Questionnaire Pack for Research Study Entitled

Physical Activity, Eating Behaviours & Psychological Well Being among Undergraduate Students:

St Angela’s College, Sligo

Respondent No:
The following questionnaire is designed to elicit information on a number of key areas related to your Physical activity, Eating behaviours and Psychological well being:

The questionnaire has 4 main sections:

Section 1 will ask you about biographical/demographic details and general health indicators

Section 2 will ask questions in relation to your physical activity behaviours

Section 3 will ask question in relation to your eating behaviours

Section 4 will deal with psychological well being.

Please complete each section. The majority of questions only require you to tick a box; however instructions for individual questions will be given as appropriate. It will take you approximately 20 minutes to complete the questionnaire. When you have completed the questionnaire, you return it to either me (the researcher) or another nominated representative, present in the lecture hall.
Section 1

Demographic Details

1.1 In What Country were you born?

1.2 What is your current Marital Status?

- Single
- Separated
- Cohabiting
- Divorced
- Married
- Widowed

1.3 How many dependants do you have?

1.4 What is your monthly income at present?

1.5 Where does this income come from and in what proportion?

E: How many cigarettes do you smoke per day? ____
F: How many cigarettes do you smoke per week? ____
G: How many units of alcohol do you consume on an average week? □

1 Unit equals: Small glass of wine; or
Half pint of Beer
1.5 Units equals: One spirit measure

1.20: In your opinion, which of these descriptions best describes your current level of exercise (please tick one box only)
I am taking enough exercise □
I should be taking a little more exercise □
I should be taking a lot more exercise □
Not sure □

1.21: Which of the following descriptions best describes your current diet or food-eating habits? (please tick one box only)
Diet is about right □
Diet should be a little better □
Diet should be a lot better □
Not Sure □
Section 2
Physical Activity Behaviours

The following questions will ask you about the time you spent being physically active in the last 7 days. Please answer each question even if you do not consider yourself to be an active person. Please think about the activities you do at work, as part of your house and garden maintenance, to get from place to place, and in your spare time for recreation, exercise or sport.

Within this questionnaire, Physical activity is classified into different intensity levels, e.g., vigorous, moderate etc.

**Vigorous** physical activities refer to activities that take hard physical effort and make you breathe much harder than normal. Think only about those physical activities that you did for at least 10 minutes at a time.

2.1: During the last 7 days, on how many days did you do vigorous physical activities like heavy lifting, digging, aerobics, running or fast bicycling for at least 10 minutes at a time?

Days per week: 

No vigorous physical activities ☐  
*Skip to question 3*

2.2: How much time did you usually spend doing **vigorous** physical activities on one of those days?

Hours per day: 

Minutes per day: 

Don't know/Not sure ☐

**Moderate** activities refer to activities that take moderate physical effort and make you breathe somewhat harder than normal

2.4: During the last 7 days, on how many days did you do **moderate** physical activities like carrying light loads, bicycling at a regular pace, or doubles tennis for at least 10 minutes at a time?

**NB:** Do not include walking.

Days per week: 

No Moderate physical activities ☐  
*Skip to question 5*

Vigorous minutes weekly total

2.4: How much time did you usually spend doing **moderate** physical activities on one of those days?

Hours per day: 

Minutes per day: 

Moderate minutes weekly total

Don't know/Not sure ☐
Think about the time you spent **walking** in the last 7 days. This includes at work and at home, walking to travel from place to place, and any other walking that you might do solely for recreation, sport, exercise, or leisure.

2.5: During the last 7 days, on how many days did you walk for at least 10 minutes at a time?

Days per week: ____________  
No Walking ☐  
**Skip to question 7**

2.6: How much time did you usually spend walking on one of those days?

Hours per day: ____________  
Minutes per day: ____________  
Don’t know/Not sure ☐  
Walking Minutes weekly total  

**Total IPAQ Met /Mins per week**

**Total PA Mins per week:** ____________

2.7: During the last 7 days, on how many days did you engage in any **Strength/Resistance/ Weight** training activities e.g. using weights machines or using free weights for at least 10 minutes at a time?

Days per week: ____________  
No Strength/Resistance Work ☐  
**Skip to question 9**

2.8: How much time did you usually spend engaged in **Strength/Resistance** training on one of those days?

Hours per day: ____________  
Minutes per day: ____________

2.9: During the last 7 days, on how many days did you engage in any **Toning, Relaxation or Stretching** activities e.g. Yoga, Pilates, Calenetics for at least 10 minutes at a time?

Days per week: ____________  
No Toning, Relaxation or stretching activities ☐  
**Skip to question 11**

2.10: How much time did you usually spend engaged in **Toning, Relaxation or stretching** activities on one of those days?

Hours per day: ____________  
Minutes per day: ____________

The last question is about the time you spent **sitting** during the last 7 days. Include time spent at work, at home, while doing course work and during leisure time. This may include time spent sitting at a desk, visiting friends, reading, or sitting or lying down to watch television.

2.11: During the last 7 days, how much time did you spend sitting on a typical day?

