm an pharóiste den chéad uair i 1306 i gCánachas an Phápa (*Pap.Tax.* foirm 1 thuas) agus ar bhonn leanúnach ón 16ú haois ar aghaidh. Pléitear ciall fhéideartha an ainm seo faoi ainm an bhaile fearainn ag deireadh na caibidle seo.

Tá baol tuilte sa gheimhreadh sa cheantar cois Sionainne .i. in oirthear agus i dtuaisceart an bh. Léirítear an rannán *Dereenonna* i dtuaisceart an bhaile fearainn in *JM RC* c. G 926 024, chomh maith le dhá rannán eile atá pléite thíos.

Is cosúil gur leagan díspeagtha den eilimint *cleith* 'ā, f. tree-trunk, tree; house-post, stake, pole' (*DIL* sv. 1*cleth* (a)(b)) nó 'a wattle, pole, stake; a fishing rod; a house post' (*Dinneen*) atá anseo. Léiríonn foirmeacha *AL* gur | e: | a bhí sa chéad ghuta i siolla tosaigh an ainm ach níl seo léirithe sna leaganacha stairiúla ná sa leagan áitiúil ón mbliain 2011. Thiocfadh an fhoirm le | e: | ó leagan díspeagtha den fhocal *cliath* 'ā, f. hurdle; Of a house or `les' (see 2*les*) wattle panels of walls, doors or gates; woven fence, palisade, outwork' (*DIL* sv. *cliath*) atá anseo. Ag brath ar na foirmeacha is luaithe áfach, is féidir gurb é an focal *cloch* 'ā, f. *cloch* f. stone, rock; stone (as building etc. material)' (*DIL*) atá mar chéad mhír ach ní thagann an fhoghraíocht áitiúil ná na foirmeacha déanacha leis seo.

Tá cúig ráth ann agus iad go léir suite timpeall ar dhroimín c. 60m ar airde i lár an bhaile fearainn. Tá baol tuilte ón tSionainn sa chuid tuaisceartach agus oirthearach den bhaile fearainn. Bhí an t-ainm *Portland* in úsáid don bhaile fearainn seo freisin i 1988 (foirm 16 thuas).

Cluain ‘meadow, pasture-land, glade’ (*DIL* sv. *clúain*) atá sa chéad mhír anseo. Is ionann an fhoghraíocht áitiúil thuas agus an ceann a bhí faighte ag an Donnabhánach ann i 1837 (foirm 11 thuas), le trí shiolla agus trí ghuta fada léirithe

⁵³⁴ “‘lawn of the little bushes’. Three syllables long and nearly equally accented” (*AL*)

san ainm. Mheas Ó Donnabháin (agus Connellan) gurb é an focal *sgíbhín* ‘little bushes’ a bhí ina cháilitheoir ar *cluain*. Is cosúil go bhfuil an focal *sgíbhín* bunaithe ar leagan díspeagtha den fhocal *sceach* ‘k,f. perh. orig. iā-stem. A thorn bush, whitethorn’ (*DIL* sv. *scé*) nó ‘whitethorn, hawthorn; thornbush, brier, bramble(bush)’ (*Ó Dónaill* sv. *sceach*).

Léiríonn foirmeacha luatha (1 agus 3) ‘-res-’ i lár an fhocail ach tá seo tite ar lár sna foirmeacha eile agus sna foirmeacha foghraíochta 14 agus 15. Is féidir gur léiriú atá sa ‘-res-’ i lár an ainm ar thuisseal gin. an fhocail *ros* ‘o,m. *ros* m. D’fhágfadh sé sin gurb é an t-ainm pearsanta *Caoimhín* ‘beautiful birth, comely child’ (*Ó Corráin* agus Maguire, 1990: 41) atá i mír dheiridh an ainm seo. Féach sampla den mhír ‘-re(s)-’ a bheith tite as feidhm in bf Cloonshaghan i paróiste Dhíseart Nuan thuas. Bíonn claonadh ann laghdú a dhéanamh ar líon na siollaí i gcásanna mar seo. Droimnín (79m ar airde) atá in iarthar agus i ndeisceart an bhaile fearainn agus talamh portaigh atá san oirdheisceart. Tá teach na cúirte agus *Forthill House* léirithe in iardheisceart an bhaile fearainn ar LSO2.

Is cosúil gurb é *cúl* ‘o, m. back, rear; back of head, neck’ (DIL) nó ‘the back of a hill’ (Joyce, 1869, 1875, 1913: ii, 200) an chéad mhír atá anseo. Tá *cúil* ‘corner, recess’ (DIL) níos coitianta ná *cúl* in ainmneacha bailte fearainn ach ní féidir leagan *cúil* a dheimhniú sna foirmeacha thuas, seachas foirm 12 atá an-truailithe (Mac Gabhann, 1997: 59). Tá an chuid is mó don bhaile fearainn ar chúl an droimnín atá díreach thuasluaite ach is ón bhfocal céanna a thagann an dá fhocal *cúl* agus *cúil* (Toner, 1997: 114) agus is féidir go bhfeileann an dá fhocal don chomhthéacs topagrafach. Tá fána ghéar ag taobh oirthearach an droimnín ach fána réidh ar a thaobhanna thiar agus theas. Ainm eile den struchtúr ainmfhocal + uimhir + ainmfhocal atá anseo (féach Cloonacarrow thuas) áit a bhfuil *cúl* cáilithe ag an uimhir *dá* móide an t-ainmfhocal *aghaidh* ‘f. face, countenance; surface; front’ (DIL sv. *agad* (a-c)) agus ‘the face’ (Dinneen). Soil and crops pretty good with limestone bottom. Farms from 1 to 27 acres. At the N.E. corner is a R.C. Chapel...’ (*AL*). Tá sé ráth, dhá fhulacht fiadh agus tuama meigiliteach sa bhaile fearainn seo ag a bhfuil 225 acra d’achar aige ar *LSO1*. Tá *Cootehall Bridge*, *St. Michael’s R.C. Church* agus *Giants Grave* (.i. an tuama meigiliteach) léirithe sa bhf ar *LSO2*. Gobann fána dheisceartach an droimnín in bhf Cooladye isteach i dtuaisceart an bhaile fearainn seo agus is cosúil go dtugtaí *Dromard* ar an talamh seo agus tá droimnín eile (ar a thugtaí *Derrynaseer* air) c.60m ar airde in oirthear Cootehall.

Tá stair sách casta ag ainm na háite seo agus tagraíonn formhór na bhfoirmeacha stairiúla thuas don dúiche stairiúil *Uachtar Thíre* seachas d’ainm an bhaile fearainn féin. Tugadh *Uachtar Thíre* ar an gceantar talún ó thuaidh d’abhainn na Búille idir an Bhúill agus abhainn na Feoraise a bhí ina teorainn idir Uachtar Thíre agus Tír Thuathail.⁵⁵² Is í an eilimint *uachtar* ‘the upper part or surface of anything, the top; The upper part of a country’ (*DIL sv. uachtar* (a)(b)) nó ‘the upper part... a high place’ (Joyce, 1869, 1875, 1913: ii, 441-2) atá cáilithe anseo ag leagan an ghinidigh den fhocal *tír* ‘s, n. Later m. and f. earth, ground (opposed to water); portion of land; territory, province’ (*DIL sv. tír* I (a-c)) nó ‘land, country, region, district’ (*Dinneen*).

Ba in úinéireacht Chlann Mhic Dhiarmada a bhí an baile fearainn ag tús an 17ú haois agus tháinig William Molloy ‘the great O’Mulloy, Governor and Knight of the shire, for the County of Roscommon’ i gcomharbas ar Chlann Mhic Dhiarmada in c. 1618 (D’Alton, 1845: 109). Bhí *Oughterhery/Oughterhery* roinnte idir William

⁵⁵² Tá fairsinge Uachtar Thíre luaite ag Freeman san Innéacs in *Annála Connacht*: ‘a district in the north of the bar. of Boyle, Co. Roscommon (bounded on the E. by the Shannon, on the W. and N. by Tirerril, and on the S. by the lower part of the r. Boyle) (1944: 849).

Molloy agus William Tirrell Esq. sa bhliain 1659 (Pender, 1939: 583-4). Bhí talamh ag muintir Chúit i bparóiste Ard Carna ag an tréimhse seo agus thóg Sir. Charles Coote an teach daingnithe/bábhún .i. *Coote Hall* atá suite ó thuaidh ó dhroichead Cootehall in oirdheisceart bhf Clegna timpeall na bliana 1600-1610. Bronnadh cuid mhór de na tailte i dtuaisceart Thuaim Ná ar Chidley Coote sa bhliain 1685 agus rinneadh na rannáin go léir atá liostaithe sa deontas sin a chomhtháthú ar mhaithe le diméin 500 acra Cootehall a chruthú (foirm 25). Is as ainm na diméine seo a d'eascair ainm baile fearainn an lae inniu. In ainneoin gur ainm dúiche a bhí in Uachtar Thíre i dtosach, d'aithníte Cootehall agus Uachtar Thíre mar aon áit amháin faoi thús an ochtú aois déag mar atá léirithe i bhfoirmeacha 26, 27, 35, 44 thuas. De réir an Bhrainse Logainmneacha, is é Uachtar Thíre an leagan Gaeilge deimhnithe den ainm Cootehall (BLÉ 43106).

Tá taifead cuimsitheach le fáil ar na trí rannáin *Derrynaseer*, *Drumard* agus *Lisduff* a bhí in úsáid is léir, roimh don ainm Cootehall a bheith tugtha ar an mbaile fearainn seo. Is cosúil gurb í an chuid iartharach de Cootehall atá i gceist i bhfoirm 24 thuas.

Tá suíomh an rannáin seo léirithe go soiléir ar lsc. *Longfield* in oirthear bhf Cootehall. Tá an eilimint *doire* 'io, probably neuter; an oak-wood; a grove, thicket' (*DIL* sv. *daire* I, II) cáilithe ag an ainmfhocal *saor* 'o,m. An artificer; in older lang. apparently used in wide sense of a craftsman in general, later restricted to workers in wood, carpenters and masons' (*DIL* sv. *2saer*). De réir Joyce: 'Saer, a builder or carpenter, appears in modern names generally in the form *seer*; as in Rathnaseer in Limerick, the fort of the carpenters' (1869: i, 224). Tá '-seer' .i. *saor* ina cháilitheoir ar c. 20 ainm baile fearainn sa tír. Stock Farm. Soil good. One fort’ (AL). Tá 192 acra sa bhaile fearainn seo agus tá droimnín 79m ar airde ina oirthear. Talamh ard agus réidh atá sa chuid is mó den bhaile fearainn, ach íslíonn sé sa tuaisceart i dtreo bhf Cloongownagh. Tugtar *Deraddy* ar an gceantar c. M 899 992 in iardheisceart an bhf ar lsc. *JM RC*. Tá ráth amháin i lár an bhaile fearainn ag M 899 995.

Tá an chosúlacht ón bhfianaise gurb é an focal *dairbre* ‘o; gender undetermined; collective meaning (II) points to neuter. An oak, oakling; A grove of oak-trees, an oak-wood’ (*DIL* sv. *dairbre* I, II) agus ‘a place of oaks’ a oak; an oak plantation’ (*Dinneen* sv. *dairbhre*) ach ní léirítear fuaim an | v | i lár an fhocail don siolla deiridh sna foirmeacha thuas. De réir Joyce: ‘There is yet another derivative of *dair* in pretty common use, namely, *dairbhre*, which is now universally pronounced *darrery*... it sometimes means an oak; but it is generally used to signify an oak-forest, or a place abounding in oaks’ (1869, 1875, 1913: i, 504-5). Tá *Dairbhre* socraithe do Darrery (*BLÉ* 31710) i gCo. Luimnigh; Darrery North agus Darrery South (*BLÉ* 21328/21329) i gCo. na Gaillimhe agus Dairbhre (*BLÉ* 22439) i gCiarraí. Deirtear faoin mbf seo sa *BSD* (foirm 6) gur talamh maith arúil atá ann rud a thugann le fios nach raibh ann do na crainn darach faoi lár an 17ú haois.

Tá droimnín 60m ar airde i ndeisceart agus in iarthar an pharóiste agus is talamh íseal cois abhann atá san oirthear agus san oirthuaisceart.

Tá cúpla féidearthacht ann maidir le cáilitheoir na heiliminte *droim* anseo. Mheas Ó Donnabháin (foirm 18) gurb í 'ridge of the breach' is ciall leis an ainm. Tá guta leathan ag an siolla deiridh sna samplaí go léir go dtí tús an 19ú haois, rud a léiríonn seans, an focal *rúsc* > *riasc* 'm. A fen or piece of marshy ground' (*DIL* sv. *riasc*) nó *rúsc* 'the bark of a tree, crust, shell, husk or pod' (*Dinneen*) mar atá againn i gCora Droma Rúisc i gContae Liatroma, a meastar an bhrí 'weir of (the) ridge of

(the) marsh; weir of (the) ridge of (the) bark-like surface’ a bheith aige (*BLÉ* 29140). Féach freisin i Rúiscaigh (*BLÉ* 44309) sa chontae seo agus Cill Rúisc (*BLÉ* 29941) i gCo. Liatroma.

Is dócha, ag brath ar fhoirmeacha 12-15, 18-23, gur leagan den fhocal *brosna* (-ae) io, m. faggot(s), bundle of firewood, fuel (*DIL*) agus ‘a faggot, armful of wood’ (*Dinneen*) atá againn anseo. Féach Knockadoobrusna (*BLÉ* 42752) i bparóiste Mhainistir na Búille sa bharúntacht seo agus Stranabrosny i gCo. Aontroma. Bheadh fuaim leagan an ghinidigh den fhocal bain. *brosnach* ‘decayed twig, stick suitable for using as kindling’ (*Ó Dónaill*) ag teacht le **brosnaí*. De réir an *BSD*, bhí coillearnacha seascannacha agus píosa beag talún a bhí go maith i mbailte fearainn Derreenasoo, Drumlahard, Drumboylin agus an baile fearainn seo (*BSD*, 338:1) rud a thagann leis an gciall *brosna/brosnach* a bheith ag an dara mír.

Ní dócha gurb í an eilimint *ruisne* ‘pollen seed, fine dust or meal’ (*Dinneen*) atá léirithe sna foirmeacha luatha (2-4, 7, 8).

Droim talún c. 1km ar fhad agus 80m ar an bpointe is airde atá i lár an bhaile fearainn seo agus talamh íseal portaigh ar na himill. Tá an chuid thuaidh den droim faoi chrainn anois.

Is cosúil gurb í an aidiacht *leathard* ‘lit. (high) at one side, hence uneven, unequal...lopsided’ (*DIL* sv. *leth* compds. I gcás an rannáin **Gortgrassagh*; tá an focal *gort* 'a field (of arable or pasture land); land, territory' (DIL sv. 1gort I (a)(c)) chun tosaigh agus é cáilithe ag an bhfocal **greasach/dreasach* = *driseach* 'o,ā (dris) thorny, brambly' (DIL sv. 1drisech) nó 'brambly, briary' (Ó Dónaill). Níl trácht san Ainmleabhar ar an oileán seo atá suite i lár an pharóiste c. 100m ó thuaidh ó Clooneigh agus 200m siar ó dheas ó Kilmacarril i ndeisceart *Lough Eidin*. Tá 19 acra talún léirithe san oileán seo i 1837 ach 23 acra ar *LSO2*. Tá dhá imfhálú ar an oileán chomh maith le créfort mótach ina lár. Tá 15 acra tairbheach luaite leis an oileán sa *BSD*, a bhí i seilbh Chlann Mhic Dhiarmada go dtí an 17ú haois luath. Bhí áit chónaithe ríoga ag Clann Mhic Dhiarmada ar an oileán seo sna meánaoiseanna déanacha (O'Conor, 1998: 82).

díreach idir bf Uachtar Thíre agus *Battle Bridge* agus féach go háirithe foirm 7 thuas, áit a bhfuil caint ar raon nó ar fhairsing an chreachta sin.

Is é an focal *áth* ‘ford; In transfd. sense of open space or hollow between two objects’ (*DIL* sv. *ath*) atá anseo, agus é cáilithe ag an bhfocal *ceap* ‘o, tree-stump, log, block’ (*DIL* sv. *cepp* (a)). De réir Joyce, faightear an eilimint seo go hiondúil san fhoirm ‘*kip*, which represents the genitive *cip*...’ agus maidir le hainm na háite seo, maíonn sé ‘It is probable that a large trunk of a tree stood near each of these fords, and served as a mark to direct travellers to the exact crossing’ (1869, 1875, 1913: ii, 353).

Is cosúil go n-aithníte an áit seo faoi dhá ainm éagsúla (foirmeacha 8, 9, 21) agus is féidir gurb é an tulach ag M 917 996 atá i gceist leis na foirmeacha is luaithe den ainm seo, áit a bhfuil tuiseal tabh. calctha an fhocail *tulach* 'Hill(ock), mound' (*DIL*) nó 'a hill or mound, an assembly hill' (Dinneen) againn. Is féidir go bhfuil *tulach* cáilithe anseo ag an bhfocal *catóg* 'stunted blackthorn' (*Ó Dónaill*) atá bunaithe b'fhéidir ar an bhfocal *catach* 'a rod, twisted, faithless' (*DIL* sv. 1*catach*).

Maidir leis an ainm Meera; is féidir gurb é *maigh*, tuiseal tabh. an fhocail *magh* 's, n. a plain, an open stretch of land; in restricted sense a field or green attached to a fort, dwelling, etc., or used for a special purpose (often in com- position with a preceding defining noun); nearly always of uncultivated land' (*DIL* sv. *mag* (a)(b)) atá mar chéad eilimint anseo agus feileann an topagrafaíocht i lár agus i ndeisceart d'úsáid na heiliminte seo. Is cosúil go bhfuil *magh* cáilithe ag an bhfocal *ráth* 'An earthen rampart surrounding a chief's residence, a fort, rath' (*DIL* sv. 2*ráth*) i mír dheiridh an ainm seo. 'Is the Western Townland of the Parish and is bounded on the North and West by Ardcarney Parish; East by the Boyle River and South by Osna Townland... Contains [116] Statute Acres all under Cultivation... One fort' (*AL*). Tá dhá ráth agus caiseal sa bhaile fearainn seo. Tá talamh ard c. 70 in airde i ndeisceart an bf agus is talamh arúil go maith atá san fhorfhór. Cúrsa gailf atá i ndeisceart agus in oirthear an bhaile fearainn ar fad inniu.