Hours per day: ____________  
Minutes per day: ____________
Section 2: Physical Activity Stages of Change

*Thinking now about regular physical activity, by that I mean:
Taking part in exercise or sports 2-3 times per week for a minimum of 20 minutes at a time, or more general activities like walking, cycling or dancing 4-5 times per week accumulating at least 30 minutes per day.

2.12: With this in mind, could you indicate which statement best describes how physically active you have been over the last six months?

- I am not regularly physically active and do not intend to be so in the next six months:……………………………
- I am not regularly physically active but am thinking about starting to do so in the next six months:………………
- I do some physical activity but not enough to meet the description of regular physical activity:……………………………………
- I am regularly physically active but only began in the last six months:………..
- I am regularly physically active and have been so for longer than six months:………………………………………………

2.13:  
Confidence (Self-Efficacy)

“Regular physical activity” means taking part in exercise or sports 2-3 times per week for a minimum of 20 minutes at a time, or engaging in more general activities like walking, cycling or dancing 4-5 times per week accumulating at least 30 minutes per day.

Circle the number that indicates how confident you are that you could maintain regular physical activity in each of the following situations (NB: see below for coding scale)

a) When I am tired 1 2 3 4 5
b) When I am in a bad mood 1 2 3 4 5
c) When I feel I don’t have time 1 2 3 4 5
d) When I am on holiday 1 2 3 4 5
e) When it is raining or snowing 1 2 3 4 5

Scale
1 = not at all confident
2 = slightly confident
3 = moderately confident
4 = very confident
5 = extremely confident
The following questions refer to social support for your physical activity. The following is a list of things people might do or say to someone who is trying to be physically active regularly. Please read and answer every question. If you are not physically active, then some of the questions may not apply to you. Please rate each question two times. Under “Family”, rate how often any family member has said or done what is described during the past three months. Under “Friend”, acquaintances, or co-workers, rate how often anyone has said or done what is described during the past three months.

Please write one number from the following rating scale in each space.

1 = none
2 = rarely
3 = a few times
4 = often
5 = very often
0 = does not apply

Please Turn Over to View Table
1. Did Physical Activities with me

2. Offered to do Physical Activities with me

3. Gave me helpful reminders to be physically active (ie, “Are you going to do your activity tonight?”)

4. Gave me encouragement to stick with my activity programme.

5. Changed their schedule so we could do some form of physical activity together.

6. Discussed physical activity with me.

7. Complained about the time I spent doing physical activity.

8. Criticized me or made fun of me for doing physical activity

9. Gave me rewards for being physically active (ie, gave me something I liked)

10. Planned for physical activities on recreational outings.

11. Helped plan events around my physical activities.

12. Asked me for ideas on how they can be more physically active.

13. Talked about how much they like to be physically active.

<tr>
<td>I currently practice healthy eating regularly and have been doing so for longer than six months.</td>
</tr>
</tbody>
</table>
Section 3
3.18: Healthy Eating Self efficacy

Confidence (Self-Efficacy)

Healthy Eating simply means eating a wide variety of food, in correct amounts, as outlined within the food pyramid recommendations (DOH&C, 2005). It also involves using the food pyramid as a guide to plan types and amounts of food you eat on most dining occasions.

NB: On a scale of 1-5 (see below for scaling code) please, circle the number that indicates how confident you are that you could maintain a healthy eating regime in the following situations.

a) When I am tired 1 2 3 4 5
b) When I am in a bad mood 1 2 3 4 5
c) When I feel I don’t have time 1 2 3 4 5
d) When I am on holiday 1 2 3 4 5
e) When it is raining or snowing 1 2 3 4 5

Scale

1 = not at all confident
2 = slightly confident
3 = moderately confident
4 = very confident
5 = extremely confident
Section 3

3.19: Social Support for Healthy Eating

The following questions refer to Social Support for your Healthy eating

The following is a list of things people might do or say to someone who is trying to engage in healthy eating regularly. Please read and answer each question. NB if you are not engaged in healthy eating, then some of the questions may not apply to you. Please rate each question two times. Under “Family”, rate how often any family member has said or done what is described during the past three months. Under “Friend”, acquaintances, or co-workers, rate how often anyone has said or done what is described during the past three months.

Please write one number for the following rating scale in each space.

1 = none
2 = rarely
3 = a few times
4 = often
5 = very often
0 = does not apply
1. Engaged in Healthy Eating with me  
2. Offered to engage in Healthy Eating with me  
3. Gave me helpful reminders to eat healthily (ie. “suggested that I should order salad as a side dish as opposed to chips”)  
4. Gave me encouragement to stick to my healthy eating regime.  
5. Changed their schedule so we could practice Healthy Eating together.  
6. Discussed Healthy Eating with me.  
7. Complained about the time I spend preparing to engage in Healthy Eating.  
8. Criticized me or made fun of me for maintaining my healthy eating regime.  
9. Gave me rewards for maintaining Healthy Eating (ie. Gave me something I liked)  
10. Planned for Healthy Eating on recreational outings.  
11. Helped plan events around my Healthy Eating.  
12. Asked me for ideas on how they can eat more Healthily.  
13. Talked about how much they like to engage in Healthy Eating.