Is é an focal *tobar* 'o, m. *tobar*, well, spring; source' (*DIL* sv. *topar* (a)(c)) nó 'a well, spring or source' (*Dinneen*) atá sa chéad mhír anseo agus de réir Flanagan

agus Flanagan, is iad ‘*Tober*’ nó ‘*Tubber*’ leaganacha béarlaithe iondúla na heiliminte (2002: 153). Is cinnte go dtagraíonn foirm 1 thuas don chaiseal (*NMS* RO006-112001) atá suite ag G 887 021 i dtuaisceart an bh. Is í an eilimint *searbhán* ‘oats... *capud manisi* [*leg. caput monachi*] .i. in serba[n] muc’ (*DIL* sv. *serbán*), ‘a bitter... thing; a wild variety of oats, oat-corn, dandelion’ (*Dinneen*) nó ‘bitter-herb’ (*Ó Dónaill*) atá sa dara mír. Maíonn Joyce: ‘The Irish designated the dandelion by its most prominent quality, bitterness of taste; for they commonly called it *searbhán* or *searbhóg* two diminutives from *searbh*, bitter’ (1869, 1875, 1913: ii, 341). Tá samplaí den eilimint seo le fáil in ainmneacha bhailte fearainn Moneysharvan < *Muine Searbhán (*BLÉ* 58272) i nDoire agus is féidir gurb í *searbhóg* ‘bitter drink’ (*DIL* sv. *serbóc*) a bheith i gceist in Gortnasharvoge (*BLÉ* 42492) i Ros Comáin agus in Pollsharvoge < *Poll Searbhóige (*BLÉ* 36579) i gCo. Mhaigh Eo.

Léiríonn foirmeacha 2, 3, 4, 6 agus 8 go raibh ainm malartach ar an áit seo freisin .i. **Reask*. Is í an eilimint *riasc* ‘m. A fen or piece of marshy ground’ (*DIL* sv. *riasc*) nó ‘a moor, marsh or fen’ (Joyce, 1869, 1875, 1913: i 463) atá anseo agus is féidir go dtagraíonn sé don talamh íseal cois abhann i dtuaisceart nó in oirthear an bhaile fearainn. Tá Reask/Riesk coitianta go leor (16 sampla) mar eilimint neamhspleách in ainmneacha bhailte fearainn na hÉireann.

‘Is situated in the Southern part of Parish, and is bounded on the North and West by the River Boyle; East by the River Shannon and South by the Townlands of Cloonmaun, Meera and Cultycunneen... Contains [182] Statute Acres, all under Cultivation... Soil and crops moderately good. Farms from 3 to 19 Irish acres... Forts 4’ (*AL*). Tá an baile fearainn seo suite ar leithinis ar bhruach *Lough Eidin* agus áirítear trí ráth, créfort, imfhálú eaglasta, fothrach séipéil, reilig agus scrín (*St. Eidin’s Grave*) ann (Moore, le foilsíú). Soláthraíonn foirmeacha 6-8 thuas fianaise gur láthair eaglasta a bhí anseo sa 13ú haois agus is í Naomh Éadaoin a bhí mar éarlamh an pharóiste (féach foirmeacha 1, 2, 20).

Ainm paróiste agus baile fearainn atá anseo agus is cosúil gurb í *tuaim* ‘n, n. Exact meaning uncertain. a flank ridge or side... a moat mound or bank... or hillock, also a tomb, grave or sepulchre, Lat. *tumulus*’ (*DIL* sv. *túaim*) an chéad eilimint.

⁵⁹⁶ ‘the noise of the ford’ [pl]

⁵⁹⁷ ‘See parish name’ [dúch]

Maidir leis an eilimint *tuaim* i logainmneacha, de réir Flanagan agus Flanagan: “generally describes a ‘mound’, more often than not a ‘burial mound’, though rarely if ever, can the eponymous mound be identified with sufficient certainty...” (2002: 157) agus is fíor an ráiteas sin sa chás seo. Níl ach aon ghné amháin sa bhaile fearainn a fheileann don bhrí seo seans – an droimnín 60m ar airde atá suite i dtuaisceart an bh.

Tá cúpla féidearthacht ann maidir le ciall an dara mír áfach. Tá Tuaim Ná molta ag an mBrainse Logainmneacha d’ainm an pharóiste agus d’ainm na toghroinne ach ní léir bunús na foirme sin. Tagraíonn Ó Donnabháin don traidisiún áitiúil a bhain le brí an ainm, áit go ndeirtear: ‘It is believed in the country that the meaning of Toomnā is *Tuaim an Áith*, the noise of the ford because it lies near the (Lower) River Boyle’ ach ní thugann Ó Donnabháin mórán suntais don tuairim seo mar gheall ar na foirmeacha a chonaic sé in *ARÉ* (Herity agus McGuinness, 2010: 77). Léiríonn foirmeacha Gaeilge na hannála (3-8) an focal *mn(a/á)* .i. tuiseal gin. ar *bean* ‘ā, f. woman’ (*DIL* sv. *ben*) nó ‘a woman, a wife’ (*Dinneen*) agus is féidir gurb é seo atá ann agus éarlamh baineann bainteach leis an áit. Is féidir freisin gur ainm pearsanta atá ann agus bheadh na foirmeacha as féilirí na naomh ag teacht le foirm cosúil le *Nóe*, *Náe* nó *Noí* b’fhéidir san ainmneach.

Soil good' (*AL*). Tá 351 acra sa bhaile fearainn seo agus is talamh feirme atá san fhormhór. Ardaíonn leibhéal na talún go c.90 m ar airde i ndeisceart an bhaile fearainn agus tá dromainn 70m ar airde ina lár. Tá coill bheag (c. 6 acra) in oirthuaisceart Woodbrook agus faightear trí ráth san oirdheisceart.

Ainm galánta atá san ainm *Woodbrook* agus é ina leathastriúchán ar an mbunainm Gaeilge. Is léir ó fhoirmeacha na nIonchoisní go háirithe gur leagan tabharthach na heiliminte *ceann* 'the human head, head of an animal... Very freq. in nn. loc.' (*DIL* sv. *cenn*) nó 'a head... (4) top, peak, topmost part... a headland, a cape, promontory' (*Dinneen*) atá sa chéad mhír. Tá *cionn* cáilithe ag leagan ginideach an fhocail *coill* 'wood, forest' (*DIL* sv. *1caill*). Féach ainmneacha bailte fearainn den struchtúr céanna in Kinkillew < *Cionn Coilleadh (*BLÉ* 29545) i gCo. Is ainm malartach nó ainm iar-rannán atá anseo do bf Woodbrook. Is féidir go dtagraíonn an t-ainm don chaiseal atá gar do lár an bhaile fearainn. Is cosúil gurb iad na míreanna *lios* 'the space about a dwelling-house or houses enclosed by a bank or rampart' (*DIL* sv. *les*) móide an t-ainm pearsanta *Cathal* 'strong in battle' (Ó Corráin agus Maguire: 47) atá anseo ach seans go léirítear an réimír *Uí* < **Lios Uí Chathail* i bhfoirm 3 thuas.

(AL). Ainm láthair eaglasta luath agus mionghné ar abhainn na Búille atá anseo, i ndeisceart bhf Mocmoynne i bparóiste Mhainistir na Búille. Bhunaigh Naomh Colm Cille an láthair eaglasta seo sa 6ú haois, agus ba é Dochonna (nó Mochonna) Mac Eirc ab na láithreach eaglasta sa tréimhse luath (Gwynn agus Hadcock, 1970: 30). De réir Uí Riain, áfach, is féidir gurb ionann Colum Cille agus Dochonna, toisc gur leagan ceana é Dochonna ar an ainm Colum (2011: 269). Níl fágtha inniu ach fothrach séipéil agus tá reilig nua an pharóiste suite in aice na láithreach. Tá cur síos againn ar an séipéal sa bhliain 1845 ó D’Alton:

‘The old church of Isselyn stands on a knoll, terminating abruptly at the river; and from the massiveness of the walls, of large hewn stone, two feet and a half in thickness – their height, in detached fragments, about 20 feet – the extent of the area, the choir measuring 16 yards by 8, and the aisle about 25 by 8’ (1845: i, 80).

Bhí muintir Uí Fhloinn ina n-airchinnigh ar an láithreach seo ón mbliain 1201 ar a laghad, agus ba leo bhf Ballymore West, atá suite idir Eas Uí Fhloinn agus Cill Athracha (Mac Dermot, D., 1996: 202). De réir Doran, tháinig cuid de phríomhbhóithre an cheantair le chéile timpeall bhf Mocmoynne san aimsir anallód, agus luann sí go raibh cead ag cléirigh Macmoynne freastal ar insealbhú ríthe Chonnacht san alt céanna (2004: 71). Cé go raibh cead acu freastal ar an insealbhú sin, tuairimítear in FitzPatrick (1998, 2004) go raibh láthair oirnithe ríthe Chonnacht suite gar d’*Eas Uí Fhloinn*, ag áit darb ainm *Áth an Tearmainn* (*Áth Carpaid* in aimsir Naomh Pádraig). Níl aon fhianaise, áfach, go raibh *Áth an Tearmainn* suite ar abhainn na Búille agus níor tharla insealbhú ag *Áth an Tearmainn* ach aon uair amháin go bhfios dúinn sa bhliain 1106 (*ARÉ*, ii,983). Ní dócha mar sin gurbh ionann láthair oirnithe ríthe Chonnacht agus an t-áth seo agus is mó seans gur áth éigin in bhf Termonmore i mbarúntacht an Chaisleáin Riabhaigh atá i gceist, mar atá meáite ag Ní Dhonnchadha (Ní Dhonnchadha, 2009a).

Tá an focal *eas* ‘m. a cataract, rapid; a rapidly flowing stream’ (*DIL* sv. 3es(s)) agus ‘a waterfall, a cascade, a stream, a spring, a rapid’ (*Dinneen*) mar mhír thosaigh i gcás an trí ainm éagsúil a bhí in úsáid don suíomh seo. Tagraíonn siad go léir don eas atá suite in abhainn na Búille ag G 790 020 ar an taobh ó dheas de reilig an lae inniu. Tá *Áth Carbaid* atá luaite sa *Tripartite Life* suite c. 500m soir ó *Éas Uí Fhloinn* ar abhainn na Búille.

Baineann formhór na dtagairtí thuas le hainm na mainistreach féin ach i gcuid bheag de na samplaí déanacha, ní léirítear aon chomhthéacs leis an iontráil agus, mar sin, d'fhéadfadh sé gur mainistir, baile nó tailte na Búille atá i gceist. Bhunaigh manaigh Chistéirseacha an mhainistir seo tamall de bhlianta i ndiaidh dóibh An Mhainistir Mhór i gCo. Lú a fhágáil (Gwynn agus Hadcock, 1970: 128) i ndiaidh dóibh iarrachtaí a dhéanamh pobal eaglasta a bhunú i dtrí áit eile (féach foirm 3 thuas). B'iad Clann Mhic Dhiarmada Mhagh Loirg a bhronn na tailte ar na Cistéirsigh agus chuir na manaigh fúthu ar bhruach na Búille sa bhliain 1161 (Ó Cróinín, 2005: 928). Bhí lárionad cumhachta Chlann Mhic Dhiarmada suite ar Charraig Locha Cé agus ag Longfort Mhic Dhiarmada (atá anois in bhf Rockingham Demesne) timpeall 4km soir ón mainistir nua. Teastaítear *Áth Dá Larg* mar ainm malartach ar *Mhainistir na Búille* ach ní féidir a dheimhniú go raibh láthair eaglasta den ainm seo suite cois Búille sular tháinig na Cistéirsigh chun an cheantair. Maidir le brí an ainm seo, is é an focal *áth* 'u, m. ford; In transfd. sense of open space or hollow between two objects' (*DIL* sv. *ath*) atá chun tosaigh anseo. Tá *áth* cáilithe ag an uimhir *dá* 'two' (*DIL*) móide an t-ainmfhocal baininscneach *láirig* 'ā, f. also *láarg*, *loarc lorac*, *larac*, *ládairg*. Is cosúil go dtagraíonn an t-ainm malartach seo don áit ina scoilteann an abhainn ina dhá leath timpeall ar G 804 026, lasteas de láthair Mhainistir na Búille an lae inniu.⁶⁷⁸ Maidir le hainm an lae inniu don láithreach eaglasta seo, tá an focal *mainistir* ‘f. ‘A river running nearly East, of which Lough Gara is united with Lough Key’ (*AL*). Sreabhann An Bhúill ó Loch Uí Ghadhra ar an teorainn idir Ros Comáin agus Sligeach, 11km siar go dtí Loch Cé agus ó dheas isteach i *Lough Eidin*, áit a bhfolmhaíonn sí sa tSionainn cúpla ciliméadar ó thuaidh de bhaile Chora Droma Rúisc i gCo. Liatroma. Tá titim 23m san abhainn ó Loch Uí Ghadhra go dtí Loch Cé, an chuid is mó de seo ag *Eas Uí Fhloinn* ar an taobh thiar de bhaile Mhainistir na Búille. Tá an abhainn seo ar cheann de na teorainneacha nádúrtha is suntasaí sa cheantar taighde agus roinneann sí an bharúntacht ina dá leath. Baineann an leath thuaisceartach den bharúntacht le *Tír Thuathail* agus *Uachtar Thíre* agus an chuid dheisceartach le *Magh Loirg*.

Ní thugtar aon scéal maidir le brí ainm na habhann seo sa Dinnseanchas, agus tá iarrachtaí éagsúla déanta a hainm a mhíniú in imeacht na mblianta. Déanann Ó Donnabháin iarracht teacht ar chiall an ainm ina chuid litreacha ón gceantar i mí Iúil, 1837. Luann sé an tuairim a bhí ag John Keogh sa bhliain 1683 maidir le brí an ainm, áit a ndúirt Keogh: ‘The Irish in their language call it *Monaster-na Buoly*, *Bouly* being the name of the River... but why the River is so called I can only guess, viz^t, *er bully* signifying *mad* or in a fury; the furious hasty stream of this River might occasion the name’ (Herity agus McGuinness, 2010: 68). Sa litir chéanna, séanann Ó Donnabháin an tuairim a bhí nochta ag Keogh, áit a ndeir sé:

‘As to his derivation of the name of the River from *er bully*, it is too *bully* or *mad* a derivation, and is objectionable, for two good reasons, vizt. The current of the river Boyle is not remarkable for its fury, madness or impetuosity, and 2. The name is not *buile* (in which the *u* is very short), which does signify madness but *búill*, in which the *u* is very long. And hence it follows that *búill* is not *buile*, no more than *mad* is *made*’ (Herity agus McGuinness, 2010: 68).

⁶⁹⁶ ‘the beautiful river. (Booil is the Irish pron.) (*OD Nóta*)

Is léir go raibh Keogh ag brath ar an nasc idir fuaim an fhrása ‘*ar buile*’ agus ainm na habhann, ach léirítear i mórán na bhfoirmeacha Gaeilge gur guta fada a bhí chun tosaigh san ainm.⁶⁹⁷ Níl sruth tréan le brath ón abhainn inniu ar chor ar bith, agus mar atá ráite ag an Donnabhánach thuas, níl aon aitheantas dá leithéid ag an abhainn, ach dúirt D’Alton an méid seo a leanas i 1845: ‘the river passes in a quick stream, shallow and rippling in dry seasons, but, when swollen by rains and floods from the lake, rushing with violent rapidity’ (1845: i, 31). D’fhéadfadh go raibh éifeacht ag an laghdú a rinneadh ar leibhéal an uisce i Loch Uí Ghadhra sna 1850í agus arís sna 1950í, ar shruth na habhann (Malpas, 2009), ach is dócha, ar fhianaise theangeolaíoch amháin, gur féidir linn neamhaird a dhéanamh den nasc idir *búill* agus *buile*.

Bhí Ó Donnabháin den tuairim gurbh í an chiall ‘*comely, fair or beautiful*’ ag ainm na habhann a d’fhorbair ón aidiacht gan urrús **búilleach* agus mheas sé go raibh nasc idir í agus an focal Laidine *Pulcher* (Herity agus McGuinness: 68). Níorbh fhéidir teacht ar an leagan sin den fhocal ach is cosúil gurb í an aidiacht *builid* ‘laudatory adj. of imprecise meaning, usually alliterating and/or rhyming. Of land, territory, Of humans, animals’ (*DIL* sv. *builid*) a bhí i gceist aige, a thagann gar go maith do chiall mheasta an Donnabhánaigh. I litir eile ón Donnabhánach ag deireadh Iúil, 1837, tugann sé le fios go bhfuil an t-aistriúchán Laidine a rinneadh ar an ainm sa *Vitae Columbae* le hAdomnán feicthe aige, ach ní thugann sé mórán suntais don leagan sin.⁶⁹⁸ Ghlac J. J. Kelly leis an méid a bhí sa *Vitae Columbae* nuair a bhí sé ag déanamh cur síos ar shean-iarsmaí an cheantair sa dara leath den 18ú haois:

“... the river Boyle (*Buille*)... is described as ‘*Fluvius quod latine Bos dicitur*’. The name comes from *Buille*, a cow-farm, and any one who has seen the cattle grazing on the green and fertile pastures by its banks... will at once understand how this name was suggested to the earlier inhabitants of Moylurg’ (1879a: 414).

Tá cuma na samhaltachta ar an méid atá ráite ag Kelly thuas in ainneoin go bhfuil cosúlacht idir an scéal sin agus ciall mheasta abhainn na Bóinne.

⁶⁹⁷ Féach foirmeacha luatha eile in Ó Riain, Ó Murchadha, agus Murray (2005: 217-8) agus leagan áitiúil an Donnabhánaigh i 39 thuas.

⁶⁹⁸ ‘It is possible that he [Adomnán] looked (upon) the name of this stream to be compounded of Bó and tuille q.d. *Bó-huille* (*Bú-huille*) which might certainly mean *Boum fluvius*, but I could not believe it is any more than a (mere) conjecture of his, and I could sooner believe that the River was named from a woman of the name *Búill*’ (Herity agus McGuinness, 2010: 75).

Tá an Corrsliabh suite ar an taobh ó thuaidh d'abhainn na Búille, siar ó thuaidh ó bhaile Mhainistir na Búille. Teorainn nádúrtha is ea iad idir Magh Loirg agus Magh nAí i Ros Comáin agus tuaisceart na tíre. Díol spéise go liostaítear An Corrsliabh nó *Corrsliabh na Seaghsa* mar cheann de phríomhshléibhte na hÉireann i gCath *Maige Tuired* (II) in éineacht le sliabhraonta aithnidiúla eile na tíre seo – Beanna

Maidir le brí ainm an tsléibhe – is foirm aidiachtach den fhocal *corr* ‘tapering, cuspidated, peaked, pointed, jutting out or up, swelling’ (*DIL* sv. 1*corr* II) nó ‘odd; tapering, pointed’ (*Ó Dónaill* sv. 5*corr*) atá ina réimír anseo. Is iondúil go mbíonn an bhrí ‘round hill’ ag an bhfocal *corr* sa taobh seo tíre, ach, ní bheifí ag súil leis an míniú sin agus an t-ainmfhocal *sliabh* ‘s.n. later m. *slíab* m., a mountain, a mountain-range; a moor (*DIL* sv. *slíab* (a)(b)) a bheith san ainm. Féach ainm an tsléibhe *An Corrshliabh* (*BLÉ* 114124) i gCo. Mhaigh Eo freisin.⁷²⁸ Is éasca an fhorbairt ó *Corrshliabh* > *Curlew* a shamhlú. Léiríonn an fhianaise Bhéarla (46-9, 51-8) thuas an fhorbairt go soiléir: *Corrshliabh* > *Corlieve* > *Curlewe*. Is ón mbliain 1130 atá an tagairt is luaithe den ainm seo ach léiríonn an fhianaise thuas go dtugtaí ainm eile ar na cnoic seo agus ar an gceantar máguaird roimh an 12ú haois.

Thugtaí *Segais* ar an gceantar seo san aimsir anallód agus léiríonn an comhthéacs atá ag cuid de na foirmeacha stairiúla thuas (11, 15, 30, 31, 36), gur bhain *Segais* leis an gceantar lastuaidh d’abhainn na Búille amháin. Dar leis an Donnabhánach, ní raibh cuimhne ar bith ag muintir an cheantair den ainm *Segais* faoi aimsir na Suirbhéireachta sa chéad leath den 19ú haois (*AL*) agus is mar a chéile an scéal inniu. De réir Hennessy, is ainm seanda ar abhainn na Búille a bhí ann i dtosach, cé nach dtugann sé aon fhianaise chun tacú lena ráiteas (*ALC*, i, 294-nóta 3).

Ainmfhocal baininscneach atá ann, ar ndóigh, mar a léirítear go leanúnach i bhfoirmeacha an ghinidigh thuas, agus is cosúil gurb é an focal Ceiltise *sego-* ‘strength, prowess; strong’ (Falileev, Gohil, agus Ward, 2010: 30) atá mar mhír thosaigh an ainm. Ní léir go héasca brí an dara mír (*-asti-) ach mar logainm, is féidir an bhrí ‘mighty place, mighty mountain/river etc., place of the mighty one’ a bheith ag an iarmhír seo (*Ó hAisibéil*, 2009). Is féidir linn *sego-* a nascadh le *seaghais* ‘pleasure, delight’ (*Ó Dónaill*) na Nua-Ghaeilge go héasca tríd PIE *segʰh- > Ceiltis *seg- > SG seg- > NG seagh- (athrú séimeantach ó ‘strong, vigorous’ > ‘robust health’ > ‘happiness’ > ‘delight’ srl.). Ní léir go fóill cé acu ainm abhann nó ainm dúiche atá i gceist ach tá *sego-* le fáil i logainmneacha ar fud na hEorpa (46 sampla), m.sh. Caernarfon sa Bhreatain Bheag < *Segontium*, Wallsend i Sasana < *Segedunum*, agus Sigüenza sa Spáinn < *Segontia* (Sims-Williams, 2006: 108).

⁷²⁸ Corr slieve – sometimes called Currhliew; is understood by the people to mean the odd mountain, which I also think is the correct meaning’ – Ó Donnabháin, *AL*: (*Maigh Eo*).

Is é Loch Cé an loch is mó i gContae Ros Comáin agus tá achar de 890 heicteár aige. Déantar tagairt den loch go leanúnach sna príomhfhoinsí taighde ón 10ú haois ar aghaidh, go mór mór maidir le láithreacha eaglasta an locha ar Trinity Island (*Oileán na Tríonóide) agus Church Island (*Inis Mac nÉirín). Déantar trácht go minic ar na himeachtaí go léir a thit amach ar an loch nó ar bhruacha an locha timpeall Castle Island (*Carraig Locha Cé), go háirithe sna meánaoiseanna déanacha. Tá cuntas ar chruthú nó ‘tomhaidhm’ an locha sa dinnseanchas meadarach (*MDind.*, III, 401) agus i gCath Maige Tuired (II). Draoi ab ea Cé, de réir an tseanchaí, a thit ina chodladh ar mhachaire réidh ar an taobh thoir den Chorrshliabh agus nár dhúisigh go dtí gur tháinig maidhm uisce aníos faoi agus bádh é. Níl aon seanchas eile a mhaireann maidir le ciall ainm an locha.

Anailís ar Mhíreanna Logainmníocha an Cheantair

Léirigh Margaret Gelling go paiteanta, go mbaineann fiúntas ar leith le hanailís a dhéanamh ar an raon míreanna atá le fáil i logainmneacha, go háirithe nuair is míreanna iad a thagraíonn do ghnéithe topagrafacha (Gelling agus Cole, 2000). Tuigtear dúinn, ar ndóigh, gurb éard atá i gceist le *mír* sa chomhthéacs seo ná aonad léacsach a úsáidtear mar bhunchloch i struchtúr nó i gcomhdhéanamh logainm. Níor mhiste aicmiú a dhéanamh ar na cineálacha míreanna éagsúla atá ann, sula dtugtar faoin bpróiseas anailíse. Más mír thopagrafach atá inti, is gnách go dtagraíonn sí do ghné fhisiciúil atá le haithint sa tírdhreach mórthimpeall, leithéidí *corr*, *sliabh*, *ros*, *mullach*, *ard*, *cúil*, *doire*, *droim*, *gleann* srl. Baineann míreanna saorga nó áitreabhacha ar ndóigh, le rud atá déanta ag an duine agus atá, nó a bhí, le sonrú ar an tírdhreach. Leithéidí *baile*, *teach*, *caisleán*, *lios*, *cill*, srl. D'fhéadfadh an dá chineál míre seo a bheith le fáil in aon logainm amháin freisin (m.sh. *Baile an tSléibhe*, *Mullach na Cille*, srl.).

Is féidir aicmiú breise a dhéanamh ar na grúpaí seo chun tuilleadh gnéithe a chur faoi scrúdú – míreanna a bhaineann leis an dúlra, nósanna talmhaíochta nó le cúrsaí tionsclaíochta, mar shampla. Shocraigh P.W. Joyce na heilimintí topagrafacha a rangú i naoi gcatagóir éagsúla ina chnuasach *Irish Names of Places*⁷⁴³ ach meastar gurbh fhusa catagóirí Gelling toisc go n-áirítear míreanna a bhaineann le cúrsaí talmhaíochta agus taistil ann.⁷⁴⁴ Ba cheart úsáid a bhaint as an gcomhthéacs topagrafach chun tacú leis an anailís ar na foirmeacha stairiúla. Léiríonn obair éachtach Uí Chearbhaill (2010) ar an eilimint *cluain* i logainmneacha Cho. Thiobraid Árann agus taighde Bhreandáin S. Mhic Aodha sna hailt iomadúla leis ar eilimintí fisiciúla agus tírghnéitheochta ar fud na tíre, na féidearthachtaí a bhaineann leis an gcur chuige seo. Má chuirtear le chéile torthaí an taighde agus má dhéantar rangú de réir chatagóirí Gelling, is féidir pictiúr a léiriú de nósanna ainmnithe áite an cheantair

⁷⁴³ Is iad na catagóirí a roghnaigh sé ná: 1. *Mountains, Hills and Rocks*, 2. *Plains, Valleys, Hollows and Caves*, 3. *Islands Peninsulas and Strands*, 4. *Water, Lakes and Springs*, 5. *Rivers, Streamlets and Waterfalls*, 6. *Marshes and Bogs*, 7. *Animals*, 8. *Plants* agus 9. *Shape and Position* (Joyce, 1869, 1875, 1913: i, 378-531).

⁷⁴⁴ Is iad na catagóirí a roghnaigh Gelling ná: 1. *Rivers, Springs, Pools and Lakes*, 2. *Marsh, Moor and Flood Plain*, 3. *River-Crossings and Landing-places, Roads and Tracks*, 4. *Valleys and Remote Places*, 5. *Hills, Slopes and Ridges*, 6. *Trees, Forests, Woods and Clearings*, 7. *Ploughland and Pasture*. Féach nach bhfuil ag Gelling ach seacht gcatagóir ach go bhfuil na catagóirí i bhfad Éirinn ní ba shoiléire agus go bhfuil cúrsaí taistil (3) agus cúrsaí talmhaíochta (6,7) san áireamh aici (Gelling, 1984).

agus ansin, an léargas seo a chur i gcomparáid le ceantair agus le míreanna eile ar fud na tíre. Ní bhíonn an cineál anailíse seo ag brath ar theorainneacha an chontae nó an pharóiste, ach ar thopagrafaíocht, cineálacha ithreach agus cineál carraige an cheantair. Más féidir linn míreanna topagrafacha áirithe a cheangail go dlúth le gné fhisiciúil i gceantar amháin, is oscailt súl a bheidh ann don taighdeoir agus don phobal ginearálta, maidir le bunbhrí mheasta na míre sin sa chomhthéacs áitiúil.

Déanfar cur síos sna leathanaigh ar lean ar phríomhthorthaí an taighde, ó thaobh minicíocht, aois, struchtúr, agus dáileadh míreanna logainmníocha de, i dtuaisceart Ros Comáin. Bainfear úsáid as na foirmeacha Gaeilge molta atá léirithe sna paróistí thuas sa phróiseas anailíse seo. Tá na foirmeacha Gaeilge bunaithe, ar ndóigh, ar thorthaí na tráchtairachta agus na hanailíse go léir, a rinneadh ar fhoirmeacha stairiúla na logainmneacha sna caibidlí roimhe seo. Ní áireofar san anailís ach ainmneacha na mbailte fearainn agus ní bhacfar le mionainmneacha a chur san áireamh. Tá éiginnteacht ag baint le cuid de na mionainmneacha maidir lena míreanna agus lena bríonna, agus i gcásanna eile, ní mhaireann na hainmneacha a thuilleadh i measc phobal an cheantair.

Pléifear cróineolaíocht logainmneacha an cheantair i dtosach, ag baint úsáide as modheolaíochtaí anailíse atá curtha chun cinn ag scoláirí aithnidiúla sa réimse seo le roinnt mhaith blianta anuas, agus déanfar struchtúir na n-ainmneacha agus minicíocht na struchtúr sin a leagan amach go soiléir. Déanfar comparáid ina dhiaidh sin, idir na míreanna logainmníocha atá teastaithe i dtuaisceart Ros Comáin, agus na míreanna atá le sonrú i gcontaetha eile timpeall na tíre. Léireofar formhór na hanailíse comparáidí seo i bhfoirm táblaí. Tabharfar na míreanna is coitianta sa cheantar taighde le fios, agus déanfar iniúchadh ar chiall mheasta cuid de na míreanna sin i gcomhthéacs topagrafach thuaisceart Ros Comáin. Bainfear úsáid as léarscáileanna *CFG* (córas faisnéise geografai) i gcuid den anailís chun torthaí an taighde a léiriú ar léarscáileanna dáileacháin. Caithfear súil ansin ar ábhar machnaimh a eascraíonn as an gcineál anailíse seo, agus déanfar roinnt féidearthachtaí maidir leis an gcur chuige taighde seo a mholadh mar fhocal scoir.

Aois agus Struchtúr na nAinmneacha

Is féidir srathú aoise a dhéanamh ar logainmneacha bunaithe ar a struchtúir, rud atá léirithe go maith le tamall anuas ag scoláirí sa réimse taighde seo (Flanagan, 1980; Mac Giolla Easpaig, 1981; Toner, 1999; Mac Gabhann, 2007; Tempan, 2008). Is

féidir úsáid a bhaint as an gcur chuige seo chun meastachán a dhéanamh faoin rogha mhíreanna a bhí in úsáid sa phróiseas ainmnithe ag tréimhse ama áirithe. De réir Mhic Giolla Easpaig, stopadh de bheith ag cumadh logainmneacha den struchtúr *ainmfhocal* + *ainmfhocal* (m.sh. *Leacmhaigh, Fionnúir*) faoi luathtréimhse na Sean-Ghaeilge c. AD 400 (1981: 152). Níl ach 15 sampla (nó 5% de líon na n-ainmneacha) den struchtúr seo le fáil i measc ainmneacha bailte fearainn an cheantair taighde. Tosaíodh ar úsáid an struchtúir *ainmfhocal* + *ainmfhocal cáilithe* ón mbliain 400 ar aghaidh (*ibid.*) agus tá an struchtúr simplí seo le fáil i mbeagnach 30% d'ainmneacha an cheantair seo (m.sh. *Ard Éise, Caiseal Feannóg, Droim Cormaic*). Tá tuairim c. 30 ainm pearsanta luaite le hainmneacha na mbailte fearainn thar gach struchtúr (*Inis Doighre, Coill Fhachna, Cill tSéisín*) agus c. 14 sloinne (*Cluain Uí Bhraoin, Mullach Uí Thaidhg*). Is cinnte gur ainmneacha luatha iad cuid de na hainmneacha pearsanta agus tá roinnt díobh gan urrús. Níor tháinig sloinnte i bhfeidhm go dtí an 10ú haois luath (Ó Cuiv, 1986: 33-4) agus is féidir mórán na sloinnte seo a aithint le sloinnte an lae inniu. Níl ach dhá shampla fhéideartha de shloinnte na Normannach in ainmneacha bhailte fearainn an cheantair: Davis Island < *Inis Mhic Dáibhí/*Inis Mac Dáibhí (ach Eanach Moncháin an bunainm is cosúil) agus bf Kiltybrannock < Coillte Breathnach.

Bhí ainmneacha den struchtúr (*alt* +) *ainmfhocal* in úsáid ón 9ú haois ar a laghad ach is féidir go bhfuil cuid díobh seo níos luaithe (Toner, 1999: 18). Tá an struchtúr seo ag c. 11% de na hainmneacha sa cheantar taighde ach is deacair an aois atá acu a dheimhniú (*Cruachán, An Screig, Claon, An Doireán*, srl.). Is fíor nach bhfaightear an t-alt sna foirmeacha luatha den struchtúr seo ná den struchtúr *ainmfhocal* + *aidiacht cháilithe* ach tagann an t-alt chun cinn iontu de réir a chéile in imeacht ama (Toner, 1999: 5-6). Féach, mar shampla ar *An Ghluaire Mhór, Cluanach Bán, Droim Leathard*. Meastar aois mhór a bheith ag ainmneacha den struchtúr (*alt* +) *réimír* + *ainmfhocal* (Mac Gabhann, 2007: 26), mar atá againn in *Bréanleitir, Bréandroim, Iorras, Dúdhoire*, ach amháin go bhfaightear corrainm den struchtúr seo atá sách nua cosúil leis *An Leithcheathrú* agus *An tSeanbhuaile*. Tá an struchtúr seo léirithe ag 4% d'ainmneacha an cheantair.

D'éirigh an struchtúr *ainmfhocal* + *alt* + *ainmfhocal cáilithe* (nó *ainmfhocal* + *aidiacht cháilithe*) níos coitianta ón 11ú hAois ar aghaidh, cé go bhfuil samplaí den struchtúr seo teastaithe ón 9ú hAois (Flanagan, 1980: 43). Tá an struchtúr seo ar an struchtúr is torthúla agus é le fáil in c. 36% d'ainmneacha bailte fearainn (m.sh.

Doirín an Dúigh, Tamhnaigh an tSeascainn) agus gheofar liosta de na heilimintí coitianta a bhí in úsáid i gcumadh logainmneacha ón tréimhse seo ar aghaidh i bhFigiúr 8 thíos.

Tá 18 logainm de bhunús an Bhéarla sa cheantar ach is oileáin bheaga iad a bhformhór díobh. Tagann na hainmneacha Béarla ar fad (seachas péire) chun cinn sa 19ú haois. Bhí an t-ainm *The Park* do bhf Deerpark teastaithe sa dara leath den 17ú haois agus Harepark ag tús an 18ú haois. Tá roinnt bailte fearainn eile le hainm ón nGaeilge ó bhunús ach go bhfuil ainm malartach acu freisin a tháinig ón mBéarla: Legvoy or Gardenstown, Warren or Drum, Culleenatreen or Flagford, Bridgcartron or Derrycashel.

Minicíocht Úsáide Míreanna i Logainmneacha an Cheantair

Léirítear i bhFigiúr 7 thíos, minicíocht úsáide na míreanna is coitianta in ainmneacha bailte fearainn an cheantair taighde agus sna contaetha eile atá roghnaithe (i ndiaidh MacGabhann, F., 2007: 29).⁷⁴⁵ Is mór an chabhair atá sa chineál léirithe seo le tuiscint a fháil ar an raon míreanna atá in úsáid thar chontaetha éagsúla timpeall na tíre. Tabhair faoi deara nach bhfuil i dTuaisceart Ros Comáin san iomlán ach tuairim agus 16% de líon na mbailte fearainn atá sna contaetha eile luaite sa tábla. Mar sin féin, is féidir patrún áirithe a fheiceáil sna huimhreacha.

Léiríonn an tábla thuas go soiléir gurb iad na míreanna topagrafacha na cinn is coitianta atá le fáil i measc ainmneacha bailte fearainn i dtuaisceart Ros Comáin, cé

⁷⁴⁵ Roghnaíodh trí chontae ó cheann ceann na tíre in Mac Gabhann (2007) agus rinneadh líon na míreanna coitianta sna contaetha sin a liostáil de réir minicíochta. Tá dhá chontae le Mac Gabhann (Muineachán agus Port Láirge) curtha san áireamh agam anseo. Bhain mé leas as *Liostaí Logainmneacha: Co. Luimnigh* chun míreanna Luimnigh a tharraingt le chéile. Cuirtear leaganacha díspeagtha, iolra, áitreabhacha agus malartacha na míreanna san áireamh.

go n-áirítear *baile* agus *cill* go hard ar an liosta freisin.⁷⁴⁶ Tagann na míreanna coitianta i gCo. Mhuineacháin an-ghar do mhíreanna an cheantair seo. Is minic go dtugtar samplaí de mhíreanna cosúla ó Chontaetha Liatroma agus Muineacháin sa tráchtairacht ar ainmneacha na mbailte fearainn thuas, rud a léiríonn an nasc soiléir atá idir an rogha nó an foclóir míreanna atá in úsáid sna contaetha sin agus atá i gceist anseo i dtuaisceart Ros Comáin. Is cuid den chríos droimníní é tuaisceart Mhainistir na Búille (seandúiche Uachtar Thíre) agus feictear nasc láidir idir na míreanna *droim*, *doire* agus *cnoc* sa tábla thuas. Léirítear dáileadh na míreanna i ndúichí Mhagh Loirg agus Uachtar Thíre i **Léarscáil Dáileacháin 1** ar chúl an tsaothair. Feicimid ón tábla thuas gurb iad na míreanna saorga agus talmhaíochta (m.sh. *baile*, *gort*, *cluain*, *cill*, *garraí*) na cinn is coitianta i gContaetha Luimnigh agus Port Láirge.

Tugann Figiúr 8 anseo thíos, léargas dúinn ar na míreanna coitianta a bhí in úsáid sa phróiseas ainmnithe áite ag tréimhsí ama éagsúla, ag brath ar struchtúr an ainm agus aois an ainm mar atá pléite thuas. Is féidir a mhaíomh go léiríonn Figiúr 8 na míreanna áirithe a tháinig chun tosaigh ar chinn eile in imeacht ama. Tabharfaidh sé léargas ar na míreanna is mó úsáid sa cheantar i measc ainmneacha na mbailte fearainn freisin.

⁷⁴⁶ De réir mar a théitear ó thuaidh sa chontae seo, is lú ainmneacha le míreanna saorga atá ann (níl aon sampla den eilimint *baile* i bpar. Chill Rónáin agus níl ach sampla amháin den eilimint *cill*).

Anailís ar na Míreanna is Coitianta

Roghnaíodh na deich mír is coitianta a bhí le fáil in ainmneacha bailte fearainn an cheantair. Tabharfar míniú gonta ar na míreanna seo, ós rud é go bhfuil siad pléite cheana sna caibidlí thuas. Pléifear struchtúr na n-ainmneacha bunaithe ar an srathú aoise a rinneadh thuas agus níor mhiste don léitheoir súil a chaitheamh ar na léarscáileanna dáileacháin i dteannta an ábhair anseo thíos, chun léargas níos fearr a fháil ar dháileadh na míreanna sna dúichí. Is iad na míreanna is coitianta atá le sonrú in ainmneacha na mbailte fearainn ná: *doire*, *cnoc*, *droim*, *baile*, *cluain*, *ceathrú*, *ard* agus *corr*.⁷⁴⁷

Figiúr 9: Míreanna Coitianta

Doire [Léarscáil Dáileacháin 1]

Is é an focal *doire* ‘io, probably neuter; an oak-wood; a grove, thicket’ (*DIL* sv. *daire* I, II) an mhír is coitianta atá le fáil in ainmneacha na mbailte fearainn i seandúichí Mhagh Loirg agus Uachtar Thíre. Tá 19 logainm leis an mír seo suite i dtuaisceart pharóiste Ard Carna as iomlán de 27 sampla sa cheantar taighde. Tá formhór na samplaí suite laistigh de cheantar na gcriosanna droimníní i dtuaisceart an chontae, agus gheofar ar a laghad cúig shampla eile den fhocal *doire* (nó a leagan díspeagtha *doirín*) i bparóiste Chill Rónáin atá ar theorainn thoir an cheantair seo.⁷⁴⁸ Tháinig leathnú ar an gciall a bhain leis an bhfocal seo le himeacht aimsire agus de réir Uí

⁷⁴⁷ Áirítear leaganacha díspeagtha agus malartacha anseo (*doirín*, *dromainn*) ach fágadh *ard* agus *corr* as an áireamh má bhí feidhm aidiachtach léirithe acu.

⁷⁴⁸ Mar shampla: bailte fearainn Derreenavicara < *Doirín an Bhiocáire, Derreenavoggy < *Doirín an Bhogaigh agus Derrinisky < *Doire an Uisce (Ó hAisibéil, 2013b).

Mhaolfabhail, ‘I gcuid mhór logainmneacha i gceantracha uisciúla ar imill locha is ionann *doire* agus droimnín atá ina oileán san uisce’ (2005: 52). Is cosúil go dtagraíonn an mhír *doire* do thalamh ard nó tulach bheag timpeallaithe ag an bportach, ná do choillearnach dharach. Is féidir é seo a fheiceáil go soiléir ar **Léarscáil Dáileacháin 1**, áit nach bhfaightear na míreanna *ard*, *cnoc* nó *droim* sa cheantar céanna agus atá *doire* léirithe. Is iondúil go mbíonn an mhír seo ina mír thosaigh in ainmneacha an cheantair agus í sa struchtúr *ainmfhocal* + *alt* + *ainmfhocal* (12), ach tá an struchtúr *ainmfhocal* + *ainmfhocal cáilithe* (7) le fáil freisin. Ní fhaightear ach sampla amháin den eilimint *ard* ar an taobh ó thuaidh d’abhainn na Búille.

Cnoc [Léarscáil Dáileacháin 1]

Tá 20 sampla den mhír *cnoc* ‘o, m. *cnoc* m. lump, protuberance; hill, mound’ (*DIL* sv. *cnoc*) nó ‘hill, hillock, eminence’ (Ó Mainnín, 1994: 39) le fáil sa cheantar taighde seo agus tá an móramh díobh (16 sampla) in iardheisceart an cheantair, ar an taobh ó dheas den Bhúill (.i. Magh Loirg) nó in aice bhruacha na Sionainne timpeall ar pharóiste Thuaim Ná (féach **Léarscáil Dáileacháin 1**). Tá cnocáin bheaga sna bailte fearainn go léir ina luaitear an mhír seo ar ndóigh, ach tá difríochtaí móra idir an taobh thoir agus an taobh thiar de Mhagh Loirg ó thaobh airde na gcnocán seo. Tá na cnocáin in aice na Sionainne c. 50m ar airde agus tá airde 130m ag ceann acu san iarthar i mbaile fearainn Knockadoobrusna. Bíonn an mhír seo le fáil in ainmneacha den struchtúr *ainmfhocal* + *alt* + *ainmfhocal* don chuid is mó, rud a fhágann, de réir na teoirice atá leagtha amach thuas, go bhféadfadh aois suas agus anuas le 1000 bliain a bheith ag cuid de na hainmneacha seo (cé gur dócha go bhfuil a bhformhór roinnt mhaith níos deireanaí).

Droim [Léarscáil Dáileacháin 1]

Tá an focal *droim* ‘ridge, usually of elevated ground; hill’ (*DIL* sv. *druim(m)* III) agus focal gaolmhar – *dromainn* ‘humped (?) back; hillock’ (*DIL* sv. *drumman*) ar an tríú mír is coitianta sa cheantar taighde le 19 sampla. De réir Mhic Aodha, is éard a bhí i gceist leis an bhfocal *droim*, ‘go háirithe i gceantar na ndroimnín[í], is iondúil go dtugtar *droim* ar ardán talaimh go háirithe más ardán fada atá faoi chaibidil’ (1996: 17). Oireann an bhrí áirithe seo go seoigh le comhthéacs topagrafach na míre seo i dtuaisceart Ros Comáin, áit a bhfuil naoi sampla den mhír suite in aice a chéile in oirthuaisceart Thuaim Ná timpeall ar na droimníní ísle (60-80m) atá go flúirseach sa chuid seo den dúiche (féach **Léarscáil Dáileacháin 1**). Is gnách go mbíonn an

struchtúr *ainmfhocal* + *ainmfhocal cáilithe* ag ainmneacha leis an mír seo sa cheantar taighde.

Baile [Léarscáil Dáileacháin 2]

Tá 13 sampla den mhír *baile* ‘place, township’ (*Ó Dónaill*) ar an taobh ó dheas d’abhainn na Búille agus ceithre cinn in Uachtar Thíre ar an taobh ó thuaidh den abhainn. Pléitear úsáid agus ciall na míre seo i dtuaisceart Ros Comáin faoi bhfocal Ballinvilla, p. Chill Lomad, thuas. Maidir leis an mbrí mheasta atá ag an bhfocal *baile*, de réir Toner: ‘The defining characteristic of the baile is occupied space, whether by a habitation (farmstead, village, town, etc.) or by agricultural land (farm, townland, ballybetagh)’ (2004: 43). Tá roinnt de na *bailte* buailte ar a chéile i ndeisceart an cheantair; m.sh. Ballymore West agus Ballymore East or Corbally a bhí mar aon rannán amháin sa tréimhse luath is léir; tá Ballybaun suite díreach in aice leo sin. Tá Ballyculleen agus Ballindrehid buailte ar a chéile i bparóiste Chill Abhaicín agus féach Ballylugnagon agus Ballinphuill atá suite trasna na Búille óna chéile. Is cosúil go bhfuil ocht gcinn de na *bailte* seo suite ar an gconair sheanda *Slighe Assail* (Doran, 2004: 71). Tá an struchtúr *ainmfhocal* + *alt* + *ainmfhocal* ag an gcuid is mó de na samplaí atá againn ach tá dhá shampla den struchtúr *ainmfhocal* + *ainmfhocal cáilithe*, dhá shampla de *ainmfhocal* + *sloinne* agus sampla amháin den struchtúr (*alt* +) *ainmfhocal* + *aidiacht*. Is fearr glacadh leis an gciall ‘place’ don fhocal *baile* i dtuaisceart Ros Comáin ós rud é nach bhfuil aon rian de lonnaíocht sheanda sna *bailte* atá den struchtúr *ainmfhocal* + *ainmfhocal cáilithe*. Léirítear na míreanna saorga *baile*, *cill* agus *lios* ar **Léarscáil Dáileacháin 2** d’fhonn pictiúr bunúsach a thabhairt ar phatrún lonnaíochta an cheantair (Féach Cawley, 1982).

Cluain [Léarscáil Dáileacháin 3]

Tá an eilimint *cluain* ‘meadow, pasture-land, glade’ (*DIL* sv. *clúain*) ar cheann de na míreanna is coitianta i lár agus in iarthar Ros Comáin agus faightear 16 sampla di i dtuaisceart an chontae. Is féidir patrún soiléir a fheiceáil ar an léarscáil fho-ithreach den cheantar seo (féach **Léarscáil Dáileacháin 3**) maidir le dáileadh na míre *cluain* a bheith cois abhann, cois locha nó suite ar imeall nó i lár portaigh. Léiríonn torthaí taighde Uí Chearbhaill (2010: 16-7) ó Thiobraid Árann gurb iondúil bealach uisce agus talamh nó ithir fhliuch a bheith suite in aice *cluainte* agus is féidir linn na tréithe céanna a aithint anseo go héasca. Tá ocht sampla den struchtúr *ainmfhocal* + *ainmfhocal cáilithe* sa cheantar taighde, péire den struchtúr *réimír* + *ainmfhocal* agus ceithre shampla de (*alt* +) *ainmfhocal* + *aidiacht*.

Ceathrú [Léarscáil Dáileacháin 3]

Tá 12 sampla den fhocal seo i measc logainmneacha an cheantair. *Ceathrú* ‘quarter, fourth part... part; district, quarter, name of a measure of land’ (*DIL* sv. *cethramthu(e)*) atá i gceist. Meastar an líon is mó samplaí den mhír *ceathrú* a bheith i gCúige Chonnacht (O’Connor, P., 2001: 42) agus léiríonn léarscáil dáileacháin an cheantair seo go bhfuil formhór na gceathrúna suite in iarthar an cheantair taighde ar thalamh réasúnta maith. Tá *ceathrú* le fáil in ainmneacha den struchtúr *ainmfhocal + alt + ainmfhocal* (*Ceathrú na gCaorach*), (*alt + ainmfhocal + aidiacht*) (*An Cheathrú Mhór*) sa cheantar taighde agus is cosúil gur ainm a cumadh go déanach é *An Leithcheathrú* ach é sa struchtúr *réimír + ainmfhocal*. Féach dáileadh na míre *achadh* sa cheantar taighde seo i gcomparáid le *ceathrú* ar **Léarscáil Dáileacháin 3**.

Ard [Léarscáil Dáileacháin 1]

Tá 11 baile fearainn i dtuaisceart an chontae ina bhfaightear an mhír *ard* ‘high place, height’ (*DIL* sv. *1ard* II (a)) ó ‘cnocán nó talamh a sheasann aníos’ (Mac Aodha, 1996: 17) agus tá sí le fáil i logainmneacha ó cheann ceann na tíre (O’Connor, 2001: 18). Níl aon sampla den mhír seo in Uachtar Thíre, ach tá sampla amháin i bparóiste Chill Rónáin (*BLÉ*). Tá móramh na samplaí dírithe ar an gcoirnéal thoir theas de Mhachairí na Búille. Díol spéise is ea dáileadh na n-eilimintí *corr* agus *doire* a chur i gcodarsnacht leis an eilimint *ard*. Bíonn éagsúlacht airde idir 60m agus 120m ag baint leis an mír seo i ndeisceart an cheantair. Faightear an mhír *ard* in ainmneacha den struchtúr *ainmfhocal + ainmfhocal cáilithe* (6), *ainmfhocal + ainm pearsanta* (2) agus (*alt + ainmfhocal + aidiacht*) (3) sa cheantar taighde.

Corr [Léarscáil Dáileacháin 1]

Tá 10 sampla den mhír *corr* teastaithe sa cheantar taighde seo. Is féidir linn an focal *corr* a mhíniú mar ‘projecting point, edge; rounded hill, rounded hump’ (*Ó Dónaill* sv. *1-2corr*) agus léirítear sa Léarscáil Dáileacháin go bhfuil an mhír áirithe seo sách coitianta laistigh de dhúiche Uachtar Thíre. Tá péire le fáil sa Chorrshliabh (*Corr na Míolta* agus *Corr na gCliath*) agus tá na cinn eile (seachas *Cornaveagh*) suite sa chrios droimníní in iarthuaisceart Ard Carna. Ní thagann an mhír seo chun tosaigh, is cosúil, sa phróiseas cumtha ainmneacha go dtí go dtagann an struchtúr *ainmfhocal + alt + ainmfhocal* chun cinn san 11ú haois.

Mar fhocal scoir, léiríonn an anailís thuas cuid de na féidearthachtaí taighde breise atá ag eascairt ón gcineál taighde seo, áit a ndéantar scrúdú ar dheilbhíocht, srathú aoise agus ar dháileadh míreanna éagsúla i logainmneacha chun teacht ar thuiscint

níos iomláine ar mhíreanna logainmníocha agus ciall mheasta na míreanna sin i gceantar taighde faoi leith. Is saothar thar a bheith úsáideach é leabhar O'Connor (2001), ach tá an saothar úd bunaithe ar fhoirmeacha béarlaithe na n-ainmneacha amháin, rud a fhágann go bhfuil amhras faoi mhíreanna áirithe agus faoina gciall (m.sh. *coill/cill*, *baile/béal átha*, *corr* (aid.)/*corr* (ainmfh.)). Is éasca nasc a léiriú ar léarscáileanna idir míreanna topagrafacha agus topagrafaíocht an cheantair, ach ní féidir glacadh lena leithéid go dtí go bhfuil an obair theangeolaíoch déanta go sásúil.

Conclúid

Ba é príomhaidhm an tráchtais seo grinn-anailís a dhéanamh ar 300 ainm baile fearainn i dtuaisceart Chontae Ros Comáin, d'fhonn leaganacha údarásacha Gaeilge na n-ainmneacha a mholadh. Rinneadh cur síos beacht ar aidhm an tionscadail, ar leagan amach an cheantair taighde, agus ar mhodheolaíocht na hoibre ag tús an tsaothair seo. Pléadh tábhacht, cúlra agus fiúntas na bhfoilseachán ba mhó a raibh baint acu leis an gceantar taighde sa **Réamhaiste** agus rinneadh mion-scagadh ar na foinsí is torthúla ó thaobh líon na bhfoirmeacha stairiúla de freisin.

Baineadh foirmeacha stairiúla amach as na príomhfhoinsí taighde a bhí roghnaithe don tionscadal seo. Thángthas ar fhoirmeacha stairiúla d'ainmneacha na mbailte fearainn, de mhionainmneacha agus d'ainmneacha ar ghnéithe nádúrtha agus saorga eile sa cheantar taighde i measc na bhfoinsí seo. Níorbh í aidhm an tráchtais seo breithiúnas a thabhairt ar cheisteanna dátaithe i dtaobh na bhfoirmeacha stairiúla a bhí le fáil sna príomhfhoinsí aitheanta. Baineadh leas, de réir mar ba chuí, as eagráin scolártha de na foinsí (más ann dóibh) agus fágtar don léitheoir cur chuige an eagarthóra sin a mheas. Níor úsáideadh aois na lámhscríbhinne amháin cuir i gcás, ach an dáta a bhí luaite leis an bhfoirm sna heagráin de na hannála mar shampla. Níorbh í aidhm an tráchtais ach an oiread, gach uile fhoirm d'ainm a aimsiú agus bhí gá le teorannú a dhéanamh ar líon na bhfoinsí le smacht a choinneáil ar an tionscadal. Sa deireadh, cuireadh 48 foinse san áireamh don tráchtas agus baineadh c. 7300 foirm éagsúil as na foinsí sin. Mar is léir ón tábla ar lgh. 25-6 thuas, bhí foinsí áirithe níos torthúla ach ní haon cur amú a bhí san am a caitheadh le foinse ar bith. Ar ámharaí an tsaoil, scríobhadh cúpla mórfhoinse Gaeilge sa cheantar taighde féin, rud a chiallaigh go raibh cuntas áitiúil againn ar imeachtaí an cheantair na céadta bliain ó shin. Ar ndóigh, chabhraigh an iomad foirmeacha Gaeilge seo go mór leis an bpróiseas anailíse. Bhí sé éasca go leor, cuid de na hainmneacha a rianú siar

(a leithéid Ardmore < An tArd Mór) ach bhí cúpla cás ann inar teipeadh glan ar bhunleagan an ainm a aimsiú (m.sh. Osnagh < *Usnach?).

Bhí na leaganacha Gaeilge a bhí le moladh ag brath ar na foirmeacha stairiúla a bheith bainte amach go cruinn as na bunfhoinsí taighde, agus ar ndóigh, ar an anailís a bheith déanta go ciallmhar orthu. Uaireanta, bhí bunmhíreanna an ainm thar a bheith soiléir, agus uaireanta eile, bhí gá le tuilleadh tochailte i bhfoinsí tánaisteacha ábhartha. Bhíothas ag brath go mór freisin ar an bhfianaise a bhí léirithe sna foirmeacha foghraíochta áitiúla a bailíodh i 1988, 2011 agus 2012. Déantar plé ar chuid de na tréithe canúna atá léirithe sna foirmeacha áitiúla faoi **Obair Allamuigh**.

Scríobhadh tráchtairacht ar thréithe na n-ainmneacha agus ar an ábhar inspéise a bhí léirithe sna foirmeacha stairiúla. Rinneadh tréaniarracht an cúlra topagrafach agus seandálaíochta a léiriú, go háirithe nuair ba léir nasc láidir a bheith idir ainm na háite agus topagrafaíocht an bhaile fearainn. Léirítear i gcuid den tráchtairacht, mar shampla, go raibh míreanna comhchosúla idir tuaisceart Ros Comáin agus Contaetha Liatroma agus Muineacháin, níos mó ná mar a bhíothas ag súil agus bheifí ag súil le tuilleadh forbairtí a dhéanamh ar an ngné áirithe seo amach anseo. Bhí ról nach beag ag an obair allamuigh le tuiscint cheart a fháil ar thopagrafaíocht an cheantair agus ba chuid riachtanach den phróiseas a bhí ansin a chur go mór leis an saothar.

Tá torthaí taighde spéisiúla eile le baint ó bhunachar an tionscadail seo go fóill, ach go háirithe staidéar a dhéanamh ar an nasc, a áirítear go forleathan i dtuaisceart Chonnacht, idir an cineál carraige, an saghas fo-ithreach, patrúin lonnaíochta an cheantair agus na míreanna topagrafacha atá teastaithe sna logainmneacha. Ní mór freisin sa réimse seo, iarrachtaí a dhéanamh suíomh an logainm sa timpeallacht fhisiciúil a cheangal nó a nascadh le hoidhreacht chultúrtha mhuintir an cheantair – bíodh sa tseandálaíocht, sa tíreolaíocht nó in anailís theangeolaíoch ar leaganacha stairiúla den logainm a dhéantar sin.

Aguisíní

Gheofar anseo thíos Innéacs Gaeilge d'ainmneacha na mbailte fearainn, innéacs Béarla agus ansin innéacs de na míreanna nó na heilimintí éagsúla a mheastar a bheith le fáil sa cheantar taighde bunaithe ar an anailís thuas.
